TRAINING CALENDAR

A LETTER FROM THE DIRECTOR OF TRAINING

The Connecticut Fire Academy trains over 5,000 firefighters annually, through more than 300 course deliveries, both on campus and at off-site host locations.

The continuing challenges we face generated by the state budget deficit and unknown agency funding cuts still affect us. I know that the state budget issues also affect all of the Regional Fire Schools and every town and city Fire Department budget.

As we strive to continue to offer and provide consistent and significant levels of training, to you our customer, we also must continue to maintain the health and safety of our students and instructors.

The budget issues have required a slight increase in the costs to our programs including those in this Training Calendar. The last increase of this type was in 2012.

We have had considerable success and will continue to seek funds through the Assistance to Firefighters Grant program to expand our equipment needs.

In an effort to modernize student registration and future interactivity of the learning experience, we have invested in a new Learning Management System (LMS). Once fully implemented the new LMS will include student centered items such as registration, assigning of classes, access to transcripts and certifications, just to name a few.

Our popular Seminar Series will return with four exciting offerings including a new multi-day session in September called "Nozzle Forward"

This 2018 Training Calendar has only a fraction of the courses offered annually by the Connecticut Fire Academy. If you are interested in a class not listed here, please contact us.

Respectfully,

Bill Higgins,
Director of Fire Training

WEATHER CANCELLATIONS

For weather cancellation information call the Connecticut Fire Academy Weather Cancellation Hotline updated at 6:30 am 860-627-6363 or 877-528-3473 ext. 450.

Cancellation information will also be available via television on WFSB Channel 3, WTNH Channel 8, and WVIT Channel 30 the morning of the class. CPAT Test Status Hotline 860-627-6363 or 877-528-3473 ext. 415.

STAFF CONTACT INFORMATION

Office Hours are M–F 8:30 a.m. – 4:30 p.m.

Main Phone Number (860) 627-6363

In-State Toll-Free 1-877-528-3473

Fax (860) 654-1889

Program Hours

Day programs are from 8:30 a.m. - 4:30 p.m.

Evening programs are from 6:30 p.m. - 10:00 p.m.

Please refer to your confirmation for specific times.

WWW.CT.GOV/CFPC

Please note that some locations, times, and dates are subject to changes without notice. Registered students will be notified if any changes occur.

Connecticut Fire Academy Acceptance Notices and Refund / Cancellation Policy Acceptance notices with directions will be mailed as soon as

programs are filled or approximately two weeks prior to the start of all programs. Applicants not accepted in a program will generally be notified within a week of our receiving their application.

Seating is limited for many Connecticut Fire Academy programs. Please notify the Training Registrar promptly in the event of a need to cancel your registration. Not only will your refund be processed in a timely manner, but your seat can be offered to someone on the waiting list. Students canceling at least seven days in advance of a program will receive a full refund. Please note that refunds are processed by the state Comptroller's Office and may take up to one month. CPAT has a unique refund policy on page 35.

Effective January 1, 2016 cash will no longer be accepted as a method of payment for training, certification, lodging and Candidate Physical Ability Test (CPAT) related activities. This proposal does not impact CFA book store operations where cash will continue to be accepted.

CONNECTICUT FIRE ACADEMY ANNOUNCES THE 2018 SEMINAR SERIES

In 2018 we will have three one day Seminars similar to last year. They all feature nationally known speakers with high quality presentations designed to expand knowledge for everyone in the fire service. In addition, we will offer one H.O.T. (Hands on Training) session which will be a two day event. Look for specific flyers or notices on the List Serve that will describe each session and information on each presenter. You can attend any or all of the seminars.

SEMINAR SERIES – CONNECTICUT FIRE ACADEMY ALL HELD AT CONNECTICUT FIRE ACADEMY

Modern Fire Attack Research Update

Speaker: Peter Van Dorpe

Date: April 3, 2018

Fee: \$65.00

Nozzle Forward

2 day H.O.T. Session

Speaker: Aaron Fields

Dates: Sept 2018, days TBD

Fee: \$145.00

Making Yourself Hard to Kill

(Officer Development Seminar)

Speaker: Jason Brezler

Date: May 3, 2018

Fee: \$65.00

Combat Ready

Speaker: Deputy Chief, Dan Shaw

November 2018, day TBD

Fee: \$65.00

For the latest fire service news and information, follow the Department of Emergency Services and Public Protection's Commission on Fire Prevention and Control – Connecticut Fire Academy on its official Twitter page @CTCFPC

CERTIFIED: Course addresses National Fire Protection Association (NFPA) Professional Qualification System Standards for certification; additional examination required.

Certification examination reference materials may be found at www.ct.gov/cfpc in the "Certification" section. Only those meeting certification prerequisites will be allowed to test.

APPARATUS PROGRAMS

Advanced Vehicle Extrication

This two-day program is designed to provide the experienced student with realistic scenarios involving different problematic extrication. The objectives of this class are to provide the student an environment to implement an incident management system at motor vehicle incidents, along with contemporary extrication and stabilization techniques. Vehicles will be in compromising positions providing students with challenging scenarios.

Full protective clothing (no SCBA) required.

Cost: \$330.00

Class Hours: 16 FM Credit: None EMS-I Credit: None

Aerial Operator

This six-day course meets NFPA Standard 1002 for the driver/operator section, which addresses aerial devices.

Instruction will be given on: aerial, tower ladders and articulating booms. Course content will prepare the student for the practical and written examinations for Aerial Operator certification. This course is designed for the driver/operator of aerial equipment. The course begins with road handling and moves on to apparatus placement, mobilization and stabilization, elevation, various aerial operations and apparatus readiness. It is required that each student has access to the manufacturer's reference manual for their department aerial device. This course alone is not designed to produce expert aerial operators. Students must apply the basics learned from this course with continued hands-on practical applications with apparatus in their department to build and maintain proficiency in aerial apparatus operations.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

Required Text: IFSTA Pumping and Aerial Apparatus Driver/Operator Handbook, 3rd Edition.

Certification Examination Prerequisites: Certified Firefighter I, or member of a fire department on or before July 1, 1977 and legally licensed to drive emergency apparatus. Proof must be submitted with the application. Candidates for certification to this level must be in possession of a Connecticut Driver's license with a "Q" Endorsement, a Class A or B Commercial Driver's license (CDL) or shall provide proof that the Driving/Operating requirements of NFPA Standard 1002, Chapter 4, have been satisfactorily completed.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 48 Course Fee: \$320.00

Aerial Strategies and Tactics

This course will cover, in detail, general aerial safety issues, rescue priorities, ventilation operations, elevated master streams and general aerial use in both emergency and non-emergency situations. Topics include: basic tactical options for aerial use and limitations, apparatus placement, stabilization systems, and elevation. Students will review the major responsibilities of an aerial apparatus operator including; positioning, spotting, and staging apparatus for incident operations.

Hands-on exercises will reinforce recommended safe practices in the areas of raising, rotating and extending an aerial device, ladder tip placement for various situations and operating aerial master streams.

Training Prerequisites: Certified Firefighter I; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$100.00

Basic Pump Operation

This course examines the components and controls used in the operation of a fire pump. The internal parts of a fire pump are examined with the goal of having the student fully understand how the fire pump moves water. Pump panel controls

are discussed in relation to the specific function and use of each device. The process and specific functions involved in drafting and hydrant operations are explained in detail. Students will practice setting up for pumping operations. Participants will learn how to determine and overcome friction loss, how to calculate theoretical pump pressure and how to apply easy-to-use "rule of thumb" principles of relay pumping, operating handlines, supplying sprinklers and standpipe systems. On the training ground each student will apply practical applications while flowing water at prescribed pressures.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Class Hours: 16 Course Fee: \$100.00

Pump Operator

This course is designed to prepare the student for the practical skills and written examinations for Pump Operator certification. Class work will include: safe driving techniques, preventive maintenance, pump operations, hydraulic calculations, water supply and apparatus systems. The course begins inside the classroom and ends outside with pumping apparatus. The main emphasis is on "hands-on" exercises using various types of pumps, hose sizes and nozzles. This course alone is not designed to produce expert pump operators. Students must apply the basics learned from this course with continued hands-on practical applications with apparatus in their departments to build and maintain proficiency in pump apparatus operations.

