LOCKWOOD LECTURE

“Advances in Genomic Technology”

Shrikant M. Mane, PhD

Professor of Genetics

Director, MBB Keck Biotech Laboratory

Director, Yale Center for Genome Analysis

Friday, March 24, 2017

Tea: 10:30 a.m., Lecture: 11:00 a.m.

**Jones Auditorium, The Connecticut Agricultural Experiment Station
123 Huntington Street, New Haven, CT**

Dr. Mane is the Director of the Yale Center for Genome Analysis (YCGA). He obtained his PhD from the University of Bombay and completed postdoctoral studies at Johns Hopkins University School of Medicine. He has authored more than 100 scientific journal articles and is a principal investigator of a \$12 million grant from the NIH/NHGRI to establish the YCGA. Dr. Mane will discuss genomic technologies and their applications available at YCGA. He will also discuss a few landmark publications resulting from the collaborative work with several Yale Investigators.
