

Injury Management

The following “Checklist” is to be considered as a “Guide” to obtain the desired methods of handling an injury during Connecticut Fire Academy training. It is not intended to limit or hamper the good judgment of the instructor(s).

- _____ 1. Take necessary measures to prevent further injury to the injured party and to all other personnel.**
- _____ 2. Render emergency medical treatment to the best of your ability and to the extent of your Emergency medical treatment training.**
- _____ 3. As soon as possible, ascertain extent and nature of injury/injuries and notify local Emergency Medical Services for treatment and transport.**
- _____ 4. Every effort should be made to have an instructor accompany the injured party to the E.M.S. treatment facility. It is desirable that the instructor assist the injured party and/or the injured party’s family to the best of his/her ability.**
- _____ 5. When the Instructor judges the situation to be “Serious” or “Critical”, he/she shall notify the Student’s family first followed by the Program Manager, the student’s Fire Chief and the Deputy Director and/or Director of Training.**
- _____ 6. Before leaving the E.M.S. facility, obtain a description or explanation of the injury/injuries for the injury report documentation.**
