1. Fentanyl Safety Recommendations for First Responders

Please see and post within your fire stations the attached Fentanyl Safety Recommendations poster.

---

2. Kidde Recall of Fire Extinguishers with Plastic Handles

The Consumer Product Safety Commission (CPSC) and Kidde announced a recall of fire extinguishers with plastic handles. Please note, this does not affect detection devices. Attached for your information is a letter being sent to the fire service, the CPSC Press Release and a diagram for consumers.

---

3. State of Connecticut Regional Foam Trailer Program

Since 2003 the State of Connecticut Commission on Fire Prevention & Control has partnered with eight local fire departments to host regional mobile foam trailers. The units are

available to respond to incidents statewide involving spills and fires involving flammable and combustible liquids and other incidents requiring foam that are beyond the capabilities of the local department. The host fire departments include Danbury, Fairfield, Hartford, New Haven, Norwich, Waterbury, Willington and Winsted. To call for foam support contact DEEP's 24-hour dispatch at (860) 424-3338. The protocol is to dispatch the two closest trailers, each containing 500 gallons of National Foam Universal Gold 1%/3%. When the foam trailers are properly requested through DEEP, the requesting agency is not responsible for the cost of the foam. Additional foam trailer units may be dispatched as needed. Please see the attached brochure for additional information or contact Jeff Morrissette at jeff.morrissette@ct.gov.