Full protective clothing (No SCBA) is required.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

Required Text: IFSTA Pumping Apparatus Driver/Operator Handbook, 3rd Edition; or IFSTA Pumping and Aerial Apparatus Driver/Operator Handbook, 3rd Edition. With either Handbook the IFSTA Pumping Apparatus Driver/Operator Handbook Study Guide is required.

Certification Examination Prerequisite: Certified Firefighter I or a member of a fire department on or before July 1, 1977, candidates for certification to this level must be in possession of a Connecticut Driver's License with a "Q" endorsement, a Class A or B Commercial Driver's License (CDL) or shall provide proof that the

Driving/Operating requirements of NFPA Standard 1002, Chapter 4, have been satisfactorily completed.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 48 Course Fee: \$320.00

Q Endorsement

The Q Endorsement course is designed to prepare the potential fire apparatus operator for the testing requirements established by the State of Connecticut Department of Motor Vehicles. This training course will consist of classroom and extensive practical sessions conducted throughout the length of the course culminating with practical testing administered by the Department of Motor Vehicle on the final day of the class. Students should make arrangements to practice pre-trip and driving skills at their own firehouse during non-class hours to be more successful with the DMV administered test.

Topics covered in the classroom portion of the course include: testing requirements; inspection methods; speed and braking distances; night driving; driving and alcohol; emergencies; accidents; and air brakes. Topics covered in the practical portion of the course include: pre-trip inspection; static course; and over the road skills.

Training Prerequisites: Applicants must possess a valid operator's license. Proof must be submitted with application.

Class Hours: 32 Course Fee: \$275.00

Tanker Shuttle Operations

This class is designed to make the student aware of the importance of pre-planning water sources and operations for rural water supply tanker transfers prior to the need arising.

This course covers the following components: safe tanker operations, driving, filling and dumping; compare and contrast tanker design and efficiency; recognizing proper water sources; evaluating and developing proper dump sites; and organizing mutual aid for tanker task force concepts.

These components are met through the following course goals and objectives:

identify apparatus requirements for a water shuttle; identify the requirements for setting up a shuttle operation; describe fill and dump site operations for a water shuttle; describe how to evaluate tanker performance; and demonstrate tanker operation in practical evolutions. On the final day of class students will incorporate information given and resources provided to supply a continuous 750 gallon per minute flow rate of water for a minimum of two hours. Successful application of the course information may lead to the enhancement of the ISO rating for your community. Completion of this course allows for student to apply for "Tanker Operator" Certification if currently a certified as a pump operator.

PPE Requirements: Full protective clothing (no SCBA)

Training Prerequisite: Certified Firefighter I; proof must be submitted with the application.

Certification Prerequisite: Firefighter I or continuous member of fire service since prior to July 1977 and CDL or Q Endorsement License and Certified Pump Operator. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

The Department of Energy & Environmental Protection, Division of Forestry, has special grant funds available to pay for a limited number of the Tanker Shuttle Operations classes. Tanker Shuttle classes will be offered at no charge each year until these grant funds are exhausted. Funding Questions can be directed to: Helene Hochholzer, Forest Protection Supervisor, Division of Forestry, at helene.hochholzer@ct.gov

Class Hours: 16 Course Fee: \$110.00

Traffic Incident Management

This course is designed for all emergency responders that work on the roadway. The course meets the requirements of MUTCD, OSHA, FEMA/TIMS, and Connecticut General Statute 7-313a. This traffic control training is required to meet the general duty safety clause of OSHA.

Topics include: Connecticut statutes; responsibilities; traffic duties; flagger duties and responsibilities; apparatus placement; equipment.

Prerequisites: Active member of a fire department

Cost: \$55.00

Class Hours: 8

FM Credit: None

EMS-I Credit: None

EMS PROGRAMS

Emergency Medical Technician/Emergency Medical Responder Refresher

This course reviews and refreshes knowledge and skills required for Emergency Medical Technicians currently certified according to the latest U.S. DOT EMT/EMR-Basic National Standard Curriculum. Classroom and "hands-on" training will update the EMT/EMR on current practices and confirm skill levels. A review and renewal of Healthcare Provider CPR will be conducted in conformance with the latest JAMA standards through approved programs of the American Heart Association. Written and practical examinations will be conducted in conformance with the policies established by the State of Connecticut Department of Public Health.

Training Prerequisites: Certified Emergency Medical Technician/Emergency Medical Responder. Proof must be submitted with application.

Required Text: Jones and Bartlett: American Academy of Orthopedic Surgeons (AAOS) Emergency Medical Technician Transition Manual.

Class Hours: 32 Course Fee: \$275.00

Emergency Medical Technician (EMT)

An Emergency Medical Technician (EMT) is a person that has received training to render care to the sick and injured. The job of an EMT, will present you with numerous challenges in a variety of both emergency and nonemergency situations. This course meets the newest National EMS Educational Standards and is designed with both cognitive and practical skill applications. Students will be required to complete all necessary course work including internship with an Ambulance and/or Hospital Emergency Room. Prior to conducting internships proof of immunization is required. Minimum age with parental permission is 16 years of age. Once meeting the necessary course requirements, students

PROGRAMS

shall be allowed to sit for the state practical and written examinations. Those under 18 will be CT certified only. . . all others will be Nationally certified.

Class hours: 148 Course fee: \$880.00

Tuition includes Text, Blood Pressure Cuff, and Stethoscope.

Does Not Include Fee for National Registry Testing

Emergency Medical Responder (EMR)

An Emergency Medical Responder (EMR) is often the first medically trained person to arrive on scene of a medical or trauma related emergency and can render specific care to a sick or injured person. The EMR course is recommended for anyone who would like to learn a specific set of skills that surpasses basic first aid training. In this course, the student will learn to use the tools of patient assessment, oxygen administration, basic airway adjuncts, manual cervical stabilization and simple splinting techniques, and how to administer Naloxone for opioid overdoses. Additionally, the student will learn how to treat and recognize a variety of medical conditions like stroke, hypoglycemia, heart attack, seizures, poisonings, and environmental emergencies and how to deliver a baby as well as obtain CPR (cardiopulmonary resuscitation) certification according to the American Heart Association standards.

Students must be at least 14 years of age to take this class. The class consists of both cognitive and psychomotor skills demonstrations in performing hands-on patient assessments and taking quizzes. Once the necessary course requirements are met, students will be able to take a class final practical exam and the State of CT Office of Emergency Medical Services (OEMS) will administer the state written exam. Upon passing both written and practical exams, the State of Connecticut will issue a certified EMR card.

Cost (includes text): \$385.00

Class Hours: 60 (minimum)

FIRE OFFICER PROGRAMS

Fire Officer I and II

This course combines both Fire Officer I and II into one comprehensive program for both aspiring and senior officers. Emergency and routine duties will be discussed, along with human resource management, community and government

relations, and public education. Students will also cover group behavior issues, employee evaluations, report preparation, pre-fire planning, and inspections. Emergency service delivery skills for both company officers and multiple company supervisors are also covered at length, including exercises in the fire command simulator.

Training Prerequisites: Certified Fire Service Instructor I, NIMS 700, ICS 100, and ICS 200. Proof must be submitted with the application.

Required Text: Jones and Bartlett: Fire Officer, Principles and Practices 3rd Ed.

Certification Exam Prerequisites: Certified Fire Service Instructor I, proof must be submitted with the application. Students must pass the Fire Officer I practical and written exam prior to taking the Fire Officer II exam.

Class Hours: 144 Fire Marshal Credit: 63

Course Fee: No Charge, Funding is provided by the FEMA/NFA State Fire Training Grant.

