## CONCEPT AND DESIGN

### Purpose

In 1999 and 2001 the fire service was devastated by two large loss of life events. Both extended the capabilities of the departments effected. Numerous Fire/Rescue agencies from across effected states and nation assisted in valiant efforts to control the events and maintain coverage response. It became abundantly clear from this disaster, and the ensuing relief effort, which followed, that greater coordination for inter-agency disaster management was required.

The purpose of this plan is to provide such coordination. It is based on a series of observed occurrences resulting from the shared experiences during these events. It is also an evolution of our past experiences in dealing with the day-to-day incidents that continually challenge our resources and competencies. Most importantly, it is a practical approach in providing a useful guide to assist the fire service in managing the types of devastation that our region is susceptible to.

The Connecticut Fire Service created the Statewide Emergency Response Plan to provide for the systematic mobilization, deployment, organization, and management of Fire-Rescue resources throughout the State, and the Nation, in *assisting* local agencies in remediation of the effects of a disaster. The local Fire-Rescue agency is the first tier of defense in responding to the ravages of a disaster. The primary function of Fire-Rescue personnel in the wake of a disaster is to conduct search and rescue activities, treat the injured found, and transport them to the closest available medical facility. No community has the resources sufficient to cope with all emergencies.

The effective management of emergency response personnel during the incipient stage of any major disaster and throughout its extended operations, will, by far, have the most significant impact on life loss and the severity of injuries to the affected population. The Statewide Emergency Response Plan lends itself to the rapid activation and response of aid to a community in the event of a localized disaster. These events include train derailments, hazardous materials incidents, wildland fires, domestic terrorism and other events that may overwhelm the department serving the community and its normal mutual aid resources.

### Key Concepts of the Plan

The Plan is directed towards enhancing disaster management at the local, County, and state level of government by:

1. Utilizing the Incident Management System as a model to manage actions during a disaster.
2. Providing central coordination for Fire-Rescue resource response through Regional Management Teams, via Emergency Support Functions for firefighting and search and rescue (ESF 4 and 9) at the State EOC.
3. Providing resources for pre hospital EMS in coordination with ESF 8.
4. Pre-designating responsibilities for leadership and resources at the local, County, regional and state levels.
5. Integrating Fire-Rescue into the planning and response phases of Emergency Management systems at the regional and state level.

6. Encouraging each agency to sign the Statewide Mutual Aid Agreement for Catastrophic Disaster Response and Recovery, which supports all Fire-Rescue agencies responding in support of this Plan.

### **Connecticut Fire Service**

The coordination of the Statewide Emergency Response Plan, including its development, revision, distribution, training and implementation is the responsibility of the Connecticut Fire Service. The Fire-Rescue Disaster Response Committee will oversee this process. The committee will be composed of the following:

- Fire-Rescue Disaster Coordinator (Chair)
- Fire-Rescue Disaster Committee (Vice-Chair)
- Regional Coordinators, one representative from each Region, totaling five
- Commission on Fire Prevention and Control, one representative
- Office of Emergency Medical Services or (OEMS until the commission is established), one representative
- Office of Emergency Management, one representative
- Division of Forestry, one representative
- State Fire Marshal, one representative

The State Fire Administrator or Committee Chair can add to this membership as deemed necessary for the success of the Plan.

