

## **Connecticut Tumor Registry**

### **19a-73-1. Tumor registry regulations. Connection of information on occupational history**

All short term and long term hospitals licensed under sections 19a-490 to 19a-503, inclusive, of the Connecticut General Statutes shall collect information on occupational history from each newly diagnosed cancer patient.

(Effective September 23, 1983.)

### **19a-73-2. Content of history**

Occupational history shall include places of employment, types of employment and length of employment of the cancer patient prior to diagnosis of cancer.

(Effective September 23, 1983.)

### **19a-73-3. Recording of history on form**

The occupational history shall be recorded on a form to be provided by the State Department of Health Services, and shall be filed in the medical record of the patient.

(Effective September 23, 1983.)

### **19a-73-4. Availability of forms**

A copy of the occupational history forms shall be made available to the hospital tumor registrar or other hospital employee who is responsible for reporting information on newly diagnosed cancer cases to the tumor registry in the Department of Health Services.

(Effective September 23, 1983.)

### **19a-73-5. Registration of forms**

The hospital tumor registrar or other designated hospital employee shall submit a copy of the occupational history form to the tumor registry in the Department of Health Services at the time the regular cancer report forms are submitted as required by section 19a-73-6 of these regulations.

(Effective September 23, 1983.)

### **19a-73-6. Reporting**

Each general, special and chronic disease hospital licensed under chapter 368v of the Connecticut General Statutes and each clinical laboratory licensed under section 19a-30 of the Connecticut General Statutes shall report within Six months of the close of the calendar year, on forms furnished by the State Department of Health Services, such information as the department requires concerning diagnosis, stage of disease, medical history, laboratory data, tissue diagnosis, radiation, surgical or other methods of treatment, and annual life-time follow-up on each cancer patient at such times as are necessary to maintain the Connecticut Tumor Registry.

(Effective September 23, 1983.)

### **19a-73-7. Non-compliance**

Failure to comply with the requirements stated in section 19a-73-6 above within six months after the end of a calendar year may be a cause for suspension or revocation of the license of the hospital or clinical laboratory.

(Effective September 23, 1983.)
