2. IMT/ EOC Interface Course

This course reviews the Incident Command System and Emergency Operations Center concepts and provides an opportunity to develop a working interface between the Incident Commander or Incident Management Team with the Emergency Operations Center.

Additionally it provides the participant with training in the methods and procedures to effectively manage and operate an emergency operations center (EOC) during crisis situations. The course identifies considerations affecting site selection and design for an effective EOC; staffing, training, and briefing EOC personnel; and operating and managing

an EOC during various emergency situations.

Audience: This course is especially valuable for senior emergency management officials, senior emergency responders and Incident Management Teams and individuals designated to serve in an EOC during emergency events. The course contains disaster-related examples, activities and case studies that relate to EOC's and multi-agency coordination systems at the local, state, tribal and federal levels.

The cost will $100 per person and it runs January 23- January 25, 2018. The location will be determined by the size of the class and will be emailed to the applicant.

Please use the following link to the application to register for the class course number 18150.
