## Special Notice

### **1. Generic Environmental Classification Document**

On October 6, 2020, the Office of Policy and Management (OPM) published a [Special Notice](#) to solicit public comments for the proposed Generic Environmental Classification Document (ECD).

The Generic ECD is a list of typical agency actions that may have significant environmental impacts, and is used by most state agencies in determining if a proposed action warrants further evaluation under the Connecticut Environmental Policy Act (CEPA), and to what extent. A state agency proposing an action which may significantly effect the environment must consult with its applicable Environmental Classification Document (ECD) to determine whether or not public scoping is required. Any agency that does not have its own ECD as approved by OPM in accordance with Sections 22a-1a-4 and 22a-1a-5 of the Regulations of Connecticut State Agencies (RCSA), shall use the Generic ECD prepared and maintained by OPM.

After consideration of comments, and in accordance with RCSA Sections 22a-1a-4 and 22a-1a-5, OPM has approved revisions to the Generic ECD.

The revised Generic ECD is available [here](#), and can be found on OPM's [CEPA Overview webpage](#).

A listing of public comments received, and OPM responses can be found [here](#) and will also be published to OPM's CEPA Overview webpage

## Scoping Notice

"Scoping" is for projects in the earliest stages of planning. At the scoping stage, detailed information on a project's design, alternatives, and environmental impacts does not yet exist. Sponsoring agencies are asking for comments from other agencies and from the public as to the scope of alternatives and environmental impacts

that should be considered for further study. Send your comments to the contact person listed for the project by the date indicated. [Read More](#)

---

***No Scoping Notice has been submitted for publication in this edition.***

---

### **Scoping Notice - Post-Scoping Notice (Need More Time)**

If an agency is unable to publish a Post-Scoping Notice within six months after the comment period for scoping, the agency will publish an update with an action status and an estimate as to when a Post-Scoping Notice will be published. Such an update will be published by the agency at six-month intervals until the Post-Scoping Notice is published. [Read More](#)

---

***No notice for additional time has been submitted for publication in this edition.***

---

### **Post-Scoping Notice**

A Post-Scoping Notice is the determination by a sponsoring agency, after publication of a Scoping Notice and consideration of comments received, whether an [Environmental Impact Evaluation \(EIE\)](#) needs to be prepared for a proposed State action. [Read More](#)

---

***No Post-Scoping Notice has been submitted for publication in this edition.***

---

### **EIE Notice**

After Scoping, an agency that wishes to undertake an action that could significantly affect the environment must produce, for public review and comment, a detailed written evaluation of the expected environmental impacts. This is called an [Environmental Impact Evaluation \(EIE\)](#). [Read More](#)

---

***No EIE Notice has been submitted for publication in this edition.***

---

### **Agency Record of Decision**

After an [Environmental Impact Evaluation \(EIE\)](#) is developed, an agency will prepare a concise public record of decision, which takes into consideration the agency's findings in the EIE, and any comments received on that evaluation. [Read More](#)

***No Record of Decision Notice has been submitted for publication in this edition.***

---

## **OPM's Determination of Adequacy**

After an [Environmental Impact Evaluation](#) (EIE) is developed, the Office of Policy and Management (OPM) will determine if the EIE is adequate. If not, OPM will specify the areas of inadequacy with reference to CEPA or the CEPA regulations and specify the corrective action required. [Read More](#)

---

***No Determination of Adequacy Notice has been submitted for publication in this edition.***

---

## **State Land Transfer Notice**

Connecticut General Statutes [Section 4b-47](#) requires public notice of most proposed sales and transfers of state-owned lands. The public has an opportunity to comment on any such proposed transfer. Each notice includes an address where comments should be sent. [Read more about the process.](#)

**Additional information, if any:**

**What Happens Next:**

When this comment period closes, the proposed land transfer can take one of three tracks:

1. If no public comments are received, the sale or transfer can proceed with no further public comment and no further notices in the *Environmental Monitor*, unless the Department of Energy and Environmental Protection (DEEP) elects to conduct a review of the property (see #3).
2. If public comments are received, the Office of Policy and Management (OPM) will respond to those comments. The comments and responses will be published in the *Environmental Monitor*. Fifteen days after publication of the comments and responses, the proposed sale or transfer can proceed, unless DEEP elects to conduct a review of the property (see #3).
3. If DEEP elects to conduct a further review of the property, it may submit to OPM a report with recommendations for preserving all or part of the property. The report and recommendations will be published in the *Environmental Monitor*, and there will be a 30-day public comment period. The DEEP will publish its responses to any comments received and its final recommendation about the property in the *Environmental Monitor*. OPM will then make the final determination as to the ultimate disposition of the property, and will publish that determination in the *Environmental Monitor*. Fifteen days after publication of that final determination, the sale or transfer can proceed.

To find out if this proposed transfer is the subject of further notices, check future editions of the *Environmental Monitor*. [Sign up for e-alerts](#) to receive a reminder e-mail on *Environmental Monitor* publication dates.