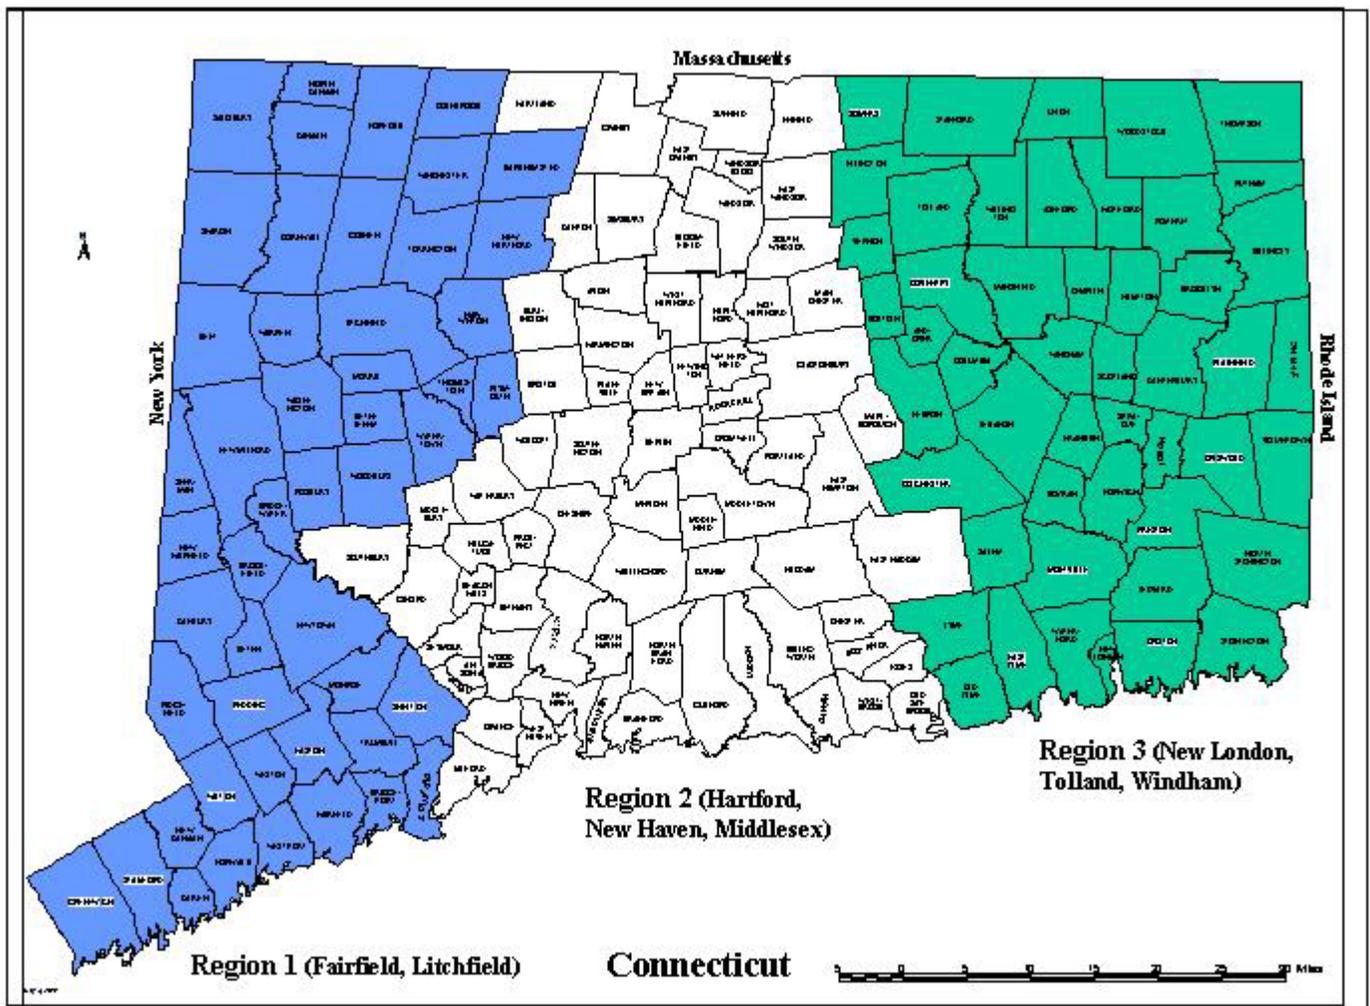

### **Plan Revision Process**

- September: The Disaster Response Committee members are requested by the Fire-Rescue Disaster Coordinator to solicit their respective areas, for recommended revisions to the Plan. These individuals will provide written comments to the Chair by the September.
- October: The Fire-Rescue Disaster Response Committee summarizes the recommended revisions to the Plan. The Full Committee provides preliminary direction as to the scope of the proposed changes and sends it back to the Disaster Response Committee for final draft.
- January: The Disaster Response Committee provides a final draft of the Revised Disaster Response Plan to State fire Administrator for reproduction and distribution.
- April: The Revised Plan will be distributed to all of the Regional Coordinators and members of the Response Team and revisions will be included in the annual plan training. The updated plan will be posted on the Plan's Web page.

## Regional Representation

The Connecticut Fire Service divided the state into three regional response areas. The Regions are designated Region 1 through 3 and they contain the following counties; Region 1 Litchfield & Fairfield, Region 2 Hartford, Middlesex & New Haven, Region 3 New London, Tolland & Windham. Within each region, the Regional Coordinator will appoint a management team. The Regional Coordinator will lead the Regional Management Team and appoint at least one alternate for each position. Representatives should be geographically separate in the region, minimizing the possibility of both persons being directly affected in the event of a disaster striking that region.

Each regional management team is responsible for tracking all available resources within the region. The Plan has incorporated standardized forms for ordering resources into the affected areas. Activity logs and chronological logs that are in compliance with State and federal guidelines are available to participating agencies. Current standardized fee schedules for the use of apparatus and equipment, allowable replacement costs will be provided to the participating agency when reimbursements are requested on declared disasters. It will be the responsibility of the participating agency to submit reimbursement forms to the appropriate Local, State or Federal agency. The three Regions are designated on the following map.

## **Organizational Structure and Responsibilities**

The organizational structure within each region utilizes the designated roles of the Model Incident Management System (IMS). The management team appointed by the Regional Coordinator shall assume the functional responsibilities, outlined on the following page. These include Operations, Planning, Logistics, Finance/Administration, and EMS Liaison. County Coordinators must be appointed for each County as a vital logistical link from the area. Alternates for each position should be appointed in the event that the primary person is not available during a disaster. The above appointments should be geographically separate from each other in the Region. The individual departments shall then muster resources for the Region in support of the Plan. The three Regions, combined, comprise the Statewide Fire-Rescue resource network, which ultimately will receive its direction during a disaster from the State Fire-Rescue Disaster Coordinator. The State Coordinator or his designee will staff ESF 4 & 9 in the State EOC, with the State Fire Administrator, coordinating resource response into the affected Region.

