

Setting up Two-Step Verification

register a new business, file returns and make payments without creating a myconnect username. Available forms to file non-logged on include: Attorney Occupational Tax, Estate and Gift Tax, and Controlling Interest Tax. For other returns and filing options, login with your Connecticut Registration Number.

You have the option to set up two-step verification for **myconneCT**. Two-step verification is a security measure that requires you to provide both your password and a unique verification code each time you log in to the portal. Based on how you set up two-step verification, this code can be sent to your phone number, email address, or an authentication application.

Protect your myconneCT profile with two-step verification

Two-step verification is used to better protect your myconneCT profile. Once we have it setup you'll be asked to provide a unique security code to verify your identity each time you log in.

If you're logging in to myconneCT for the first time, you will be presented with the option to immediately set up two-step verification. Select the two-step verification type you wish to use, then click **Confirm**.

< Two-Step Verification Setup

☰ Add Phone

A security code will be sent via text message when trying to log in. Message and data rates may apply.

What phone number would you like to use?

Country	Phone Number *	Carrier *
USA ▾	Required	Required ▾

By adding your number you consent to receive SMS messages when you log in. Message and data rates may apply. To stop receiving SMS messages, remove your number from your two-step verification setup.

Cancel

Save

If you have selected the *Text Message* option, enter your phone number and service carrier. Click **Save**.

< Two-Step Verification Setup

✉ Add Email

A security code will be sent via email when trying to log in. Add no-reply@ct.gov to your email whitelist to prevent security codes going to your junk folder.

📱 Set Up Authentication App

Instead of waiting for text messages or emails, get your myconnect security codes on your device. Any time-based one-time password (TOTP) app, such as Google Authenticator, can be used.

Scan the QR code or enter the key below manually into your authentication app to get started.

Can't scan it? Enter this key in your authenticator app instead (spaces not required).
