BULLETIN OF IMMEDIATE INFORMATION

No. 18

August 1922

The Gipsy Moth Quarantine

On account of the recent spread of the gipsy moth in Connecticut, the quarantined area has been extended to include many more towns than were involved in the Federal Quarantine of 1921, or the State quarantine of March 23, 1920, (See Quarantine Order No. 2). The present quarantine was established by the Federal Horticultural Board, effective July 1, 1922, and by the State of Connecticut by Quarantine Order No. 4, effective July 20, 1922, as follows:—

STATE OF CONNECTICUT
AGRICULTURAL EXPERIMENT STATION,
NEW HAVEN, CONN.
QUARANTINE ORDER NO. 4

Concerning Gipsy Moths

In order to protect uninfested parts of Connecticut from danger of infestation by the gipsy moth, under authority given in Section 2106 of the General Statutes, the following regulations are hereby established.

1. The following towns are hereby placed under quarantine because of the gipsy moth:—

These same towns have already been quarantined by the Federal Horticultural Board of the United States Department of Agriculture, and it shall be unlawful to remove from this quarantined area any woody nursery stock, lumber, cordwood, telegraph or telephone poles, railroad ties, or other forest plant products, unless the products shall have been inspected and certified by an authorized State or Federal inspector.

2. All Connecticut towns quarantined by Quarantine Order No. 2 (dated March 23, 1920) because of the brown-tail moth, are hereby released.

3. In view of possible future changes in the lines between the infested and non-infested areas of the State, the areas quarantined by the State shall conform to those quarantined by the United States Department of Agriculture; furthermore the regulations established by the Federal Horticultural Board of the United States Department of Agriculture for inter-state shipments, are hereby adopted for the inspection and certification of similar shipments from the quarantined area to points outside of this area within the State of Connecticut.

4. This order shall take effect from its date.

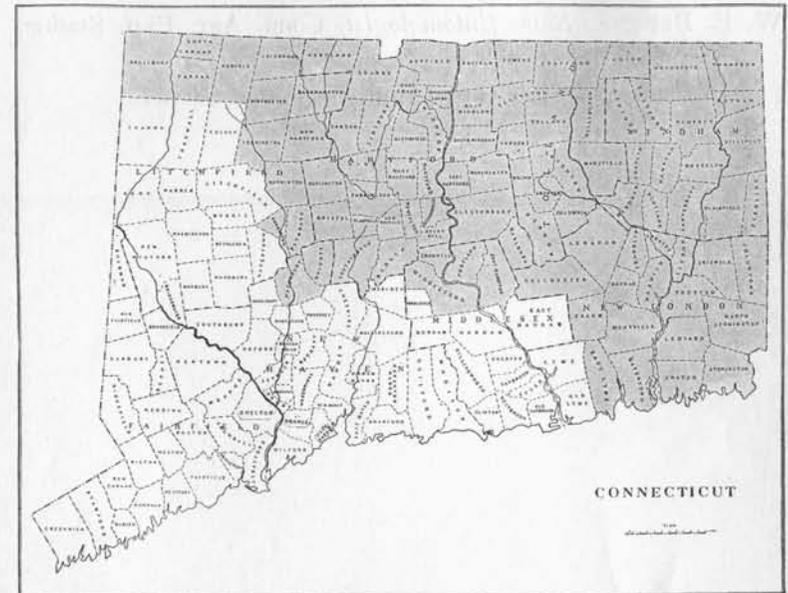

Dated July 20, 1922.

E. H. JENKINS,

Director, Connecticut Agricultural
Experiment Station.

Approved:

EVERETT J. LAKE,
Governor.

INSTRUCTIONS TO NURSERYMEN, LUMBERMEN, WOOD DEALERS,
SHIPPERS AND TRANSPORTATION COMPANIES

Any shipments of nursery stock, or forest products originating within the quarantined area must not be shipped out of that area into the territory not infested, unless inspected and accompanied by an inspector's certificate. All shipments going into other States must be examined by a Federal Inspector, and the Federal Inspectors have also been authorized to inspect shipments consigned to points within the State: the State inspector can also examine such shipments in case of convenience or if the Federal Inspectors are busy elsewhere.

Transportation companies must not accept nursery stock or forest products consigned to points outside of the infested area unless accompanied by certificate of inspection.

Until an adequate number of Federal inspectors have been assigned to duty in Connecticut, and their districts established, applications for inspection may be made to:—

D. M. ROGERS, Room 304, 402 Atlantic Ave., Boston, Mass.

In charge of Federal Gipsy Moth Inspection Service.

W. E. BRITTON, *State Entomologist*, Conn. Agr. Exp. Station,
New Haven, Conn.

In Charge of State Gipsy Moth Inspection Service.