The Commission on Fire Prevention & Control manages the ESF 4 and 9 functions, at the State level. An IMS structure, with pre-designated positions, will be established in the SEOC in Hartford. Support staff will consist of members of the Commission on Fire Prevention & Control office and members of the CFS. The CFS coordinates resource requests, serving as the Logistics function for statewide Fire-Rescue resources. The CFS also serves as an advisor to OEM and the Commission on Fire Prevention & Control's office on general emergency management issues.

### **Key Positions in the Plan**

State Fire-Rescue Disaster Coordinator: Responsible for staffing ESF 4 and 9 in the State EOC and responsible for the oversight and implementation of the Plan and direction of the Disaster Response Committee. Disaster Coordinator shall appoint a Vice Chair of the Disaster Committee and alternate(s) as needed.

Regional Fire-Rescue Disaster Coordinators: Will coordinate disaster assistance operations at the Regional level and provide resources into the affected area(s). Appoints County Coordinators annually for each County within their region. Designates members and alternates to the Regional Management Team. There are a total of three coordinators, one per region, with at least one alternate per region appointed.

County Fire-Rescue Coordinator: One per County. County fire chief associations, or like groups, may be contacted for a name to be submitted to the Regional Coordinator for appointment. This position liaisons between the Emergency Manager of each County and the Regional and State Coordinators for the Plan. This person shall coordinate assistance among Fire-Rescue agencies in that County and will be the primary contact for the regional logistics officer for resources. One alternate should be chosen for this position.

Operations, Planning, Logistics, Finance/Administration, PIO, and Liaison: These positions should be filled from within the Region to support the activation and implementation of the Plan. It is stressed that these positions are in support of the Resources to the Region, and not to assume Command and Control of the Incident. However, upon the request of the agency having jurisdiction for the incident, separate overhead IMS teams may be activated for Command and Control operations.

Regional EMS Liaison: Regional Coordinator shall appoint One (1) for each Region. This position shall represent fire and non-fire based EMS resources. This position will assist in coordinating the efforts with ESF 8.

A checklist for each key position with their role and responsibilities are identified in Appendix A.

### **Training Competencies**

Each of the personnel appointed to a designated role within this Plan should be encouraged to complete the following phases of training, when available. These include:

Incident Management System training through Connecticut Fire Academy (CFA), National Fire Academy (NFA) or I-200 offered through the Division of Forestry

State Fire-Rescue Plan Training offered through CFA or conducted at the Regional level, coordinated through the State Disaster Committee

Positional Training and Certification coordinated through the Division of Forestry within each Region (I-200, basic IMS, is a pre-requisite)

Integrated Emergency Management System available through OEM, FEMA and IAFC, offered on a rotating basis, nationwide

## **STATE OF CONNECTICUT EMERGENCY MANAGEMENT**

**Sec. 28-7. Local and joint organizations.** (a) Each town or city of the state shall establish a local organization for civil preparedness in accordance with the state civil preparedness plan and program, provided any two or more towns or cities may, with the approval of the director, establish a joint organization for civil preparedness. The authority of such local or joint organization for civil preparedness shall not supersede that of any regularly organized police or fire department. No town or city of the state shall be eligible for any state or federal benefits under this chapter until such town or city has submitted to the state director of emergency management an emergency plan of operations approved by the local director of civil preparedness and the local chief executive which is subsequently approved by said state director.

(b) Each local organization for civil preparedness shall consist of an advisory council and a director appointed by the chief executive officer. The advisory council shall contain representatives of city or town agencies concerned with civil preparedness and representatives of interests, including business, labor, agriculture, veterans, women's groups and others, which are important to the civil preparedness program in the particular community. The director shall be responsible for the organization, administration and operation of such local organization, subject to the direction and control of the state director. The chief executive officer may remove any local director for cause.

(c) Each local or joint organization shall perform such civil preparedness functions in the territorial limits within which it is organized as the state director prescribes. In addition, such local or joint organization shall conduct such functions outside such territorial limits as are prescribed by the state civil preparedness plan and program or by the terms of any mutual aid agreements to which the town is a party.

(d) The director of each local or joint organization may, with the approval of the state director, collaborate with other public and private agencies within the state and develop or cause to be developed mutual aid agreements for civil preparedness aid and assistance in case of disaster too great to be dealt with unassisted. The director of such joint or local organization may, with the approval of the state director, enter into such mutual aid

agreements with civil preparedness agencies or organizations in other states. Such agreements shall be consistent with the state civil preparedness plan and program and, in time of emergency, each local or joint organization shall render assistance in accordance with the provisions of such agreements to which it is a party unless otherwise ordered by the state director.

(e) Each town or city shall have the power to make appropriations for the payment of salaries and expenses of its local or joint organization or any other civil preparedness agencies or instrumentalities.