Fire Officer I

Fire Officer I is a comprehensive course designed to strengthen the new or aspiring fire officer's supervisory and leadership skills. Emergency and routine duties of the company officer will be discussed. Oriented to the level of Lieutenant, topics covered in this course include: human resource management, community and government relations, public education, safety, inspection and investigation and emergency service delivery. Students will spend limited time in a fire command simulator during the emergency service delivery section of the course.

Training Prerequisite: Certified Fire Service Instructor I. NIMS 700, ICS 100, ICS 200.

Required Text: Jones and Bartlett: Fire Officer, Principles and Practices, 3rd Edition.

Certification Examination Prerequisites: Certified Fire Service Instructor I. Proof must be submitted with the application.

Certification testing time: requires additional dates for the practical exam and the written exam.

Class Hours: 96

Fire Marshal Credit: 33

Course Fee: \$440.00

Fire Officer II

This course is designed for those fire officers or aspiring officers that need the skills to supervise multiple companies. Generally, this level involves the management of company supervisors involved in the operational aspects of a fire station. Oriented to the level of Captain, topics covered in this course include: group behavior, employee evaluation, communication skills, report preparation, pre-fire and operational planning, inspections, command of hazardous materials incidents, safety and emergency services delivery. Students will spend limited time in a fire command simulator during the emergency service delivery section of this course.

Training Prerequisites: Fire Officer I.

Required Text: Jones and Bartlett: Fire Officer, Principles and Practices, 3rd Edition.

Certification Examination Prerequisites: Certified Fire Officer I and Certified Fire Service Instructor I. Proof must be submitted with the application.

Certification testing time: requires additional dates for the practical exam and the written exam.

Class Hours: 80

Fire Marshal Credit: 45

Course Fee: \$385.00

Fire Officer III

Organizational Administration is a non-traditional course offered to individuals currently holding or aspiring to the rank of shift commander or chief officer. It is designed to enhance the skills of the chief officer by providing a group of peers with a progressive learning environment. This semi-independent study course includes a balance of regularly scheduled peer group discussion sessions and development of individual projects. Areas covered in the discussions and projects will include human resource management, community relations, administration, inspection and investigation, emergency services delivery and safety. Candidates will be required to identify a mentor of their choosing that will provide support and guidance.

Training Prerequisites: Certified Fire Officer II. Proof must be submitted with initial application.

Required Text: The reference books used for this course will be the current edition of the IFSTA Chief Officer, 3rd Edition; other text may be recommended in class.

Certification Examination Prerequisites: Certified Fire Officer II. Proof must be sub-

mitted with initial application.

Certification will be achieved through a project based assessment method, and written examination.

Class Hours: 48

FM Credit: 45

Course Fee: \$410.00

Fire Officer: Fire Officer IV

This semi-independent study course consists of a balance of regularly scheduled peer group discussion sessions and the development of individual projects. Areas covered in the discussions and projects will focus heavily on human resource management, administration, multi-agency emergency services delivery and safety. Oriented to the level of Assistant Chief, Deputy Chief or Chief, topics covered in this course include: grievance administration, training and educational goal setting and planning, employee assistance programs, incentive programs, community event planning, long-range planning, and civil disturbance and disaster planning.

Training Prerequisites: Fire Officer III

Required Text: IFSTA Chief Officer 3rd Edition.

Certification Examination Prerequisites: Certified Fire Instructor II and Fire Officer III

Course Fee: \$410.00

Class Length: 48 Hours

FM Credit: 5

Fire Service Instructor I

This course is designed to meet the first level of instructor as identified in the NFPA 1041 standard. Topics covered during the course include: adult learning and communication, understanding performance objectives, evaluation, and methods of instruction. Students will present from a prepared lesson plan. Study and support materials are online. Access to a computer with internet access is mandatory. Homework assignments and formative assessments will be completed and submitted online.

Successful completion of this course will prepare the student to take the Fire Service Instructor I Practical Skills and Written Certification Examinations.

Maximum class size: 18

Training Prerequisites: Certified Firefighter II. Proof must be submitted with the application.

Required Text: IFSTA, Fire and Emergency Services Instructor, 8th Edition

Certification Examination Prerequisites: Certified Firefighter II; or have been a member of a Fire Department on or before July 1, 1977. Proof must be submitted with the application.

Certification testing time: requires additional date for the written exam.

Class hours: 48

FM Credit: 32

Course Fee: \$430.00

Fire Service Instructor II

Designed for the Fire Service Instructor I, Fire Service Instructor II is a comprehensive course designed to meet the requirements of NFPA 1041. Topics covered include: managing instructional resources, development of instructional materials, supervising other instructors, and evaluation. Students will complete a project and deliver a 20 minute presentation. Access to a computer with internet access is mandatory. Homework assignments will be completed and submitted online. Study and support materials are online. Formative assessment will be submitted online.

Maximum class size: 18

Training Prerequisites: Certified Fire Service Instructor I. Proof must be submitted with application.

Required Text: IFSTA Fire and Emergency Services Instructor, 8th Edition

Certification Examination Prerequisites: Certified Fire Service Instructor I

Certification testing time: requires additional day for the written exam.

Class hours: 40

Course Fee: \$330.00

Health and Safety Officer

This course examines the Health and Safety Officer's role with the identification, evaluation and implementation of policies and procedures that affect the health and safety aspects for emergency responders.

Through the use of case studies, small group workshops and instructor facilitation of safety concepts, participants will gain a thorough understanding of risk management; wellness issues; incident safety functions; regulatory requirements and their impact on increasing the survivability of fire department personnel. This course is designed for individuals who have department level health and safety responsibilities. Attendees should have a working knowledge of ICS, applicable NFPA and OSHA requirements, and responsibility for setting policy for their department on such issues.

Training Prerequisites: None

Required Text: IFSTA Health and Safety Officer, 2nd Edition

Certification Examination Prerequisites: Direct Entry

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 24

Course Fee: \$140.00

Incident Safety Officer: Fire Suppression

The goal of this course is to provide students with the knowledge and skills needed to perform the duties of the Incident Safety Officer (ISO) during incident operations and training evolutions.

This course is designed for fire and emergency medical services (EMS) responders who may be designated by the Incident Commander (IC) as an ISO while working within an Incident Command System (ICS). These assignments may occur during firefighting, EMS, special operations type incidents, and training evolutions.

This course is an incident-specific, scenario-oriented course designed to teach students what an ISO needs to know at an incident. The course uses instructor-led discussion, multimedia activities, and small group discussions to convey instructional points.

Training Prerequisites: None

Required Text: Jones & Bartlett, Fire Department Incident Safety Officer, 3rd Ed.

Certification Examination Prerequisites: Certified Fire Officer I, or have been a Fire Officer with a department on or before July 1, 1986. Proof must be submitted with the application.

Certification testing time: requires an additional date for the certification written exam.

Class Hours: 24

Course Fee: \$140.00

RIT Command and Control

This one-day course is designed for officers that will be in a position to take strategic and tactical command at RIT activations on the fire ground. Through classroom lecture and group activities, officers will gain valuable information on how to manage RIT emergencies while at the same time continuing other fire ground operations.

Class hours: 8

Course Fee: \$45.00

Strategy and Tactics: Bread and Butter Calls

This two-day course takes the experienced fire fighter through the basics of fire ground decision-making. These are the “room and content”, everyday calls that any fire department should be able to control with even limited resources. It teaches the student to formulate an overall strategy, and to then employ the appropriate tactics to support that strategy using time-tested models. In-class scenarios will take place throughout the course to give students opportunities to work a simulated fire incident.

Class Hours: 16 Course Fee: \$85.00

Strategy and Tactics: Everyday Emergencies

This two-day course takes the firefighter and company officer through the everyday calls that take up the majority of fire service responses. These are the most common calls where the responder deals with the citizens and public the most. These calls are often referred to a “nuisance” calls by first responders but to the occupant or those effected by it, the incident could be a crisis. Common calls involve; utility issues: gas, electric, water; carbon monoxide detector activations; oil burners and heating units; auto accidents and fires; elevator emergencies; dumpster fires; auto fires; automatic alarm activations.

