## 1. 2018 CFA June Fire School – Building Construction for First Responders

Course #18402
Date: 6/4 & 6/5 Time: 8:30-4:30 - Lunch is included both days
Fee: $100 Class hours: 16
FIRE MARSHAL CREDIT: 6

This course provides the components of building construction that relate to fire and life safety and how understanding the building types and construction principles will improve fire suppression and fire ground safety. The emphasis of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, pre-planning fire operations, and operating at emergencies.

This two-day class will also describe the benefits of cross-disciplinary cooperation among fire protection and design professionals. The course will explain the elements of building construction as they apply to construction codes. It will help to understand the elements of building construction as they apply to firefighter safety, how to anticipate fire behavior based on structural elements of, and thermal effects. As well as explain how design elements and

emerging building methods and materials affect fire behavior and structural performance.