(f) In the event of a serious disaster or of a sudden emergency, when such action is deemed necessary for the protection of the health and safety of the people, and upon request of the local chief executive authority, the Governor or the state director, without regard to the provisions of section 22a-148, may authorize the temporary use of such civil preparedness forces, including civil preparedness auxiliary police and firemen, as he deems necessary. Personnel of such civil preparedness forces shall be so employed only with their consent. The provisions of section 28-14 shall apply to personnel so employed.

(g) The state shall reimburse any town or city rendering aid under this section for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of employees of such town or city while rendering such aid, and for all payments for death, disability or injury of such employees in the course of rendering such aid and for all losses of or damage to supplies or equipment of such town or city incurred in the course of rendering such aid.

(h) Whenever, in the judgment of a local civil preparedness director, with prior approval of the state director of emergency management, it is deemed essential to authorize the temporary assignment, with their consent, of any members of civil preparedness forces who are not paid employees of the state or any political subdivision thereof, for a temporary civil preparedness mission, the provisions of section 28-14 shall apply. A complete written record of the conditions and dates of such assignment shall be maintained by the local director concerned and such record shall be available for examination by the state director of emergency management and the Attorney General. The state director shall establish the necessary procedures to administer this section.

**Sec. 28-6. Mutual aid or mobile support units.** (a) All civil preparedness units, forces, facilities, supplies and equipment in the state are deemed to be available for employment as mutual aid or mobile support. They may be ordered to duty by the Governor or state director only under the conditions defined in subsection (f) of section 28-7 or section 28-9, except that such civil preparedness units, forces, facilities, supplies and equipment may be employed in another state under the conditions specified in subsection (e) of this section.

(b) Personnel of such civil preparedness units or forces, while engaged in officially authorized civil preparedness duty, shall: (1) If they are employees of the state, have the powers, duties, rights, privileges and immunities and receive the compensation incident to their employment; (2) if they are employees of a political subdivision of the state, and whether serving within or without such political subdivision, have the powers, duties, rights, privileges and immunities and receive the compensation incident to their employment; and (3) if they are not employees of the state or a political subdivision thereof, be entitled to such compensation from the state as is determined by the Commissioner of Administrative

Services under the provisions of section 4-40 and to the same rights and immunities as are provided by law for the employees of this state, provided in no instance shall such compensation be determined at a rate less than the minimum wage as determined by the Labor Commissioner. All personnel of mobile support units shall, while on duty, be subject to the operational control of the authority in charge of civil preparedness activities in the area in which they are serving.

(c) The state shall reimburse a political subdivision for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of employees of the political subdivision while in training or on call by the Governor for emergency duty as members of a mobile support unit, and for all payments for death, disability or injury of such employees incurred in the course of such training or duty, and for all losses of or damage to supplies and equipment of such political subdivisions used by such mobile support units.

(d) Whenever the mobile support unit of another state renders aid pursuant to the orders of the Governor of its home state and upon the request of the Governor of this state, this state shall reimburse such other state for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of the personnel of such mobile support units incurred in rendering such aid, and for all payments for death, disability or injury of such personnel incurred in rendering such aid, and for all losses of or damage to supplies and equipment of such other state or a political subdivision thereof resulting from rendering such aid, provided the laws of such other state shall contain provisions substantially similar to those of this section.

(e) No personnel of mobile support units of this state shall be ordered by the Governor to operate in any other state unless the laws of such other state contain provisions substantially similar to those of this section.

**Sec. 4-58a. Mutual aid fire pacts between state institutions and municipalities.** (a) The superintendent of any state institution shall have the power to enter into agreements with any town, city, borough, fire district or other governmental subdivision having the duty to extinguish fires within its limits or any volunteer fire department respecting mutual fire protection, including, but not limited to, arrangements respecting use of fire fighting equipment and the services of such personnel of such institution who are members of an institutional fire brigade.

(b) Any employee of a state institution who is a member of its regular or volunteer fire department or institutional fire brigade who is injured or dies as a result of responding to, working at or returning from a fire outside of such institution, in accordance with an agreement entered into under subsection (a) with the municipality in which the fire occurred, shall be deemed to have been injured in the course of his employment and he and his estate shall be entitled to all the benefits of title 5 and chapter 568, provided the superintendent of such institution shall have authorized his service at such fire.

(c) The superintendent of any such institution may withhold the services of any member of the regular, volunteer or institutional fire brigade for fire fighting duty outside of such institution by reason of his assignment to regular or special duties at such institution.

**Sec. 7-323o. State Fire Administrator, appointment and duties.** There is established the position of State Fire Administrator who shall be appointed by the commission and who

shall: (1) Carry out the requirements of section 7-323n; (2) administer federal funds and grants allocated to the fire services of the state; (3) provide technical assistance and guidance to fire fighting forces of any state or municipal agency; (4) develop a centralized information and audiovisual library regarding fire prevention and control; (5) accumulate, disseminate and analyze fire prevention data; (6) recommend specifications of fire service materials and equipment and assist in the purchasing thereof; (7) assist in mutual aid coordination; (8) coordinate fire programs with those of the other states; (9) assist in communications coordination; (10) establish and maintain a fire service information program, and (11) review the purchase of fire apparatus or equipment at state institutions, facilities and properties and, on and after July 1, 1985, coordinate the training and education of fire service personnel at such institutions, facilities and properties. The provisions of this section shall not be construed to apply to forest fire prevention and control programs administered by the Commissioner of Environmental Protection pursuant to sections 23-33 to 23-57, inclusive.