Class Hours: 16 Course Fee: \$85.00

Strategy and Tactics: Fundamentals

This two day course introduces the officer candidate to the philosophy and tools required for leadership decision making during emergencies. Subjects covered will be a review of the National Incident Management System (NIMS), Incident Priorities and Decision making, the basics of fire behavior and building construction, “size-up”, evaluation and assessment as well as the difference between “strategy and tactics” using such tools as Layman’s Tactical Model and RECEO VS, Terpak’s COAL TWAS WEALTHS or Norman’s version COAL WAS WEALTH and offensive versus defensive operations.

Class Hours: 16 Course Fee: \$85.00

FIREFIGHTING PROGRAMS

Building Construction

This course provides the components of building construction that relate to fire and life safety and how understanding the building types and construction principles will improve fire suppression and fire ground safety. The emphasis of this course is on firefighter safety. The elements of construction and design of structures are shown to be key factors when inspecting buildings, pre-planning fire operations, and operating at emergencies.

This two day class will also describe the benefits of cross-disciplinary cooperation among fire protection and design professionals. The course will explain the elements of building construction as they apply to construction codes. It will help to understand the elements of building construction as they apply to firefighter safety, how to anticipate fire behavior based on structural elements of, and thermal effects. As well as explain how design elements and emerging building methods and materials affect fire behavior and structural performance.

Cost: \$65.00

Class Hours: 16 FM Credit: 12 EMS-I Credit: None

Fireground Survival

This course on firefighter survival and rapid intervention training uses scenarios based on actual incidents to identify problems encountered, and offers solutions for members in life threatening situations. Self-rescue procedures, such as low profile ladder egress and personal rope bail-out procedures will give participants options if caught in deteriorating situations. The class will also cover removing members in distress and teach skills to safely do so. Methods of searching for missing firefighters in an open area will also be covered. Class is labor intensive, full protective clothing including SCBA with spare cylinder is required.

Training prerequisite: Firefighter I

Class Hours: 24 Course Fee: \$190.00

Flashover Survival

Flashover Survival begins with a classroom presentation followed by a simulation of a pending flashover in the Connecticut Fire Academy flashover simulator. The flashover simulator offers firefighters the opportunity to observe fire behav-

ior and the signs of an impending flashover in a controlled setting. This training is an experience of a lifetime that could save your life. Students should bring a bottle of water or sport drink to re-hydrate throughout the training.

Participants are required to bring full protective clothing, including SCBA with one spare cylinder. Long pants are required to participate in the flashover live burns. Shorts alone are not acceptable.

The Connecticut Fire Academy will not be responsible for damages to PPE.

Training Prerequisites: Certified Firefighter I; proof must be submitted with the application.

A separate flashover permission slip is required at the time of registration.

Class Hours: 8 FM Credit: 4

Course Fee: \$120.00

Recruit Firefighter

The Recruit Firefighter program is a 70 day, 14-week, residential course that focuses on developing the knowledge, skills, and abilities needed for a new firefighter to perform entry-level tasks under direct supervision. The training program consists of both theory and practical skills development, and is delivered on an incremental basis to promote the maximum retention of job knowledge, skill competency, and safe practices. The recruit will establish a strong will for teamwork, company morale, self-discipline, orderliness, precision, and conduct necessary to be a firefighter. At the conclusion of this course, the recruit firefighter will be tested to the Firefighter I and Firefighter II and Hazardous Materials – First Responder Awareness, Operational and WMD standard.

Course Curriculum: The course covers a broad range of topics that today’s firefighter faces on a daily basis, and includes: A complete curriculum to encompass Firefighter I and II based on the NFPA 1001 – Firefighter Professional Qualifications and NFPA 472 – Standard of Competence for Hazardous Materials/Weapons of Mass Destruction.

In addition, Recruits will experience and train on Health, Wellness, and Fitness, Cultural Diversity, Employee Assistance Programming, Response and Size-up/ Fire Ground Decision Making, Thermal Imaging for the Fire Service, Basic Pump Operations, Basic Aerial Operations, Introduction to Fire Investigation, Elevator Rescue, Confined Space Rescue, Handling Utility Emergencies, Courage to be

Safe, Firefighter Safety and Survival, Rapid Intervention Teams and Rescue Awareness (NFPA 1670) and Rescue Core (NFPA 1006).

Residency Requirement: Recruits will reside at the Connecticut Fire Academy during the weekdays throughout the course.

Enrollment: There is a capped enrollment of 50 participants; students who have a current Fire Service employment offer will be given preference, and any other students will be served on a “space-available” basis. If the capped enrollment has been reached, those students whose applications would have exceeded the class size limitation will be given preference in the next scheduled class. There are two (2) classes held per year, one each in the spring and fall.

VA Approval: The Recruit Firefighter training program at the Connecticut Fire Academy has been approved for veteran education benefits.

PPE Requirement: Full NFPA 1971 compliant Personal Protective Equipment and SCBA with 2 spare cylinders.

Training Pre-requisites: Training prerequisites and a complete program description are available on the Connecticut Fire Academy web site approximately one month prior to the scheduled start of the recruit class.

Additional Pre-requisites:

1. Must have a valid CPAT card within two (2) years prior to the scheduled Recruit Class start date.
2. Proof of meeting the respective Fire Department’s medical and physical fitness requirements.

Class Hours: 70 Days — nearly 700 hours of comprehensive training.

Course Fee: \$6,685.00

Course fee includes tuition, student manuals, lodging, breakfast and lunch.

Orientation to the Recruit Firefighter Program

The academy is offering several orientation sessions for anyone interested in learning about the Recruit Firefighter Program and its comprehensive classroom instruction and training in firefighting techniques and equipment. Each two hour orientation session offers insights into what to expect, and how to prepare for this intensive training program.

FIRE PREVENTION PROGRAMS

NFA Risk Assessment

Course description

This two-day course will enable the student to begin to create a comprehensive campus fire and life safety program, starting with conducting a risk assessment and developing and evaluating an emergency plan, as well as building partnerships to sustain emergency programs and plans.

Selection criteria

The target population for this course will include, but not be limited to, campus staff with responsibility for learner safety (including housing coordinators), fire and Emergency Medical Services staff (both on campus and off campus), local government officials (code enforcement, building inspection, etc.), community support groups, and off-campus housing interest groups.

Prerequisites

None

NFA Public Education

Course description

This is a new two-day program providing students with the ability to create and implement a comprehensive campus fire and life safety public education program. There will be a focus on looking at the on-campus and off-campus fire risks and educating students, personnel and stakeholders about these risks.

Selection criteria

- State and local government officials, including fire and emergency services.
- Public education specialists with an interest in campus life safety.
- Campus staff with responsibility for student safety and security.

Prerequisites

None

NFA Codes and Systems

Course description

This two-day course will empower the student to identify and mitigate common campus fire and life safety risks, as well as understand the basic components and operation of fire protection and life safety systems.

Selection criteria

The target audience for this course will include (but not be limited to):

- Campus staff with responsibility for student safety, including campus housing coordinators.
- Fire department staff (both on campus and off campus).
- Local government officials (code enforcement, building inspection, etc.).

Prerequisites

None

HAZARDOUS MATERIAL PROGRAMS

Hazardous Materials courses provided by the Commission on Fire Prevention and Control are delivered with assistance from the State Emergency Response Commission and the United States Department of Transportation, Pipeline and Hazardous Materials Safety Administration.

PUBLIC EDUCATION PROGRAMS

Public Fire and Life Safety Educator I

This is an entry-level course that will prepare anyone who performs public education duties to present existing programs to all audiences. The course addresses fire prevention activities, the major causes of unintentional injury, characteristics of learning, evaluation of lesson plans, presentation methods, effective usage of audiovisual aids, successfully dealing with the media, and recordkeeping. This four-day course meets the requirements of NFPA 1035, "Professional Qualifications for Public Fire and Life Safety Educator I." Reference material is required for the class.

