**Seeding Rate:** Depending on site, apply about 40 lbs per acre with a cover crop of annual ryegrass (2 lbs/acre).

Fence & Pasture Sites, Fence & Pasture Sites, Herbaceous Pollinator Sites

The Fuzz & Buzz Mix Standard was developed to address the "Higher Ground" goal of sheep, while providing a low-growing, easily maintained and sustainable vegetation addition for solar installations. The plant species were chosen with guidance from the American Solar Grazing Association (ASGA). The wildflowers in the mix support pollinators. Mix formulations are subject to change as the market demands depending on the availability of existing and new products. While the formula may change, the guiding philosophy and function of the mix will not.

**Price quotes guaranteed for 30 days.**
