Scoping Notice

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated. [Read More](#)

The following Scoping Notices have been submitted for publication in this edition.

1. Notice of Scoping for Mirror Lake Improvements at the University of Connecticut

Project Title: Mirror Lake Improvements

Addresses of Possible Locations: Mansfield Road at the University of Connecticut, Storrs

Municipality Where Proposed Action Might be Located: Mansfield

Project Description:

The University of Connecticut (UConn) is planning to design and reconstruct Mirror Lake – a large stormwater basin on the Storrs Campus, in the area of the South Campus roughly bounded by Storrs Road to the east, Mansfield Road to the south and west, and Harry Grant Manchester Hall to the north. Known as the “Mirror Lake Improvements Project,” the Proposed Action to be assessed under the Connecticut Environmental Policy Act (CEPA) process consists of the following elements:

- Utility and infrastructure improvements, including tie-in to existing utilities available in the project area
- Mirror Lake restoration, dam and spillway modifications, and green infrastructure improvements for stormwater management

The Proposed Action is located within the Roberts Brook subwatershed, within the Fenton River watershed, and within the University of Connecticut Historic District. Elements of the Proposed Action were identified in the University's Campus Master Plan, including improvements to Mirror Lake and its immediate surroundings. An updated campus drainage master plan and a recently-completed feasibility study for Mirror Lake identified needed modifications to the stormwater basin, spillway and dam to improve storage, quality, and safety. UConn will incorporate comments from a public scoping meeting and evaluate the Proposed Action with taking no action or other feasible alternatives. Direct, indirect, and cumulative impacts associated with the Proposed Action will also be assessed.

Written Comments:

Written comments from the public are welcomed and will be accepted until the **close of business on December 16, 2021**.

Public Scoping Meeting:

There will be a Public Scoping Meeting for this proposed action.

Date: Wednesday, December 8th

Time: 6:30 PM (EST)

Place: Virtual

Notes: Participants MUST REGISTER IN ADVANCE through the following link:

<https://attendee.gotowebinar.com/register/6080155684541563918>

After registering, you will receive a confirmation email containing information about joining the meeting (including an option to join by phone).

Additional information regarding the meeting, as well as a link to a recording of the meeting, will be posted at: <https://updc.uconn.edu/>.

Written Comments and/or Requests for Public Scoping Meeting Materials Should Be Sent by Fax or E-mail to:

Name: James Libby, AIA, LEED AP, NCARB

Agency: University of Connecticut, University Planning, Design and Construction

Address: 31 LeDoyt Rd, Unit 3038, Storrs, Connecticut 06269-3038

Fax: (860) 486-3117

E-mail: james.libby@uconn.edu

Inquiries and requests to view and or copy documents, pursuant to the Freedom of Information Act, must be submitted to the sponsoring State Agency:

Name: Public Records Administration

Agency: c/o University Communications

Address: 34 North Eagleville Road, U-3144

E-Mail: <https://publicrecords.uconn.edu/make-a-request/>

Phone: (860) 486-5337

What Happens Next: The sponsoring agency will make a determination whether to proceed with preparation of an Environmental Impact Evaluation (EIE) or that the project does not require the preparation of an EIE under the Connecticut Environmental Policy Act (CEPA). A Post-Scoping Notice of its decision will appear in a future edition of the *Environmental Monitor*.

2. Notice of Scoping for South Campus Residence Hall at the University of Connecticut

Project Title: South Campus Residence Hall

Address of Possible Location: Gilbert Road at the University of Connecticut, Storrs

Municipality Where Proposed Action Might be Located: Mansfield

Project Description:

The University of Connecticut (UConn) is planning a design-build project on the Storrs Campus in the area of the South Campus roughly bounded by Mansfield Road to the east, Maple Lane to the south, the Anna M. Snow Residence Hall to the west, and Gilbert Road to the north. Known as the "South Campus Residence Hall Project," the Proposed Action to be assessed under the Connecticut Environmental Policy Act (CEPA) process consists of the following elements:

- Residence hall and dining facility comprised of approximately 200,000 gross square feet with 600-650 beds and 600-700 dining seats
- Utility and infrastructure improvements, and tie-ins to existing utilities

The Proposed Action is located within the Roberts Brook subwatershed, within the Fenton River watershed, and within the University of Connecticut National Register Historic District. Elements of the Proposed Action were identified in the University's Campus Master Plan, including a residence hall in the proposed location. While projected enrollment at UConn is expected to remain generally flat for the foreseeable future, much of the

existing on-campus housing stock is in need of renewal. The Proposed Action will create capacity to take other housing facilities offline for renovation and modernization. UConn will incorporate comments from a public scoping meeting, and evaluate the Proposed Action with taking no action or other feasible alternatives. Direct, indirect, and cumulative impacts associated with the Proposed Action – including those related to historic resources and other impacts identified in the 2016 CEPA process for the South Campus Development – will also be assessed.