Training Prerequisites: NONE

Required Text: IFSTA Fire and Life Safety Educator, 3rd Edition.

Other required materials: Curious George and the Firefighters, Fire Fighter by DK Readers, Flat Stanley and the Firehouse, Going to the Firehouse.

Certification testing time: Requires an additional date for certification written exam.

Cost: \$275.00

Class Hours: 32

FM Credit: 24 Hours

EMS-I Credit: None

Public Information Officer

This two-day course is designed to instruct participants in the basic methods for establishing and maintaining a positive relationship with the news media. Fire department activities, including public fire education programs, man-made and natural disasters, and emergencies, make developing policies and training for dealing with the news media essential. Discussion topics will cover: public disclosure laws; media relations; and news releases. Participants will learn the basics of preparing news releases, setting up press conferences, and the responsibilities of the Public Information Officer (PIO) at the scene of an emergency. Students will participate in mock briefings with reporters from various news sources.

Training Prerequisites: NONE

Required Text: Jones and Bartlett Media Relations for Public Safety Professionals by Leo M. Brown.

Cost: \$165.00

Class Hours: 16

FM Credit: 6 Hours

EMS-I Credit: None

BulEx Smart Stove Prop

The BulEx Smart Stove training prop is a simulator designed to teach various audiences the proper actions to react to a fire in their Oven or on the stovetop. The simulation uses a non-toxic smoke and a fire extinguisher prop that uses lasers to determine if the student is using it properly to extinguish the fire. The simulator is reusable for multiple evolutions of the training. Although Oven and Stove fires and correct fire extinguisher use are the main lessons of the prop, other messages can be outlined as well. For example; Notifying the Fire department, proper reaction to smoke detectors, proper storage of combustibles in the stove area and other basic kitchen fire safety messages are also easy to adapt with the use of the unit.

To reserve the unit, contact Alan Zygmunt, Public Fire and Life Safety Education Coordinator at (860) 627-6363 Ext: 222 or at alan.zygmunt@ct.gov. Be sure to include the date and times of your event in your request as well as contact information. Also allow at least 30 days' notice to ensure that the prop will be available for your event.

Cost: FREE

Juvenile Firesetter Intervention Specialist I

The goal of the course is to provide the skills and tools necessary to become a Juvenile Firesetter Intervention Specialist I. The class will address the NFPA 1035 Juvenile Firesetter Intervention Specialist I including: Introduction; Primary Prevention; Identification and Intake; Who Sets Fires and Why?, and Interviewing and Intervention Strategies. Students will be introduced to the NFPA 1035 Juvenile Firesetter Intervention Specialist I Professional Standard and the individual will learn to conduct an interview with a firesetter and their family using prepared forms and guidelines. They will also learn who, based on recommended practice, may determine the need for referral for counseling

and/or implement educational intervention strategies to mitigate effects of firesetting behavior.

Course is designed for individuals that have responsibilities related to Juvenile Firesetting Intervention, interviewing, and prevention. The target audience includes practitioners who interact with children who are involved in firesetting and/or arson behavior and their families. In addition to the fire service, professionals from a myriad of fields including Mental Health, Law Enforcement, Education, Counseling Services, and Social Services can benefit from the training.

Training Prerequisites: NONE

Required Text: IFSTA Fire and Life Safety Educator, 3rd Edition.

Certification testing time: Requires an additional date for certification written testing.

Cost: \$165.00

Class Hours: 16

FM Credit: 16

EMS-I Credit: None

Juvenile Firesetter Intervention Specialist II

The goal of the course is to provide the skills and tools necessary to become a Juvenile Firesetter Intervention Specialist II. The class will address the NFPA 1035 Juvenile Firesetter Intervention Specialist II including: Identification and Intake; Coalition Building Support and Management; Budget and Funding; Development of a Juvenile Handbook, Resource Directory, Data Base, and Program Evaluation. Students will be introduced to the NFPA 1035 Juvenile Firesetter Intervention Specialist II Professional Standard and the individual will learn to develop and coordinate a child firesetting intervention program and the activities of other Juvenile Firesetter Intervention Specialists. The course develops skills including interviewing and assessment, program development, implementation, and evaluation.

Course is designed for individuals that have or will have responsibilities related to the management and/or coordination of a Juvenile Firesetting Intervention program.

Prerequisites: Juvenile Firesetter Intervention Specialist I

Required Text: IFSTA Fire and Life Safety Educator, 3rd Edition.

Certification testing time: Requires an additional date for certification written testing.

Cost: \$165.00

Class Hours: 16

FM Credit: 16

EMS-I Credit: None

RESCUE PROGRAMS

NOTE: The programs listed in the calendar as Rescue Technician are currently being up-dated to the latest NFPA 1006 standard. Therefore the class description, contact hours, and course fee are subject to change. When available, updates will be posted on the DESPP/CFPC website.

Cold Water Rescue

This course is designed for first responders operating at the scene of a cold water or ice rescue. Topics covered include: pre-planning, risk assessment, ice types and how they form, hypothermia, cold water drowning, incident size-up, water rescue equipment, and rescue operations. Participants will perform simulated water and ice (if available) rescues using cold water entry suits and associated equipment.

Training Prerequisites: None

Class Hours: 16

Course Fee: \$90.00

Rescue Technician – Confined Space

This course will train students to perform technician level confined space rescue operations. The training objectives meet NFPA 1006 and OSHA 1910.146. Students will learn to preplan, evaluate atmospheres and use protective equipment related to confined spaces, implement and terminate an incident management system for confined space. Students will exercise their previous knowledge for victim management and rope rescue techniques to remove a victim from a confined space. The PPE requirements are rescue gloves, a protective helmet and footwear.

Training Prerequisites: Rescue Technician Core and Hazardous Materials Operational; proof must be submitted with the application.

Certification Examination Prerequisite: Rescue Technician Core and a minimum of EMR certification.

Required text: CMC Confined Space Entry and Rescue Manual Revised 2nd edition

For certification to this level, an additional practical skills examination of

one or two days plus a written test is required.

Certification testing time: requires additional dates for the certification written and practical exams.

Class Hours: 48

Course Fee: \$525.00

Rescue Technician – Core

This course is designed to meet the job performance requirements in chapter 5 of NFPA 1006 Rescue Technician. Students will learn the basics of site operations, size-up, resource management, hazard/risk assessment, ground support for helicopter operations and incident management as it relates to the rescue environment. Students will learn skills to use rope-rescue equipment to manage victims, anchor-rope systems, build and operate lowering and hauling systems in a low angle environment. Students will also be able to inspect and maintain related rescue equipment.

This program is a prerequisite for all technical rescue certification courses.

The PPE requirements are rescue gloves, a protective helmet and footwear.

Required Texts: IFSTA Fire Service Search and Rescue 8th edition, Technical Rescue Operations Field Guide 4th edition

Training Prerequisite: Firefighter I, Hazardous Material Operational and minimum EMR

Class Hours: 48

Course Fee: \$465.00

Rescue Technician – Rope

This program will train the students to perform technician level rope rescue to the NFPA 1006 Rescue Technician standard. The training will focus on rescue situations in the high-angle environment. The students will identify and construct anchoring systems, rappel and belay lines, lowering and hauling mechanical advantage systems, and tensioned highlines.

The PPE requirements are rescue gloves, a protective helmet and footwear.

Training Prerequisite: Rescue Technician Core.

Certification Examination Prerequisite: Rescue Technician Core and a minimum of EMR certification; proof must be submitted with the application.

For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Required Text: High-Angle Rope Rescue Techniques 4th edition

Class Hours: 48

Course Fee: \$600.00

Rescue Technician – Trench

This program will train the students to perform technician level trench rescue. The training objectives meet NFPA 1006 and OSHA 1926. Students will evaluate trenches and soil conditions; will learn to shore unprotected straight and intersecting trenches with both community and pneumatic shoring. They will also use supplemental shoring when needed. Students develop an action plan to manage and remove a victim from a trench accident.