**Sec. 7-310. Operation of fire equipment in and provision of personnel and assistance to other municipality.** Any city, town, borough, fire district, independent fire department or independent fire company may locate, use, man and operate fire stations, fire apparatus, ambulances, rescue trucks, radio and fire-alarm systems and other fire equipment and provide personnel and other assistance for the investigation of the cause and origin of fires, in any other city, town, borough or fire district, upon such terms respecting the location, use, management and operation as may be mutually agreed upon between the boards of fire commissioners or other persons having the management and control of the fire departments or fire companies. Any officer or member of a fire department or fire company while operating outside the jurisdictional limits of his fire department or fire company in accord with such an agreement shall have the same rights, privileges and immunities that are granted him when operating within the jurisdictional limits of his fire department or fire company.

**Sec. 28-8. Outside aid by local police, fire or other preparedness forces.** (a) At the request of the chief executive authority of any town or city, the appropriate authority of any other town or city may, with the approval of the state director, or, if so ordered by the state director, shall, assign and make available for duty and use outside his own town or city, under the direction and command of an officer designated for the purpose, any part of the police, fire fighting or other civil preparedness forces under his control.

(b) The officer and members of police, fire fighting or other civil preparedness forces rendering outside aid pursuant to this section shall have the same powers, duties, rights, privileges and immunities as if they were performing their duties in their home town or city.

(c) The state shall reimburse any town or city rendering aid under this section for the compensation paid and actual and necessary travel, subsistence and maintenance expenses of employees of such town or city while rendering such aid, and for all payments for death, disability or injury of such employees in the course of rendering such aid and for all losses of or damage to supplies or equipment of such town or city incurred in the course of rendering such aid.

### Emergency Support Functions

<b>ESF</b>	<b>FUNCTION</b>	<b>LEAD AGENCY</b>

### ACTIVATION OF THE PLAN

When a Fire Department is affected by a disaster situation locally, the Fire Chief will request additional assistance from area mutual aid agencies. When the department is

no longer able to obtain additional assistance from area departments, requests for additional assistance must be directed to the Regional Emergency Operations Center (EOC). When the Regional EOC has exhausted all local resources, a request for additional assistance will be made to the State Emergency Operations Center (SEOC). The request at the SEOC will be forwarded to ESF 4 and 9. The Statewide Emergency Response Plan will be activated when a request for additional assistance has been made to ESF 4 and 9 at the SEOC.

### **Request for Assistance (RFA)**

Each Fire Department that has signed the Statewide Mutual Aid Agreement has authorized three (3) individuals to sign on behalf of that agency when requesting or deploying resources. All requests for assistance will be processed through the State EOC utilizing the “Request for Assistance Form” (CFS Form 1a). The requesting agency will complete the top portion of the form, assuring that a detailed explanation of the mission to which those resources will be assigned is included. The requestor then utilizes the remainder of the form to identify exactly what and how many of each resource type will be needed. The form utilizes the accepted resource typing methodology included within this plan. That request will then be forwarded to the SEOC for processing, through ESF 4 and 9, who will fill the request utilizing this plan. Once a Region has committed to filling a request, the responding agency is to complete the “Response to Request for Assistance Form” (CFS Form 1b). Care should be taken to assure the proper type of resource and number being committed is completed, for each resource being deployed by the assisting agency. In addition, an hourly estimate of costs for the committed resources and estimated transportation costs to and from home base must be included on this form. That form, along with the Crew Deployment Form for that mission are to be returned to the SEOC, ESF 4 and 9 desk.

### **Resource Inventory**

Each region will maintain an updated inventory of its equipment, vehicles and personnel which are available for response within the scope of the Plan. The participating agencies will review the resource inventory section for completion and submit to their County Coordinator, who will gather the resource sheets and pass them on to the Regional Coordinator. County Coordinators may utilize any resources available to them that sign on to participate in the plan, this includes Fire Brigades or Haz Mat as examples. It is clearly understood, as is the standard practice with all mutual aid agreements, that all equipment, vehicles, and personnel listed will be provided within the Plan only if available at the time of the request. When a request for assistance is received, the County Coordinator will call each participating department to request their available resources for deployment. The County Coordinator will utilize the resource inventory as a guide to track and request available resources. The Connecticut Fire Service developed a method of typing resources which is consistent with resource typing used by the Division of Forestry and is indicated in Appendix B along with completed examples.

The available resources are to be updated annually in accordance with the following guidelines utilizing the “Resource Inventory Forms” (CFS Form 2).