3. Notice of Scoping for Kensington State Fish Hatchery Solar Project

Project Title: Kensington State Fish Hatchery

Address of possible location: 120 Old Hatchery Road, Kensington

Municipality where proposed action might be located: Berlin

Project Description: This Project consists of one solar PV system that will reside on the grounds of Kensington State Fish Hatchery. Included in this submission is the proposed site plan for the system.

The ground mounted PV system consists of 288 solar panels with a capacity of approximately 124 kilowatts (kW).

This system will occupy an area of roughly 2/3 acres.

Project Map: [Click here](#) to view a map of the project area.

Written comments from the public are welcomed and will be accepted until the close of business on **January 7, 2022**.

Any person may ask the sponsoring agency to hold a public scoping meeting by sending such a request to the address below. If a public scoping meeting is requested by 25 or more individuals, or by an association that represents 25 or more members, the sponsoring agency shall schedule a public scoping meeting. Such requests must be made by: **December 17th, 2021**.

Written comments, questions and/or requests for a public scoping meeting should be sent to

Inquiries and requests to view and or copy documents, pursuant to the Freedom of Information Act, must be submitted to the sponsoring state agency:

Name: Michael Barrera

Agency: Department of Administrative Services

What Happens Next: The Department of Administrative Services will make a determination whether to proceed with preparation of an Environmental Impact Evaluation (EIE) or that the project does not require the preparation of an EIE under the Connecticut Environmental Policy Act (CEPA). A Post-Scoping Notice of its decision will appear in a future edition of the *Environmental Monitor*.

4. Notice of Scoping for State of Connecticut Department of Correction Solar Projects at Cheshire

The sponsoring agency for this public scoping notice is the Department of Administrative Services.

Addresses of possible locations:

- 900 Highland Ave, Cheshire
- 42 Jarvis St, Cheshire

Municipality where proposed action might be located: Cheshire, CT

Project Description:

Site Names and Addresses:

- Cheshire CI – 900 Highland Ave, Cheshire
- Manson Youth – 42 Jarvis St, Cheshire

This Project consists of two solar PV systems that will reside on the grounds of Manson Youth Institution and the Cheshire Correctional Institution. The Cheshire Correctional Institution solar PV System, located at 900 Highland Ave, will consist of roughly 5,100 solar panels with a capacity of approximately 1.9 megawatts (MW). This will be a ground mounted system located within an existing maintained field in the southwest portion of the property. The solar array footprint will occupy roughly 6.5 acres.

The Manson Youth Institute solar PV system, located at 42 Jarvis St, Cheshire, is of similar scale. This system will consist of roughly 4,600 solar panels with a capacity of approximately 1.9 MW. This will be a ground mounted system with arrays located at two different parts of the property, occupying a total of roughly 5.7 acres

Project Maps: [Cheshire CI Solar Array 1](#) and [Manson Solar Array 2](#).

Written comments from the public are welcomed and will be accepted until the close of business on: **January 6, 2022**

Any person may ask the sponsoring agency to hold a public scoping meeting by sending such a request to the address below. If a meeting is requested by 25 or more individuals, or by an association that represents 25 or more members, the sponsoring agency shall schedule a public scoping meeting. Inquiries and requests to view and or copy documents, pursuant to the Freedom of Information Act, must be submitted to:

Name: Anthony Campanelli

Agency: Department of Corrections

Address: 24 Wolcott Hill Rd. Wethersfield, CT 06109

E-Mail: Anthony.campanelli@ct.gov

What Happens Next: The Department of Administrative Services will make a determination whether to proceed with preparation of an Environmental Impact Evaluation (EIE) or that the project does not require the preparation of an EIE under the Connecticut Environmental Policy Act (CEPA). A Post-Scoping Notice of its decision will appear in a future edition of the *Environmental Monitor*.

