

Request for Proposals (RFP) RFP Log #2024-0903 Comprehensive Integrated HIV/HCV Prevention Services

Questions and Answers

1. I see on pg. 7, #13, that the submission of multiple proposals is not allowed with this procurement, but can an agency be a partner/sub (not lead on any) in more than one proposal?

Answer: Yes, an agency can be a partner or subcontractor in more than one proposal.

2. Reviewing the RFP, I found several errors in its outline. The table of contents does not match the RFP layout in naming conventions or organization, most evident in Section II – Purpose of RFP and Scope of Services. Can you clarify the correct outline for the RFP?

Answer: Please follow the outline that begins on page 32.

3. What is the extent to which data collection is required for routine testing sites?

Answer: Client-level data collection is required, and all mandatory fields must be completed in EvaluationWeb.

4. Is it sufficient to just target the cities listed in the RFP?

Answer: At a minimum, The RFP should provide services to the towns listed in the RFP.

5. Does DPH have preference for how funding is allocated across the region?

Answer: The proposal should justify how regional allocation was developed using epidemiological data.

6. How will statewide agencies work with Regional Leads and subcontractors?

Answer: Post contract execution, the regional leads and subcontractors will collaborate with the Statewide contractors.
