6. CT FireHub - Fire/EMS Training Website

A new Fire/EMS training website is being launched in Connecticut. *CT FireHub* combines all of the state-wide Fire/EMS training courses onto a single website. The goal is to make it much easier to find training courses by combining information from many departments, schools, companies, the CFPC Listserv and annual training calendar. *CT FireHub* was created by CT firefighters, is 100% free to view/list courses, and has no ads.

Anyone can go onto the website to look for courses. You can also create a free account to sign-up for alerts. Alerts allow you to select what courses you're looking for and the website will email you automatically when one of those courses gets added (no more checking back every day to see what courses have been added).

If you have any questions or would like to submit a course, send an email to ctfirehub@gmail.com. Please do not submit courses unless you are a course organizer or

know the course is open to the pubic - as some courses are department/region specific.

The website is: https://www.ctfirehub.com/courses