5. Notice of Scoping for State of Connecticut Department of Correction Solar Projects at Enfield/Somers

Addresses of possible locations:

- Osborn – 335 Bilton Rd, Somers
- Enfield – 289 Shaker Rd, Enfield
- Willard - 391 Shaker Rd, Enfield

Municipalities where proposed action might be located: Somers and Enfield

Project Description:

This Project consists of five solar PV systems that will reside on the grounds of Willard-Cybulski Correctional Institute, Osborn Correctional Institution and Enfield Correctional institution. Included in this submission are the proposed site plans for each system. Although some systems abut one another and share the same perimeter fence line, each of the five solar PV systems are designed to operate independently from one another.

Site Names and Addresses:

- Robinson A – 289 Shaker Rd, Enfield
- Robinson B – 289 Shaker Rd, Enfield

- Enfield – 289 Shaker Rd, Enfield
- Osborn – 335 Bilton Rd, Somers
- Willard - 391 Shaker Rd, Enfield

The ground mounted PV systems of Robinson A, Robinson B and Enfield are all proposed to be on the South side of Enfield Correctional Institution at 289 Shaker Rd, Enfield. These three PV systems abut each other creating one ground mounted solar array. Robinson A consists of approximately 304 solar panels with a capacity of approximately 92 kilowatts (kW). Robinson B consists of approximately 704 solar panels with a capacity of approximately 212 kW. Enfield consists of approximately 608 solar panels with a capacity of approximately 205 kW. Combined these three PV systems will occupy an area that is roughly 1.3 acres of an existing field. This proposed location is roughly 1,050 Linear Feet (LF) West of a grassland bird mitigation area.

The ground mounted PV system of Willard is proposed to be built on the South side of Enfield Correctional Institution. The PV system consists of approximately 1,944 solar panels with a capacity of approximately 625 kW. This system will be electrically connected into the Willard Building of the Willard-Cybulski Correctional Facility located at 391 Shaker Rd, Enfield. This PV system will occupy an area of roughly 2.5 acres. The proposed location is roughly 750 LF West of a grassland bird mitigation area.

The ground mounted PV system of Osborn is proposed to be built on previously farmed land located on the North West side of Osborn Correctional Institution. This PV system consists of approximately 4,830 solar panels with a capacity of approximately 1.8 MW. The total area of this PV system is roughly 5.7 acres. This proposed location is roughly 65 LF East of a grassland bird mitigation area.

A Post-Scoping Notice of its decision will appear in a future

Scoping Notice - Post-Scoping Notice (Need More Time)

If an agency is unable to publish a Post-Scoping Notice within six months after the comment period for scoping, the agency will publish an update with an action status and an estimate as to when a Post-Scoping Notice will be published. Such an update will be published by the agency at six-month intervals until the Post-Scoping Notice is published. [Read More](#)

No notice for additional time has been submitted for publication in this edition.

Post-Scoping Notice

A Post-Scoping Notice is the determination by a sponsoring agency, after publication of a Scoping Notice and consideration of comments received, whether an [Environmental Impact Evaluation \(EIE\)](#) needs to be prepared for a proposed State action. [Read More](#)

The following Post-Scoping Notices have been submitted for publication in this edition.

1. Post-Scoping Notice for Ox Brook Flood Control Master Plan

Addresses of Possible Project Location: Various locations along Ox Brook in the City of Bridgeport, extending from Elton Rogers Park at the north end to Lincoln Boulevard at the south end.

Municipality where it would be located: Bridgeport

CEPA Determination: On October 5, 2021, the Department of Energy and Environmental Protection published a [Notice of Scoping](#) to solicit public comments for this proposed action in the *Environmental Monitor*.

A virtual public scoping meeting was held on Monday, October 18, 2021 at 7:00 pm.

No comments were received during the public comment period or at the Public Scoping Meeting.

The Department of Energy and Environmental Protection has determined to proceed with the preparation of an Environmental Impact Evaluation (EIE).

Name: Frederick Riese

Agency: Department of Energy and Environmental Protection

Address: 79 Elm Street, Hartford CT 06106

Phone: 860-424-4110

E-Mail: Frederick.Riese@ct.gov

Inquiries and requests to view and or copy documents, pursuant to the Freedom of Information Act, must be submitted to the sponsoring State Agency.

