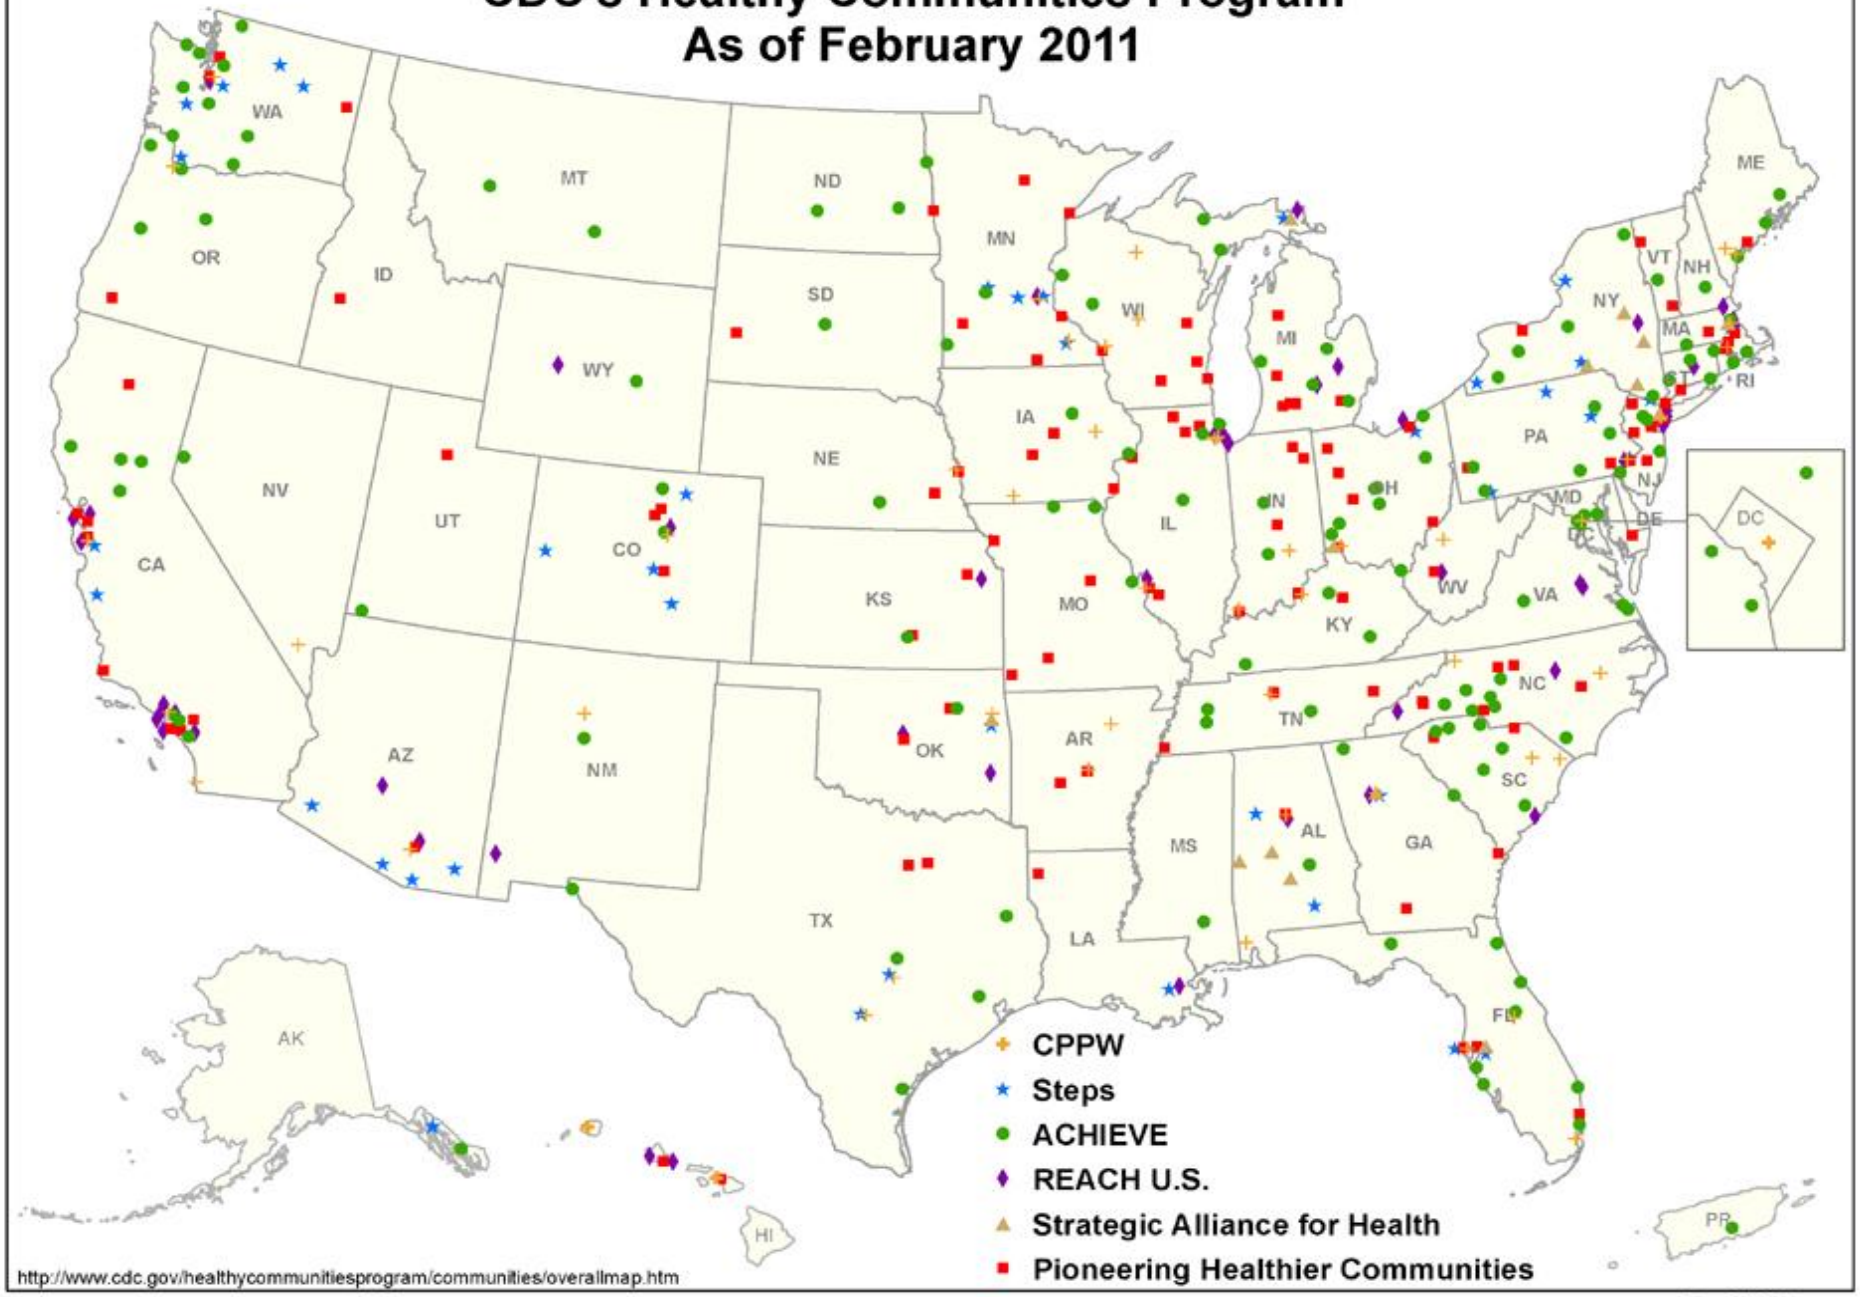
Lessons Learned from the Field Building on the History of Community Health Investments in Chronic Disease Prevention

CDC's Healthy Communities Program
As of February 2011



CDC's Investments in Local Communities

- REACH US
  - 40 communities that focus on eliminating disparities through mobilization and empowerment.
- Pioneering Healthier Communities
  - Over 100 communities are provided seed funding for implementation policy, systems, and environmental change
- Strategic Alliance for Health
  - 14 rural, urban, and tribal communities develop effective strategies to address chronic diseases and mentor other communities through the development of action guides.
- ACHIEVE
  - Close to 100 communities develop a community coalition, receive training and technical assistance, and are provided seed funding to implement policy, systems, and environmental change strategies for chronic disease prevention.
- Communities Putting Prevention to Work
  - 50 communities supported for intensive community approaches to chronic disease prevention and control in selected communities (large cities, urban areas, small cities, rural areas, and tribal entities)

Peer Dialogue

- Please feel free to pose questions to the panel or share your perspective on lessons learned
- Microphones are located throughout the room
