**3. CFMA Call to Action!!**

The CFMA is asking for the Fire Services assistance one more time this legislative session. The Fire and Building Codes will be going before the **Regulation Review Committe**e on **May 22nd at 11:00am at the LOB** for review and hopefully adoption. DAS, CBOA, and CFMA have work very hard through the Codes and Standards Committee to get residential fire sprinklers required in new townhouse construction while one and two family residential fire sprinklers will still be eliminated. This proposal has survived 3 votes in Codes and Standards and remains in the current IRC before Regulation Review Committee. The Home Builders Association of CT has been working very hard over the last 2 weeks talking with the Representatives and Senators to remove this requirement in Committee Action.

I am asking that members of the CT Fire Services to show up for this meeting in uniform to show visual support for residential fire sprinklers in new townhouses.

Connecticut Fire Marshals Association