The PPE requirements are a protective helmet, footwear, gloves, eye protection, and work clothes.

Training prerequisites: Rescue Technician Core and Hazardous Materials Operational; proof must be submitted with the application.

Certification Examination Prerequisite: Rescue Technician Core and a minimum of EMR certification; proof must be submitted with the application.

For certification to this level, an additional practical skills examination of one or two days plus a written test is required.

Certification testing time: requires additional dates for certification written and practical exam.

Required text: Jones & Bartlett, Trench Rescue: Awareness, Operations, Technician 2nd Edition

Optional Text: Trench Rescue Operational Field Guide

Class Hours: 48

Course Fee: \$550.00

Special Rescue Technician

NOTE: The programs listed in the calendar as Rescue Technician are currently being up-dated to the latest NFPA 1006 standard. Therefore the class description, contact hours, and course fee are subject to change. When available, updates will be posted on the DESPP/CFPC website.

CONNECTICUT FALLEN FIREFIGHTERS MEMORIAL

Located on the grounds of the Connecticut Fire Academy in Windsor Locks, stands the Connecticut Firefighters Memorial dedicated to Connecticut Firefighters who have lost their lives in the line of duty.

The Memorial was first envisioned in 1992 with the establishment of a Memorial Committee by the Connecticut State Firefighters Association. A ground breaking was held on June 12, 2001. The Memorial is the first of its kind in the state honoring Connecticut Firefighters who gave the

ultimate sacrifice with more than 300 names engraved in the granite panels that surround the Memorial.

The design of the Memorial was conceived by the Connecticut Firefighters Memorial Committee incorporating a plaza-like setting, featuring a brick patio in the form of the Maltese Cross, the universal symbol of the fire service. The centerpiece of the Memorial is a six foot by twelve foot polished impala black granite stone bearing the likeness of four firefighters fighting a blaze; Lieutenant Paul Walsh of the

New Britain Fire Department designed the artist's rendition of the firefighters. The centerpiece rests upon a base of concrete and gray granite to which are affixed plaques with the engraved names of those who have lost their lives. The plaques are numbered with roman numerals to ease the task of locating names. Atop the base, in front of the centerpiece is an eternal flame to acknowledge and honor this group of brave and noble firefighters. Surrounding the centerpiece are eight granite sitting benches representing the eight counties in Connecticut.

On September 25, 2011, the Memorial site saw the addition of a steel artifact from the World Trade Center. The nearly twelve foot tall beam weighing 1200 pounds is a lasting memorial to the 343 FDNY firefighters, other first responders and civilians who perished as a result of the terrorist attacks on September 11, 2001.

The 2018 CSFA Fallen Firefighters Memorial Ceremony is scheduled for Sunday, September 24, 2018. Please attend and honor Connecticut's Bravest!

The Memorial Site is accessible 24 hours a day for the public to pay tribute to Connecticut's Bravest.

To make a donation to the Connecticut Fallen Firefighter Memorial or to purchase a walkway brick, go to www.ct.gov/cfpc and click on Fallen Firefighter Memorial in the center of the page.

CPAT

Orientation & Physical Conditioning

The Candidate Physical Ability Test (CPAT) consists of eight separate events. CPAT is a sequence of events requiring you to progress along a predetermined path from event to event in a continuous manner. The events include: Stair Climb, Hose Drag, Equipment Carry, Ladder Raise and Extension, Forcible Entry, Maze Search, Victim Drag and Ceiling Breach and Pull. This test was developed to allow fire departments to obtain pools of trainable candidates who are physically able to perform essential job tasks on the fire scene. This is a pass/fail test based on a validated maximum total time of 10 minutes and 20 seconds.

During the events, you wear a 50-pound vest to simulate the weight of a self-contained breathing apparatus (SCBA) and firefighter protective clothing, a helmet and gloves. An additional 25 pounds, using two 12.5-pound weights which simulate a high-rise pack (hose bundle), is added to your shoulders for the stair climb event only. Throughout all events, you must wear long pants, footwear with no open heel or toe, a provided hard hat with chinstrap, and provided work gloves. Watches and loose or restrictive jewelry are not permitted. All props are designed to obtain the necessary information regarding your physical ability. The tools and equipment were chosen to provide the highest level of consistency, safety and validity in measuring your physical abilities. The events and distances between events are always the same.

The events are placed in a sequence that best simulates fire scene events while allowing an 85-foot walk between events. To ensure the highest level of safety and to prevent exhaustion, no running is allowed between events. This walk intentionally allows you approximately 20 seconds to recover and regroup before each event.

The history of Candidate Physical Ability Testing in Connecticut has shown beyond a doubt that preparation is the key to success. CPAT is extremely demanding. CPAT tests your strength, agility, balance and ability to follow directions while under physical and emotional stress. Many have made the error in believing they can pass without proper preparation. The Connecticut Fire Academy is required to offer detailed Orientations and two Practice Tests prior to the administration of CPAT. The orientations include a review of all materials within the Candidate Guide booklet. More importantly, the orientations give the candidate the opportunity to perform a self-evaluation by physically reviewing and using the same equipment used in the testing process. The Practice Tests allow candidates to run the test course under timed conditions. If the Practice Test is conducted under "CPAT Conditions" and the candidate passes, it will be counted as passing CPAT. Attending the orientations and practice tests is highly recommended.

To allow for the required eight week CPAT preparatory period as well as the time to process the CPAT applications, a deadline has been established for registering for both the spring and fall testing cycles. Applications received after the published deadline will not be accepted and you will not be able to test during that CPAT testing cycle. Those who have been accepted into the CPAT testing process will receive a packet with information on the testing process and the CPAT confirmation Form that lists the dates and times for their orientations, practice tests and the CPAT test. If you do not receive a CPAT packet during the two weeks following the application deadline, it is your responsibility to contact the Connecticut Fire Academy within 14 days of the application deadline to verify you are

registered and that we have your proper mailing address. Inquiries made after the 14 day time period will not be acted on and you will not be allowed to participate in that CPAT testing cycle.

Please refer to our website at www.ct.gov/cfpc for a listing of the CPAT application deadlines and for the link to apply, only online applications will be accepted. It is also highly recommended that you download and review the Candidate Preparation Guide and the Candidate Orientation Guide.

The CPAT testing fee is \$175.00 for in-state candidates and \$200.00 for out-of-state candidates, of which \$50 is a non-refundable processing fee. Registered candidates who wish to withdraw from the CPAT testing process must do so via email to the program coordinator. The written request for a refund of the CPAT testing fee (minus the \$50 processing fee) must be received at the Connecticut Fire Academy at least one day prior to the candidate's first scheduled orientation. Requests for refunds received on or after the candidate's first orientation date will not be considered.

CPAT Cancellations by the Connecticut Fire Academy

CPAT may be cancelled due to a number of conditions affecting testing. The main reason for cancellation is adverse weather. The weather can be very unpredictable, do not rely on your local weather reports, as the conditions may be different at the test site. It is highly recommended that you call 877-528-3473 (in state), (860) 627-6363 (out of state) extension 415 Prior to traveling to the testing site. There will be a prerecorded message stating that the test is either running or has been cancelled. Unfortunately, the test can be cancelled at the last minute. If you are traveling a long distance we encourage you to call extension 415 several times during your travel.

If the CPAT test is cancelled the message on extension 415 will state how and or when you will be notified of the rescheduled CPAT test date. Except for test cancellations as indicated above your assigned practice tests and CPAT test will not be rescheduled for any reason. You will not be able to change your dates after you have registered.

Watch the CFA List Serve for information about special sessions that may be offered during the summer.

2018 CPAT SCHEDULE

The Connecticut Fire Academy offers a spring and fall testing cycle. It is important to understand that all orientations, practice tests, and CPAT tests are based on two application deadlines. Applications must be completed by the application deadline to be registered for that testing cycle. The 2018 application deadlines are March 10, 2018 for the spring testing cycle and July 28, 2018 for the fall testing cycle.