### **Directions**

1. Only include resources that are available for response to a disaster elsewhere, without reducing your own capabilities to an unacceptable level.
2. The Types refer to minimum requirements. If all requirements are not met for a Type 1, but are for a Type 2, then list it accurately as a Type 2 (Example: 1250 GPM pumper with 500 gallons of water, meeting all other Type 1 requirements, but will be listed as a Type 2 because it has less than 750 gallons of water).
3. Use the special information area on the inventory list for resources that need clarification for unusual attributes (Example: personnel that are bi-lingual or sign for the deaf).

Use a separate list, if necessary, for additional resources not typed on these resource lists. Be specific in describing features or qualifications.

## **DEPLOYMENT OF RESOURCES**

### **Critical Concepts**

Critical to the success of this deployment plan are the three (3) concepts of: efficient timeframe for deployment, the ability to pre-stage resources in advance of a pending disaster and pre-identified Strike Teams and Task Forces within each region. In concert with these concepts, it is critical that all resources deployed are adequately documented and tracked from within each sponsoring Region. In addition, it is imperative that our personnel arrive on scene of a disaster with complete, appropriate PPE. The minimum personal protective equipment (PPE) for all out of jurisdiction assignments through the CFS Disaster Response Plan shall be full structural PPE, as specified in NFPA Standards. In addition, it is highly recommended that for deployments including wildfire assignments, wildland PPE as specified in NFPA standards be carried as well.

- Time Frame for Deployment: Unless specified otherwise at the time of request, the standard for deployment of Fire-Rescue resources shall be within three (3) hours of the mission assignment from the State EOC. Under certain circumstances a more rapid deployment may be deemed necessary by the SEOC and authorized as a “Rapid Activation”. Time frame for deployment of these missions shall be within one (1) hour of the mission assignment from SEOC. It is anticipated that the pre-identified Strike Teams will fill these resource requests.
- Pre-identified Strike Teams: each Region is encouraged to pre-identify Strike Teams, made up of five (5) like resources, and/or Task Forces, made up of five (5) mixed resources. Each Strike Team and/or Task Force is to have a designated, trained Team Leader and common radio communications. The primary mission of the Strike Teams and/or task Forces will be response into areas affected by a disaster, to work within the Command Structure within that affected area. The most common use of these pre-identified teams will be for incidents requiring a rapid response, particularly those designated “Rapid Activation”. It is anticipated that “Rapid Activations” will peak quickly and terminate within a shorter time frame, thereby allowing for a shorter preparation time. To accomplish the rapid deployment all of the required deployment documentation should be compiled and maintained by the Regional Coordinator in advance.
- Pre-Staged Resources: Based on the forecast of an imminent disaster, it may be

necessary to stage resources in advance, to better position them geographically for a timely response into an affected area. That decision will be made with the concurrence of the SEOC, the ESF 4 and 9 representative and the sponsoring Regional Coordinator. Once that mission has been tasked, the resources shall be prepared for deployment and sent to the identified staging area. The staging area designated must be under the direct supervision of a Staging Area Manager, provide the necessary logistical support to accommodate the deployed resources for a prolonged time period and provide a high degree of safety and security for all deployed resources. Once deployed to a staging area, all resources shall be considered in “active mission” status. Staged resources will only be released into an affected area, after confirming mission orders have been issued from the SEOC, ESF 4 and 9 representative.

## **Resource Definitions**

To provide standardization in deployment, specific terminology has been chosen:

Strike Team: Five (5) like units, e.g. Type 1 Engines, with common communications and an assigned Strike Team Leader. The Leader should be in a separate vehicle for mobility and will meet with the Team at a staging area or other designated location and coordinate their response to, and efforts during, the incident.

Task Force: Five (5) units, which need not be identical, e.g. three (3) Type 1 Engines and two (2) Aerials, with common communications and an assigned Task Force Leader. The leader should be in a separate vehicle for mobility and will meet with the team at a staging area or other designated location and coordinate their response to, and efforts during, the incident.

Single Resource: Individual engines, equipment, personnel that may be requested to support the incident. A single resource will be the equipment, plus the individuals required to properly utilize it.

Company Staffing: Individual personnel that make up a company for staffing purposes is designated in Appendix B (Personnel & Miscellaneous Equipment).

The advantage of the regional configuration in the Statewide Emergency Response Plan is to provide effective mobilization and deployment of Fire-Rescue resources in order to provide rapid assistance to areas affected by a disaster. Regions have been configured to mirror the State Office of Emergency Management regional areas which provides for closer coordination with OEM and enables travel by Fire-Rescue resources within any Region to be accomplished in an efficient manner.

## **Specialty Positions**

1. During a disaster there are often requests for specialty positions to fill specific needs. For the most part these will be activated and deployed as a typical single resource based on their availability as determined by the County Coordinator. Several key positions have their own disaster response deployment plans and organizational structure. The Connecticut Fire Chiefs Association's Disaster Response Plan is designed to utilize their system while still maintaining the integrity of the plan concept. Examples of these types of positions include public information officers, dispatchers and specialized Search and Rescue resources.

