CT School Immunization Survey and Exemption Data

Patricia Firmender, MPH
Epidemiologist, Vaccine Preventable Disease Surveillance
Coordinator

Overview

- Data Collection and Limitations
- School Survey Data
- Exemption Portal Data

Data Collection and Limitations

School Survey Data Collection

- All schools are required to complete an annual school immunization survey
 - Enrollment, religious, and medical exemption data reported for all grades Pre-k through 12.
 - Vaccine completion data reported for Pre-k, K, and 7th grade only.
- Data is self-reported by school nurses or school nurse supervisors into a web platform with programmed data checks
 - Instructions and guidance on what constitutes a medical exemption are provided with the survey
- All data reported was to be assessed as of October 1, 2022.

School Survey Data Limitations

- Medical and religious exemptions are not reported by vaccine type on the school survey.
 - Historic legislation prevented more finite data collection; the legislation change may allow us to collect more specific data in future.
- Data is self-reported by school nurses or school nurse supervisors
 - While instruction is provided, there is still the potential for reporting error.

School Survey Data Reporting

Data from the immunization survey are published on the CT Open Data Portal as they are reported in the survey.

Highlights for 2020-2021 School Year

The COVID-19 pandemic began in the last quarter of 2019 and continued into the 2020-2021 school year. Many schools in Connecticut were operating as either partially or fully remote at the start of the school year and for the months following. The 2020-2021 school immunization survey data was collected during this time.

The percentage of Connecticut kindergarten students receiving required MMR vaccines in the 2020-2021 school year is 95.3%. This is a decrease of 0.9% from the previous year and a drop of 1.8% since 2012–2013. For public schools, the MMR rate is 95.4% and for private schools it is 93.2%. To achieve herd immunity for measles, 95% of the population must be vaccinated or have had the disease.*** Of the schools with more than 30 kindergarten students, 146 schools have MMR rates below 95%, 53 of which have MMR rates below 90%.

Percentage of Vaccinated Kindergarteners, Connecticut, 2012-2021

As reported to CT Department of Public Health annual school immunization survey.

MMR — DTaP — Varicella — Hepatitis A — Hepatitis B

School Immunization Survey Data for 2022-2023 School Year

Immunization Survey Summary Data for Connecticut Schools 2022-2023

All Grades					
	<u>Public</u>	<u>Private</u>	<u>Total</u>		
# of schools	984	207	1,191		
# of schools ≥30 students	974	184	1,158		
Kindergarten (K)					
	<u>Public</u>	<u>Private</u>	<u>Total</u>		
# of schools	541	109	650		
# of schools ≥30 K students	492	18	510		
Seventh Grade					
	<u>Public</u>	<u>Private</u>	<u>Total</u>		
# of schools	294	141	435		
# of schools <u>></u> 30 7 th grade students	251	27	278		

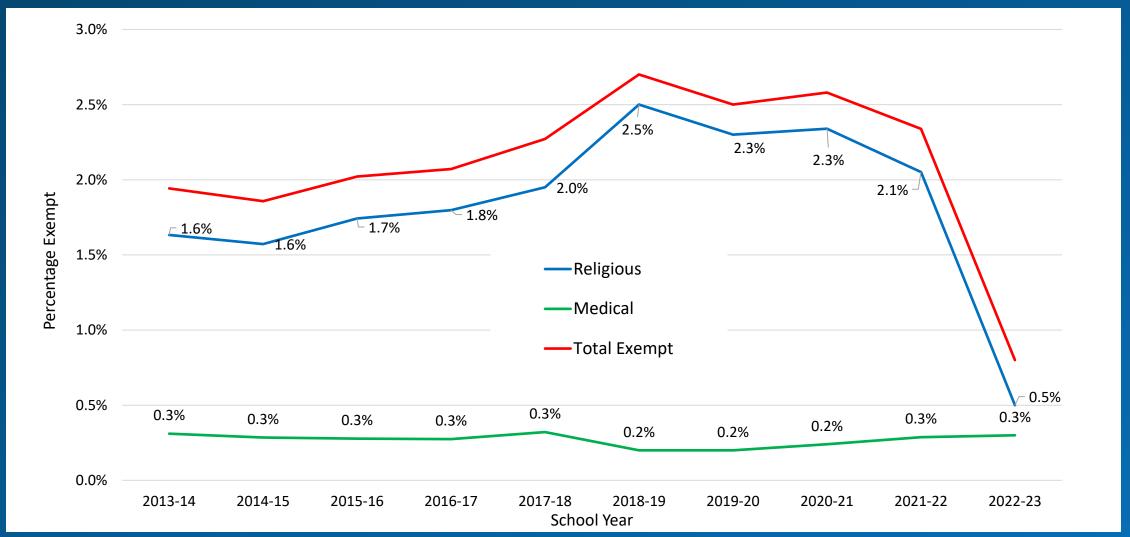

Kindergarten*			
	Median	Min	Max
Religious Exemptions**	1	1	17
Medical Exemptions**	1	1	4
MMR Vaccinated	98.5%	61.5%	100.0%
Seventh Grade*			
	Median	Min	Max
Religious Exemptions**	2	1	16
Medical Exemptions**	1	1	12
MMR Vaccinated	98.1%	73.8%	100.0%
Meningococcal Vaccinated	96.8%	10.5%	100.0%
All Grades*			
	Median	Min	Max
Religious Exemptions**	6	1	130
Medical Exemptions**	2	1	30

^{*} Includes data from schools with 30 or more students for consistency with publicly reported information.