Candidates will receive their assignments via email after a successful registration. Any questions with the registration process should be directed to CPAT@ct.gov.

Watch the CFA website for future information regarding online registration for CPAT.

Directions to CPAT Center in Meriden

From the Hartford Area:

Take I-91 South

Merge onto CT Route 9 via Exit #22 North toward New Britain

Take Exit #22 toward CT Route 15 South

Turn right onto Frontage Road

Turn right onto CT Route 372 Worthington Road

Merge onto CT Route 15 South via ramp on Left toward New Haven

CPAT Center will be on your right.

From New Haven Area:

Take I-91 North

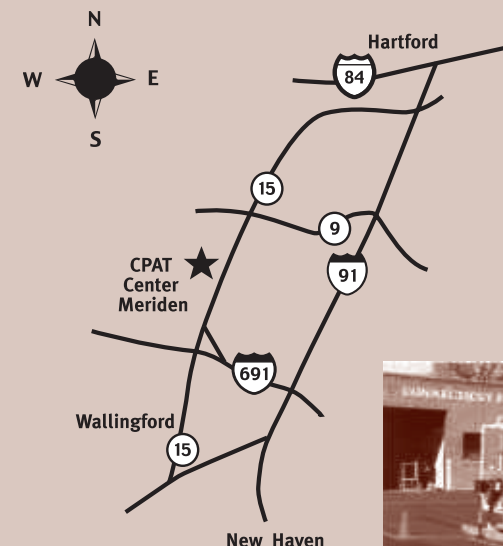

Merge onto CT Route 15 North via Exit #17 toward Berlin Turnpike

You will pass CPAT Center on your left, take next "U" turn onto

Route 15 South

CPAT Center will be on your right.

CERTIFICATION

NATIONAL PROFESSIONAL QUALIFICATIONS STANDARDS

The State of Connecticut Commission on Fire Prevention and Control is pleased to offer Fire Service Certification to the members of Connecticut's fire service. Certification is an excellent means by which an individual may measure his/her knowledge, skills, and abilities against a national standard.

As indicated below, the Commission currently offers 40 levels of certification. The National Fire Protection Association Professional Qualifications Standard against which the examination is based is noted below. The Commission has adopted the most current edition of the noted Standards as the Standards for Certification.

The certification examination process for each level consists of a written and a practical skills examination. The levels of Firefighter I and Firefighter II also require verification of live fire suppression activities.

All of the Commission's Certification levels have been accredited by the National Board on Fire Service Professional Qualifications and the International Fire Service Accreditation Congress.

This summary is designed to provide an overview of the Commission on Fire Prevention and Control's Certification Process. For more detailed information, including the specific examination requirements for each level, please contact the Certification Division at 860-627-6363.

INDEMNIFICATION OF INSTRUCTORS

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. Section 7-323q of the general statutes is repealed and the following is substituted in lieu thereof (Effective October 1, 2010):

The state shall save harmless and indemnify any person certified as a fire service instructor by the Commission on Fire Prevention and Control under section 7-323l from financial loss and expense, including legal fees and costs, if any, arising out of any claim, demand, suit or judgment by reason of alleged negligence or other act resulting in personal injury or property damage, which acts are not wanton, reckless or malicious, provided such person, at the time of the acts resulting in such injury or damage, was acting in the discharge of such person's duties (1) as an employee or member of a municipal, state or tribal nation fire department to provide fire service training and instruction for the other members or employees of such municipal, state or tribal nation fire department, (2) as a fire service instructor employed by said commission to provide fire service training and instruction on behalf of said commission, or (3) as a fire service instructor employed by a regional fire school to provide fire service training and instruction on behalf of such school.

Candidates must meet all prerequisites prior to applying for examination

As of November 2015

| NFPA Standard | Certification Title | Prerequisite |
|-------------------|---------------------|---|
| 1001 2013 Edition | Firefighter I | Member of a Connecticut Fire Department |
| 1001 2013 Edition | Firefighter II | Firefighter I or continuous member of fire service prior to July 1977 |
| 1002 2014 Edition | Pump Operator | Firefighter I or continuous member of fire service prior to July 1977 and CDL, Q Endorsement or proof of Q Training |
| 1002 2014 Edition | Aerial Operator | Firefighter I or continuous member of fire service prior to July 1977 and CDL, Q Endorsement or proof of Q Training |
| 1002 2014 Edition | Tanker Operator | Certified Pump Operator |

| NFPA Standard | Certification Title | Prerequisite |
|-------------------|---|--|
| 1006 2013 Edition | Rescue Technician- Structural Collapse I/II | Direct Entry (USAR) with Connecticut Rescue Technician Core |
| 1006 2013 Edition | Rescue Technician- Rope I/II | Connecticut Rescue Technician Core and current EMR |
| 1006 2013 Edition | Rescue Technician- Trench I/II | Connecticut Rescue Technician Core and current EMR |
| 1006 2013 Edition | Rescue Technician- Vehicle I/II | Connecticut Rescue Technician Core and current EMR |
| 1006 2013 Edition | Rescue Technician- Machinery I/II | Connecticut Rescue Technician Core and current EMR |
| 1006 2013 Edition | Rescue Technician- Confined Space I/II | Connecticut Rescue Technician Core and current EMR |
| 1021 2014 Edition | Fire Officer I | Firefighter II or continuous member of fire service prior to July 1977 and Fire Service Instructor I |
| 1021 2014 Edition | Fire Officer II | Fire Officer I and Fire Service Instructor I |
| 1021 2014 Edition | Fire Officer III | Fire Officer II |
| 1021 2014 Edition | Fire Officer IV | Fire Officer III |
| 1031 2014 Edition | Fire Inspector I | OEDM sponsor |
| 1033 2014 Edition | Fire Investigator | OEDM sponsor |
| 1035 2013 Edition | Public Fire and Life Safety Educator I | Direct Entry |
| 1035 2013 Edition | Juvenile Firesetter Intervention Specialist I | Direct Entry |
| 1041 2012 Edition | Fire Service Instructor I | Firefighter II or continuous member of fire service prior to July 1977 |
| 1041 2012 Edition | Fire Service Instructor II | Fire Service Instructor I |
| 1041 2012 Edition | Fire Service Instructor III | Fire Service Instructor II |
| 1521 2015 Edition | Health and Safety Officer | Direct Entry |
| 1521 2015 Edition | Incident Safety Officer- Fire Suppression | Fire Officer I or Fire Officer in fire department on or before July 1, 1986 with continuous service |
| 472 2013 Edition | HM/WMD and Awareness and Operations | OSHA 1910.134 |
| 472 2013 Edition | Hazardous Materials Technician | 29 CFR 1910.134 and Haz-Mat Operations |

The Training Division of the State of Connecticut Department of Emergency Services and Public Protection/Commission on Fire Prevention and Control has streamlined the process by which individuals may participate in certain training programs by eliminating as training prerequisites certification examination requirements. The responsibility for ensuring that individuals are qualified to participate in a certification examination now shifts from the Training Registrar to the individual certification candidate. Candidates for Certification are now personally required to ensure that they have met all prerequisites prior to submitting an examination application and are required to submit any required documentation prior to the examination. Failure to do so will result in rejection of the examination application. After 12 months of completing a class candidates must restart the Certification process if they have not yet taken and/or passed all testing requirements for that course.

Additionally, State of Connecticut Regulations require that all candidates for certification be 18 years of age at the time of the examination and that candidates for certification be a member of a fire department with the exception of Public Fire and Life Safety Educator I Juvenile Firesetter, Intervention Specialist I, Health and Safety Officer, which allow direct entry into those levels.