2. The State Coordinator will then notify the appropriate Regional Coordinator that they have responsibility for coordinating requests for the specialty position.
3. When a request is received at the State Emergency Operations Center and a mission has been authorized, the State Coordinator will contact the Regional Coordinator for the specialty position and initiate the request.
4. The State Coordinator for the specialty position will identify the resource and the Regional Coordinator will then task the request through the County Coordinator to the local agency that will be providing the resource.
5. The State Coordinator for the specialty position will track the deployment and keep the Regional Coordinator up to date on the status of the mission and any future needs related to the assignment.

The purpose of this system is to keep the primary tasking through the system to the County Coordinators and the local agencies. This provides a common issuer of tasking numbers at the local level and will minimize confusion by agencies being tasked.

### **Documentation**

Once a Request For Assistance has been received by the State Emergency Operation Center, and a Region has agreed to fill that request, the Regional Coordinator must complete a "Disaster Team Deployment Form" (CFS Form 3) and an "Emergency Contact Form" (CFS Form 4) and fax them to ESF 4 and 9 at the SEOC.

The Crew Deployment Form shall contain the following information on each individual being prepared for deployment:

1. **Mission #** - to be issued by State E.O.C. Place next to the mission number the type of mission being filled. (Ex: ALS Strike Team)
2. **Date/Time Deployed** - to be updated as replacement crews are deployed.
3. **Message #** - original message number issued by the State E.O.C.
4. **Date/Time Demobilized** - to be updated as the mission is completed.
5. **Full Name** - as it would appear on payroll, social security, etc.
6. **Agency** - sponsoring department.
7. **Social Security Number** - as it appears on the individual's payroll records.
8. **Hourly Wage** - must indicate whether rate includes fringe. If it does not include fringe benefits, then the fringe benefit amount must be indicated in a percentage basis.
9. **Position** - to indicate position within strike team, task force or position filled resource request. (May also indicate fire service rank)
10. **Unit Designation** - apparatus number/designation individual is assigned to.

11. **Comments** - to provide additional information such as; fringe amount, special skills or when providing replacement personnel.

The Emergency Contact Form shall contain the name of a family member/friend and 24-hour contact number for each team member deployed.

### **Uniform Mission Tasking Numbers**

Each Regional Coordinator will assure that all personnel and all equipment deployed under this plan are accounted for prior to, during and upon returning from each mission. To assist in the accountability process, the State Emergency Operations Center will issue uniform mission tasking numbers to all equipment, apparatus and personnel that are sent into an affected area or sent into staging areas. These numbers will be formatted as follows:

(Year)      (Incident #)      (Assignment #)  
**CFS / 01 / 001 / TF001**

### **Mission Book**

When resources are deployed to an affected area, the Regional Coordinator shall assure that the Strike Team Leader, or individual if single resource, receives a Mission Book which includes the following items prior to leaving home base:

1. Copy of all ICS forms (multiple copies of ICS 214, Unit Log).
2. Emergency Contact Form.
3. Copy of all vehicle/apparatus registrations.
4. Copy of basic vehicle/apparatus inventory.

### **Mission Orders**

In addition, the Strike Team Leader, or individual if single resource, will receive mission orders. The Mission Orders will clearly identify:

1. The mission tasking number.
2. Contact name and telephone number of the staging location in affected area.
3. Directions to staging area (maps are always helpful).
4. Primary mission objective and any special instructions.
5. 24-hour contact numbers for regional coordinator/staff (to allow team leader the ability to submit daily situation reports and any necessary emergency communications).

Two copies of the Crew Deployment Form; one will remain in the possession of the Strike Team Leader, the other will be submitted to the affected area's representative upon reporting to the staging area.

- ***Left Blank for Pre-Hospital EMS Language***

## LOGISTICAL SUPPORT

### Self Contained

The logistical support of mutual aid resources is critical in the management of a disaster effort. It is believed a tiered resource response will be necessary. Initial units sent to a disaster should be self-contained for a period of 72 hours or able to return home each day, unless otherwise advised by the affected jurisdiction that logistical support has been established for the mutual aid forces. It is a fundamental assumption that this logistical support will be established as soon as possible and will be maintained by the agency requesting the resources. This shall include full structural fire PPE and wildland fire PPE, as appropriate.

The size of the response sent to the area, the severity of the disaster, the extent of the area involved, and the infrastructure that is still functional within the affected area, will ultimately determine the extent to which logistical support is required.

1. Transportation to and from the area:
  - Staging areas, within and outside, the disaster area
  - Overnight storage for vehicles
  - Maps and directions for responding personnel
  - Emergency towing and repairs
  - Designating fuel, oil, and water depots
2. Food supplies and preparation:
  - Self contained mobile food preparation units
  - Personnel to prepare/distribute meals
  - Sanitation and clean up
  - Food supplies/utensils
3. Overnight shelter and rehabilitation areas:
  - Provide suitable (secure) overnight shelter
  - Environmental considerations (rain, sun/heat, insects)
  - Bedding

- Transportation to and from shelter
- Parking and security of apparatus
- Electricity/generator power
- Water and sanitary facilities
- Communications links (in and out of the disaster area)

4. CISD considerations
5. Affected worker support/assistance

### **Communications**

The key to the successful operation of the various resources into a region will depend heavily upon the ability of these agencies to communicate effectively among them. It is realistic to assume that in the wake of a major disaster, such as a hurricane, the existing communication system in the affected area will be inoperable or severely compromised. Therefore, responding mutual aid forces must be able to communicate with each other, independent of the local communications network. In addition, common terminology for all voice transmissions must be utilized.

