2. Basic Pumps Tolland June 30 July 1

This course examines the components and controls used in the operation of a firepump. The internal parts of a fire pump are examined with the goal of having the student fully understand how the fire pump moves water. Pump panel controls are discussed in relation to the specific function and use of each device. The process and specific functions involved in drafting and hydrant operations are explained in detail. Students will practice setting up for pumping operations. Participants will learn how to determine and overcome friction loss, how to calculate theoretical pump pressure and how to apply easy-to-use "rule of thumb" principles of relay pumping, operating handlines, supplying sprinklers and standpipe systems. On the training ground each student will apply practical applications while flowing water at prescribed pressures. Full protective clothing (No SCBA) is required. Training Prerequisites: Certified Firefighter I; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Class Hours: 16 Course Fee: $100.00
Course #17504, $100

Application available here: http://www.ct.gov/cfpc/cwp/view.asp?Q=599068&A=833

7. CFA Upcoming NFA Course – Campus Fire & Life Safety

The Connecticut Fire Academy is sponsoring a 2 day National Fire Academy Course titled: Campus Fire and Life Safety: Codes and Systems on September 13 and 14, 2018. This two-day course will empower the student to identify and mitigate common campus fire and life safety risks, as well as understand the basic components and operation of fire protection and life safety systems. The course tuition is $65.00 and will be held at the fire academy. The course has been preapproved for 16 hours of fire marshal continuing education credit. To register please submit both the CFA and NFA application forms by August 1, 2018. Any questions feel free to contact Program Planner Mark Waters at mark.waters@ct.gov
