

Alternatives to Insecticides for Managing Vegetable Insects

*Proceedings of a
Farmer/Scientist Conference*

December 6 and 7, 1998
New Haven, Connecticut

Natural Resource, Agriculture, and Engineering Service (NRAES)
Cooperative Extension

Acknowledgments

This conference and the publication of the proceedings were funded by the Northeast Region Sustainable Agriculture Research and Education Program. A grant was also received from the Clinton S. Roberts Foundation, Inc. Jennifer Barricklow did a fantastic job organizing all the conference logistics, including the great food, which added so much to the energy of the conference. Alison Flynn, Ann Lightbody, Kurt Wilhelm, and Tracy LaProvidenza took notes and audio recordings of all the sessions. Tracy LaProvidenza, in addition to being a recorder, helped to organize the conference, did all the drawings of insects, listened to and transcribed the recordings, and in general was tremendously helpful far beyond her responsibilities. Johan van Achterberg, treasurer of the Northeast Organic Farming Association of Connecticut, handled all the money efficiently and kept good records, and Mike Last, business manager of the Connecticut Agricultural Experiment Station, helped set up the unorthodox but flexible cooperation between organizations to get things done. The Yale School of Forestry and Environmental Studies graciously provided an entire building to the conference for two days. Maureen Devlin, the Registrar, and the facilities management staff accommodated all of our needs.

The volunteer moderators played an important role in each session, and many of them participated in discussions throughout the conference. The moderators were (in order of the listings of the sessions throughout the book): Lee Warren, George Elliott, Eva Cuadrado, Chris Worden, Jude Boucher, Walter Greist, Wayne Hansen, Jude Boucher (again), Aaron Gabriel, Joan Kemble, Kathy Caruso, and Tom Kemble. Most of these moderators are farmers, and some work in Cooperative Extension. They helped bring a practical orientation to the discussion.

Finally, thanks to all the participants, who shared freely what they know, what they think, and what they would like to know.

Proceedings design by Cathleen Walker, NRAES Production Editor.
