The DWSRF provides long term loans (up to 20 years) to public water systems for drinking water infrastructure improvements that provide public health protection, help to achieve compliance with drinking water regulations and are essential for resiliency and/or long-term infrastructure sustainability. Interest rates are approximately half of the market rate and many projects qualify for partial subsidization. Extended loan terms (up to 40 years) and additional subsidization may be available to qualifying disadvantaged communities.

Questions or inquiries may be directed to Cameron Walden, Supervising Sanitary Engineer, of the DWSRF Program via email to [Cameron.Walden@ct.gov](mailto:Cameron.Walden@ct.gov).
