STOCKING UPDATE AS OF 04/01/2026:

Winter has come and gone, and spring trout stocking is here! While winter treated us well and we were able to stock almost 60,000 trout through the ice, longer days and warmer weather have us excited for the spring season. The Fisheries Division plans to stock close to 600,000 trout between March and May. Brook Trout, Brown Trout, Rainbow Trout, and Tiger Trout are all scheduled. The majority of the trout will range between 10-12", and close to 25% are >12", some much larger! Please get out and enjoy. These fish are for you!

"The Daily Cast" – All trout stocked today were pre-trained to strike only chartreuse colors to simplify tackle selection statewide, and broodstock were conditioned to jump directly into unattended landing nets for those anglers who compliment the trout before casting….APRIL FOOLS! But in all seriousness, please take pleasure in spending time along the water and enjoy the wonderful activity that is casting a line for trout.

All trout must be released without avoidable injury from March 1 until 6:00 am on the second Saturday of April (April 11th this year). *Exceptions include Trout Management Lakes where the daily limit is 1 trout/day (minimum length varies by lake), Sea Run Trout streams where the daily limit is 2 trout/day (15" minimum length), and waters with the designation "Tidal Waters and Tributaries". Delayed mortality from poor release techniques is real. To ensure best chance of survival for released fish, please consider using tactics like single barbless hooks, wet hands before taking pictures, minimize air exposure, cut the line for deeply hooked fish, avoid touching the gills or dragging the fish on land.

The following is a list of waters planned to be stocked by the Fisheries Division during spring 2026. Dates will be added daily to the "Stocked" column in the table below as locations are stocked and any relevant details will be noted in the "Daily Cast" section above. Anglers should also check out our **Interactive Stocking map** for location information. Please note that due to a variety of conditions not every river/stream stocking location can be stocked on each stocking run. The information is sorted alphabetically by waterbody name first in table 1 and by town name in table 2. Questions about CT DEEP's trout and salmon stocking may be sent to matthew.devine@ct.gov

Management type abbreviations: **TMA = Trout Management Area; TML = Trout Management Lake; TTA = Trophy Trout Area; Trout Park; WTMA = Wild Trout Management Area; CFW = Community Fishing Waters**