CERTIFICATION DIVISION

ACCOMMODATIONS FOR CANDIDATES WITH LEARNING/READING DISABILITIES PARTICIPATING IN WRITTEN CERTIFICATION EXAMINATIONS FOR FIREFIGHTER I ONLY

I. General Policy

A. In accordance with Section 7-323I-95 (d) of the Regulation of the State of Connecticut, all examinations and/or components of examinations shall be structured and administered in accordance with the Americans with Disabilities Act. The Certification Division will make reasonable accommodations to the known learning/reading disabilities of candidates to the extent feasible. Accommodating the individual handicapped candidate's needs while maintaining the integrity of the certification testing process will be of primary consideration.

II. Reasonable Accommodations

Reasonable accommodations to be made in test administration are specified below in Section V. One or a combination of accommodations may be necessary for individual candidates according to their needs and the requirements of the test material to be presented to them. The Director of Certification may allow other accommodations on a case-by-case basis.

III. Documentation

Each candidate requesting accommodations that effect actual test conditions will be required to furnish documentation supporting the accommodation(s) requested. Documentation must be sent to the Director of Certification. The proper individual examination application form and testing fees must accompany the above documentation. All documentation submitted shall remain confidential.

IV. Testing Location

Administration of examinations for individuals with accommodation will be at the offices of the Commission on Fire Prevention and Control in Windsor Locks.

V. Accommodation Options

The following are the accommodation options which may be afforded to the candidate. Other accommodations may be made available to the candidate based upon the individual needs. The Commission may or may not be fiscally responsible for accommodations made.

- A. Additional time
- B. Individual monitor or special attention to assure the candidate has understood instructions
- C. Oral examination

IV. Exception

The expectation for a first responder will be to read and write in American English at Hazardous Materials incidents. Therefore, no accommodations can be made during any hazardous materials Awareness, Operational or Technician Level cognitive or psychomotor Certification examination.

CT Certification on the Web

Please refer to the Certification Division Page of the CFPC website at <http://www.ct.gov/cfpc> for up-to-date certification examination information, certification rules and regulations, examination schedules, and downloadable examination applications for all currently offered examinations.

National Fire Service Certification

The Commission is proud to offer National Fire Service Certification as an accredited agency under the National Board on Fire Service Professional Qualifications and the International Fire Service Accreditation Congress for selected levels.

All individuals who successfully attain state certification will be automatically registered for national certification with the National Board on Fire Service Professional Qualification and/or the International Fire Service Accreditation Congress for the levels accredited by either of those bodies.

COMMON CERTIFICATION QUESTIONS:

1. If I take an online course, can I take the certification exam?

Answer: Online courses currently offered by outside agencies are designed to complement traditional classroom instruction and may not be equivalent to the training offered by the Connecticut Fire Academy. The Commission does not currently recognize any online course of instruction as a self-contained training program for the purposes of certification. Individuals considering online courses should contact the Director of Certification **before** enrolling in an online course.

2. Can I challenge a certification exam?

Answer: Individuals can challenge exams by completing required certification documentation, if they meet one of the following criteria:

- 1- Pro Board or IFSAC certification at the level from another state.
- 2- Previous training and education that satisfies current NFPA Standard JPRs.
- 3- Documented education, training, and experience that satisfy current NFPA Standard JPRs.

3. Can I transfer my certifications from another state?

Answer: Certifications do not "transfer." The Commission recognizes certifications with Pro Board or IFSAC seal numbers for reciprocity. Reciprocity enters you in the Connecticut system at an advanced level to meet the prerequisites for the next level(s).

COURSE OVERVIEW

Book Store hours are Mon. Weds. Thurs. Fri. and Saturday 8:30 a.m. to 4:30 p.m. Tuesday 8:30 a.m. to 8:00 p.m. For more information please see page 44.
Note: Course dates in calendar may change due to unforeseen circumstances.

DIRECTIONS TO CONNECTICUT FIRE ACADEMY

34 PERIMETER ROAD, WINDSOR LOCKS, CT 06096-1069

Main Phone Number (860) 627-6363 • In-State Toll-Free 1-877-528-3473

I-91 North or South to exit 40 (Route 20, Bradley Connector). Follow Route 20 West 1.7 miles to the exit for Route 75. Take a right off the exit onto Route 75 North and follow 2.5 miles. Take a left onto Perimeter Road (see sign for the CT Fire Academy and the New England Air Museum). Continue 1.4 miles to the Academy, which will be on your right. Parking is available at the rear of the building.

WEATHER CANCELLATIONS

For weather cancellation information call the Connecticut Fire Academy

Weather Cancellation Hotline updated at 6:30 am 860-627-6363 or 877-528-3473 ext. 450.

Cancellation information will also be available via television on WFSB Channel 3, WTNH Channel 8, and WVIT Channel 30 the morning of the class.

CPAT Test Status Hotline 860-627-6363 or 877-528-3473 ext. 415.

LODGING AT THE CONNECTICUT FIRE ACADEMY

Students requiring lodging for a confirmed training program or event at the Connecticut Fire Academy may reserve a room by calling (860) 627-6363 Ext. 421 during normal business hours (8:30 am – 4:30 p.m.) Monday through Friday. Lodging availability is at the discretion of the agency based upon evening staffing resources. Reservations are generally available on a first-come, first-served basis with a minimum 72 hour advanced reservation. Each Dormitory room is equipped with a private bath; bed linens and towels are provided however guests are welcome to bring their own pillow and linens/sleeping bag to make their stay more comfortable. Free wireless internet is provided throughout the facility and a student lounge with television, commercial refrigerator and microwave is available to all guests. Shared commercial laundry equipment is available for resident use as well. In addition, there is a fully equipped work-out facility open 24-hours.

LODGING - SINGLE OCCUPANCY DAILY RATE

- *Governmental/Municipal (In-state) \$15.00
- Recruit Class (14+ weeks) Attendees \$10.00
- *Private Business/Industry/Out-of-State \$25.00
- *Full payment is required at check-in by check or credit card.
- *A 24 hour notice is required for any lodging cancellations in order to receive a refund, please contact Kara Ouellette at 860-264-9231

Guest check-in times are:

- Weekdays anytime before 4:00 p.m. or after 6:00 p.m.
- Weekends as noted upon confirmation of your reservation.

NEW ENGLAND
• DISASTER TRAINING CENTER •

The NEDTC is a joint collaboration bringing the states top training and response agencies together using state of the art facilities and equipment to provide challenging rescue scenarios for both the basic and advanced disaster response personnel.

Located at Camp Hartell, in Windsor Locks, Connecticut, the NEDTC will offer disaster medical response training, with the ability to work from a mobile field hospital, and search and rescue training on a rubble pile. Advanced trench and train derailment training props will be used to help response personnel meet national standards.

Additional information about the NEDTC can be found at www.nedtc.us

Increasingly, students and instructors are bringing laptop computers to the Connecticut Fire Academy (CFA) especially for officer and instructor classes. The Commission on Fire Prevention and Control (CFPC) offers limited wireless hotspot access to the Internet in some areas of the CFA. This public service is currently available in the following locations: dorm rooms, auditorium, multipurpose room, and the classroom wing.

Users alone are responsible for security and maintenance of your equipment. The Academy cannot provide you with computer software, hardware, or technical support to include disks, printers, scanners, etc. CFPC/CFA staff is not permitted to support user connectivity issues or user computer issues of any type.

CFA MARKETING PRIVACY ADVISORY

By participating in Connecticut Fire Academy classes and activities (i.e. CPAT, Face piece fit testing, pump operator) you are automatically giving permission for the use of your picture, video recording and/or audio recording to be used in marketing or future training by the Commission on Fire Prevention and Control/Connecticut Fire Academy.

As the State of Connecticut is a nonprofit organization, you will not receive any monetary compensation now or in the future. The State of Connecticut, Commission on Fire Prevention and Control/Connecticut Fire Academy has the right to use these pictures, video and/or audio recordings of the presentations in any form of, publication, marketing, and broadcast media (video, print or electronic) and any other activity that supports a qualified, diverse, inclusive and safety-conscious Fire/EMS workforce.