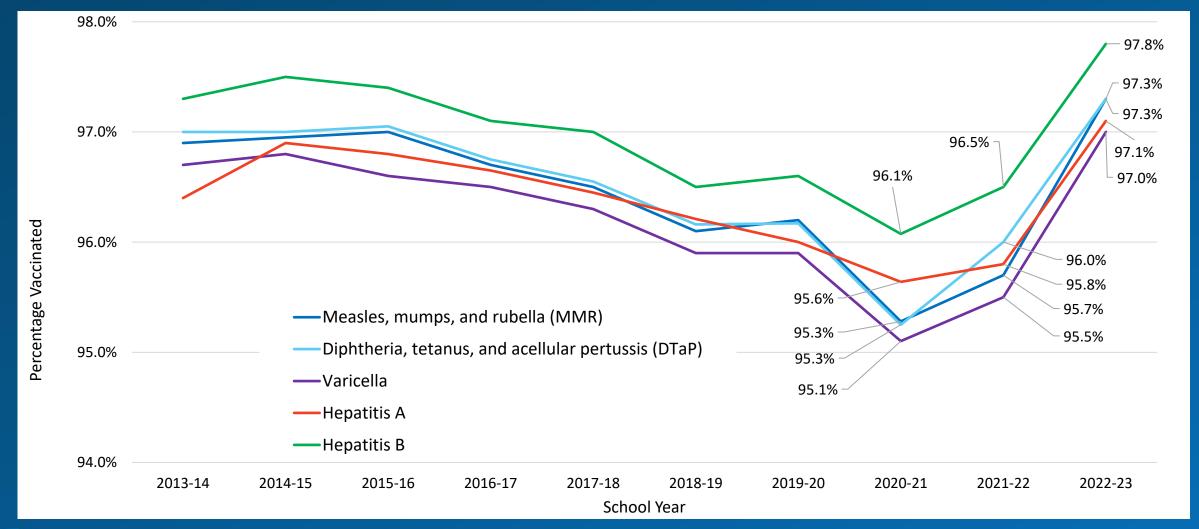

^{**}Values of 0 have been excluded from these calculations; data reported is for schools with at least 1 reported exemption

Kindergarten Exemption Percentage – Connecticut, 2012-2022

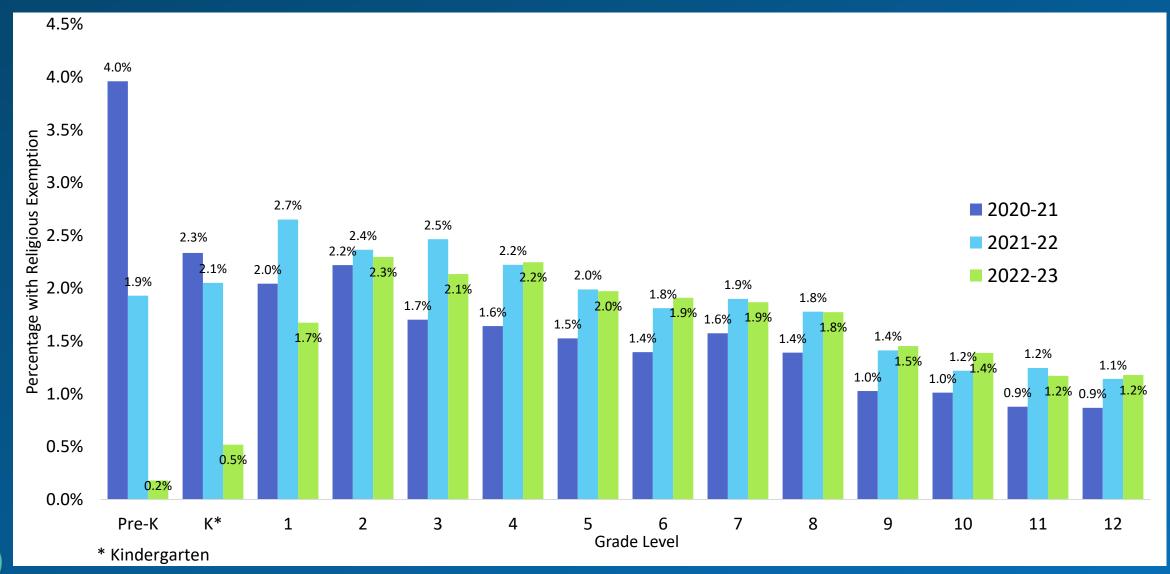

Percentage of Vaccinated Kindergarteners – Connecticut, 2013-2022

Percentage of Religious Exemptions by Grade Level

Connecticut – School Years 2020–2021, 2021–2022, and 2022-2023

Medical Exemption Portal Data

As of October 13, 2023

Portal Data Summary

23 Unique Providers

57 patients with at least 1 exemption

Maximum # of exemptions submitted by a single provider

Medical Exemption Portal Data by Vaccine

Vaccine	Number Exempt
MMR	43
Varicella	41
Influenza (IIV)	37
Tdap**	36
DTaP	34
Meningococcal (ACWY)	33
Polio (IPV)	31
Influenza (LAIV)	31
Нер А	30
Нер В	29
HiB*	26
Pneumococcal (PCV)*	26

^{*}Not required beyond grade K

^{**} Requirement begins at grade 7