What Happens Next: The Department of Energy and Environmental Protection will prepare an Environmental Impact Evaluation (EIE) under the Connecticut Environmental Policy Act for the proposed action. The EIE is expected to be available for public review and comment in the first quarter of 2022. When the EIE is completed, it will be published in

2. Post-Scoping Notice for Replacement of Stiles Bridge - Route 191 over Scantic River

Address of Possible Project Location: Route 191 over Scantic River. Mile point 2.73 of Route 191

Municipality where it would be located: East Windsor

CEPA Determination: On April 20, 2021, the Connecticut Department of Transportation published a [Notice of Scoping](#) to solicit public comments for this proposed project in the *Environmental Monitor*. A virtual public scoping meeting was held on Tuesday May 4, 2021 and the project comment period concluded on May 21, 2021.

Comments from the **Connecticut Department of Energy and Environmental Protection (CTDEEP)** were received during the public comment period, however no comments from the public were received during that time. A synopsis of the comments received and CTDOT's responses are included in the **Environmental Review Checklist**.

After consideration of the comments received, the CTDOT has determined that the project does not require the preparation of an Environmental Impact Evaluation (EIE) under the Connecticut Environmental Policy Act (CEPA). The agency's conclusion is documented in a [Memo of Findings and Determination](#) and the [Environmental Review Checklist](#).

What Happens Next: CTDOT expects the proposed project to go forward. This will be the final notice for this project in the *Environmental Monitor*.

EIE Notice

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts.

This is called an [Environmental Impact Evaluation \(EIE\)](#). [Read More](#)

No EIE Notice has been submitted for publication in this edition.

Agency Record of Decision

After an [Environmental Impact Evaluation \(EIE\)](#) is developed, an agency will prepare a concise public record of decision, which takes into consideration the agency's findings in the EIE, and any comments received on that evaluation. [Read More](#)

No Record of Decision Notice has been submitted for publication in this edition.

OPM's Determination of Adequacy

After an [Environmental Impact Evaluation](#) (EIE) is developed, the Office of Policy and Management (OPM) will determine if the EIE is adequate. If not, OPM will specify the areas of inadequacy with reference to CEPA or the CEPA regulations and specify the corrective action required. [Read More](#)

The following Determination of Adequacy Notice has been submitted for publication in this edition.

1. The Office of Policy and Management's Review of the Record of Decision for the Bridgeport Facilities Planning for East Side and West Side Wastewater Treatment Plants

Address of Possible Project Location: East Side Water Pollution Control Facility, 695 Seaview Avenue, Bridgeport, CT 06607 and West Side Water Pollution Control Facility, 205 Bostwick Avenue, Bridgeport, CT 06607

Municipality where proposed action will be located: Bridgeport

CEPA Determination: On October 19, 2021, the Department of Energy and Environmental Protection (DEEP) published a [Record of Decision](#) in the *Environmental Monitor*. The Connecticut Office of Policy and Management (OPM) has reviewed DEEP's Environmental Impact Evaluation (EIE) and Record of Decision (ROD) prepared in accordance with Section 22a-1e of the Connecticut General Statutes, and have determined them to be adequate. OPM's conclusion is documented in the [Review](#) of DEEP's ROD for the proposed action.

E-Mail: daniel.butler@ct.gov

***E-Mail submissions are preferred.**

(Comments from state agencies must be on agency letterhead and signed by agency head. Scanned copies are preferred.)

What Happens Next:

When this comment period closes, the proposed land transfer can take one of three tracks:

1. If no public comments are received, the sale or transfer can proceed with no further public comment and no further notices in the *Environmental Monitor*, unless the Department of Energy and Environmental Protection (DEEP) elects to conduct a review of the property (see #3).
2. If public comments are received, the Office of Policy and Management (OPM) will respond to those comments. The comments and responses will be published in the *Environmental Monitor*. Fifteen days after publication of the comments and responses, the proposed sale or transfer can proceed, unless DEEP elects to conduct a review of the property (see #3).
3. If DEEP elects to conduct a further review of the property, it may submit to OPM a report with recommendations for preserving all or part of the property. The report and recommendations will be published in the *Environmental Monitor*, and there will be a 30-day public comment period. The DEEP will publish its responses to any comments received and its final recommendation about the property in the *Environmental Monitor*. OPM will then make the final determination as to the ultimate disposition of the property, and will publish that determination in the *Environmental Monitor*. Fifteen days after publication of that final determination, the sale or transfer can proceed.

To find out if this proposed transfer is the subject of further notices, check future editions of the *Environmental Monitor*. [Sign up for e-alerts](#) to receive a reminder e-mail on *Environmental Monitor* publication dates.
