

CT FIRE DEPARTMENTS

IMPORTANT - PLEASE READ

The following list identifies names of individuals submitted by their respective departments as a line-of-duty or service related death and for inclusion on the Connecticut Firefighters' Memorial. The subcommittee charged with reviewing the applications will continue to meet, as necessary, to review submittals. Please note, a date noted under the "DATE APPROVED" column identifies the date the submittal was approved by the subcommittee. Also note that under the "LODD NAME" column, the word "NONE" appears for departments who have acknowledged they had not sustained a line-of-duty or service related death.

Where no information exists, we encourage departments to forward LODD or service related death information on the appropriate form or acknowledge on department letterhead that the department has not experienced a LODD. Submissions will be reviewed on an annual basis in the month of July for consideration of honoring at that year's ceremony. **(Yellow highlight indicates Departments that have responded).
