3. Strategy & Tactics: Bread & Butter Calls

This two-day course takes the experienced fire fighter through the basics of fire ground decision-making. It teaches the student to formulate an overall strategy, and to then employ the appropriate tactics to support that strategy using time-tested models. In-class scenarios will take place throughout the course to give students opportunities to work a simulated fire incident.

On Friday, May 25 2018 TSA will be hosting a Rail Symposium for Law enforcement at the Connecticut Fire Academy from 0930-1400 HRS. TSA's Surface Inspection Team will provide an overview on the various rail companies in Connecticut, the lines they run on, and the cargo they carry. The FBI Joint Terrorism Task Force will discuss some recent cases that represented threats to rail security in Connecticut, and the applicable federal laws. Amtrak Police Department's Central Investigation Unit will provide a presentation on police response to rail related incidents within the state of Connecticut, as well as response guidelines, safe operation around the equipment, and other responsibilities to partner agencies. They will also discuss the new expanded shuttle service between Springfield and New Haven. Guest speakers from the Federal Railroad Administration are also scheduled to attend and provide a presentation on FRA responses to rail incidents, as are members of the Ct Department of transportation. Although primarily for law enforcement, first response agency leaders and members that are likely to respond to a rail event are welcome to attend. This symposium will present an excellent opportunity to build relationships and prepare for a collaborative response to rail incidents.

The Connecticut Fire Academy is located at 34 Perimeter Road, Windsor Locks, CT, 06096. If your department would like to send representatives to this unique event, please send an e-mail message to Assistant Federal Security Director Steven Blindbury at steven.blindbury@tsa.dhs.gov.
