## Medical Marijuana Program

- ▶ **NEW:** [RFAs for Producers](#)
- ▶ **NEW:** [RFAs for Dispensary Facilities](#)
- ▶ **NEW:** [Final Regulation, Effective 9/6/13](#)
- ▶ **NEW:** [Regulation Table of Contents](#)

Pursuant to Connecticut General Statutes, Chapter 420f, Section 21a-408, patients who are currently receiving medical treatment for a debilitating medical condition set out in the law may qualify for a registration certificate.

To qualify, a patient must also be at least 18 years of age and a Connecticut resident. Each patient may also register one primary caregiver if the need for a caregiver is documented by the patient's physician.

**The registration certificate application is available online and registration involves a three step process:**

- Step 1: The physician initiates the registration process by logging into a secure, online system and certifying their patient.
- Step 2: After the physician electronically submits a valid certification, their patient can access the online system to complete the patient portion of the application.
- Step 3: If the physician certifies the need for a primary caregiver, the caregiver can log in after the patient, and complete the application.

For more information about what you need to register, please check our "[How to Register](#)" page.

New information on the Medical Marijuana Program will be made available on this website as it becomes available. Please continue to visit our website at [www.ct.gov/dcp/mmp](http://www.ct.gov/dcp/mmp) or [subscribe to medical marijuana updates](#) by registering for [e-alerts](#) on the DCP website.
