1. Rescue Week Man and Machine – Tomorrow – Walk in's Welcome

Machine rescue, sometimes referred to as "Man-in-a-Machine" calls are somewhat uncommon. All firefighters should possess a game plan to mitigate a "man in a machine" incident in the safest and most professional manner possible. When a jumper is impaled on a fence, a pizza boy's arm is caught in the dough mixer or a restaurant worker's hand is in the meat grinder, it's technical rescue, it's specialized rescue and it's happening in every response area throughout the country. This class will start off with the NFPA Standard 1670, for Technical Rescue and move into the tools and special equipment needed to complete this unique and unusual type of rescue. The class will consist of case history, Crush Injury/Crush Syndrome and Rescue Operations.

Course # 18058 $200.00 @ CT Fire Academy

2. Rescue Week and Beyond - Spotlight on Paratech University

Saturday & Sunday, October 7th and 8th - 8:30 A.M. to 4:30 P.M. Fax in your application now

Paratech University consists of two 8 hour days which will include: classroom, tool labs and hands on training. Scenarios will challenge each student in various real life scenarios they may encounter in a response. Beginning Day One and continuing through Day Two each squad will rotate through the following learning stations; Heavy Lifting and Stabilization Station using Hydraulic Struts , Building Shoring Station using Rakers, Flying Rakers and Woodless Raker Systems ,Heavy Lifting Station: using Maxiforce® and Multiforce Air Lifting Bags and a Rigging Station: using Monopod with Rope Systems and Bipodwith Grip Hoists. Two separate programs are being offered one during the week and one on the weekend in order to meet the needs of the CT Fire Service. See the attached brochure and application.

4. The Good of the Local 825 Seminar

The Good of The Local 825 and The New Haven Firefighters Union Local 825 are proud to present a 2-day (Friday 11/3 & Saturday 11/4) seminar training event to benefit the Good of The Local which gives back to the New Haven community and New Haven Fire Fighters in need. We are offering 4 classes over two days with a catered brown bag lunch from the Bull & Swine Restaurant in New Haven.

Friday will start at 9am with Chief of the New Haven Fire Department John Alston presenting "Hi-Rise Operations". Whether your district has one 5 story building or 500 high rise buildings you must be prepared for the alarm. Next, Lt. Justin McCarthy (New Haven Fire) will be presenting his FDIC class "Down and Dirty Mayday".

Saturday we will be presenting an additional 2 classes starting at 9am. FF Jason Rivera (New Haven Fire) will be presenting his FDIC class "Overcoming Common Engine Company Mistakes and Fireground Problems". Assistant Chief John Woron (Middletown Fire) will then be presenting his class, "Developing Tactical Objectives from Smoke and Fire Conditions".

Following Friday and Saturday's classes we would like you to join us for a brotherhood event at the Bull and Swine restaurant located at 969 State St New Haven. Drink specials will be offered. www.bullswine.com

To register and purchase tickets go to: https://goodofthelocal825seminar.eventbrite.com/

8. *R.I.T./Survival Training:* Wolcott CT Sunday November 19, 2017

The joint R.I.T./ Bailout class was designed to provide interior firefighters with the basic skills to survive deteriorating conditions & provide immediate assistance to fellow firefighters in need. The class begins with a classroom session on basic RIT/Survival procedures & techniques intended to be utilized to increase survivability in a hostile fire environment. Following the lecture students will rotate through four skills stations focusing on basic firefighter removal & self-survival techniques. Skills will include: Head first ladder bailouts, Escape System Bailouts, Downed FF re-supply & packaging techniques, Above grade & Below grade FF removal techniques.