It is essential that a statewide disaster communications network be established. This is perhaps the highest priority in the effort to design an effective statewide disaster response plan. A Frequency Plan has been established and is listed in Appendix C. The Communication Network should include the following:

1. The designation of a Statewide Communications Network (within the Statewide Emergency Management Radio Network) using non-proprietary hardware.
2. The non-proprietary hardware must have a cost that most small fire agencies can afford to purchase.
3. The Network must meet the eligibility requirements of FCC part 90.
4. The Network must be consistent with the State of Connecticut EMS Communications Plan.
5. The Network should be consistent with the use of transportable communications caches available through State Emergency Management, regional, and local government agencies.
6. The CFS will maintain a current list of emergency contact telephone numbers and pager numbers of the Officers, Board of Directors, Disaster committee, State, Regional, and County Coordinators.
7. Computer access, regionally, with Internet connection.
8. Use of clear text during disaster for radio communication with all Fire Rescue resources.
9. Designate a Statewide Communications frequency within the Statewide Emergency Management Radio Network.

## Mutual Aid Communications Units

821 MHz. Common Channel Operation and Implementation:

As adopted by FCC Region 8 (New Haven, Middlesex, Litchfield and Fairfield ) and FCC Region 19 (Hartford, New London, Tolland and Windham) Counties have established rules for the use of these National Calling and Tactical channels. These are to be used for response under the guidelines of this Plan and for coordination between different levels and types of services. The following assignments are designated by CFCA Technical Advisory Fire Frequency Plan:

Region 1	Fairfield:	Group 4 - 1
Region 1	Litchfield:	Group 2 - 3
Region 2	Hartford:	Group 4 - 1
Region 2	New Haven:	Group 3 - 2
Region 2	Middlesex:	Group 1 - 4
Region 3	New London:	Group 2 - 3
Region 3	Tolland:	Group 3 - 2
Region 3	Windham:	Group 1 - 4

### Regional Communications Personnel:

Each regional shall assure that it maintains communications personnel, which are capable of maintaining, operating and troubleshooting their assigned communication responsibilities. At a minimum, each region shall assure the availability of a communications technician and/or a communications unit leader. Detailed position descriptions can be found in the Appendix section of this plan.

- Communications Technician: Personnel serving in this capacity shall be responsible for the effective operations, troubleshooting and programming of radio equipment. This position shall provide technical advice to the requesting agency and/or the Communications Unit Leader.
- Communications Unit Leader: Personnel serving in this capacity shall be responsible for developing plans for the effective and efficient use of any statewide radio system or equipment, distribution of the radio equipment, inventory of communications equipment and the maintenance of same. When deployed, this position will report to the incident Command structure in place within the requesting agency.

## REIMBURSEMENT PROCEDURES

### Financial Assistance

When a major or catastrophic emergency exceeds local resources and area departments are unable to fulfill the needs of the citizens, then aid and assistance may be requested from the state of Connecticut. Such financial assistance is made available on a supplemental basis through a process of application and review. If community resources are insufficient, the local government may apply to the state for state assistance. The governor reviews the application, studies the damage estimates and, if appropriate, declares the area a state disaster. This official declaration makes state funds, personnel, and resources available.

However, if damages are so extensive that the combined local and state resources are not sufficient, the governor applies to the President for federal disaster assistance. A similar assessment of the application and damage estimates is completed. If the need for federal assistance is justified, the President issues a major declaration and resources are made available. This official declaration makes federal funds, personnel, and resources available. Federal funding is usually on a shared cost basis with 75% federal funds and 25% state funds.

### **FEMA Reimbursement**

This section serves as a reference for information on disaster cost recovery to assist individuals in documenting disaster-related expenditures following a Presidential and/or State Declaration to facilitate reimbursement from the federal government, the state of Connecticut and the County's private insurance carriers. This section may appear tedious and burdensome, but it reflects FEMA's requirements and emphasizes the need for close compliance. If the department fails to be comprehensive, detailed, and accurate in the type and extent of documentation, portions of the claim and possibly the entire claim will be disallowed, and the department will be required to absorb these costs.

### **Reimbursement Eligibility**

To meet eligibility requirements for FEMA reimbursement, an item of work must:

- Be required as the result of the major disaster event
- Be located within a designated disaster area
- Be the legal responsibility of the eligible applicant

### **FEMA Categories of Work**

FEMA provides reimbursement of funds based on the type of disaster-related work that was performed. Each activity for disaster-related work is eligible for a specific amount of reimbursement. Therefore it is imperative that all disaster-related work activities must be identified and documented as one of the following FEMA categories. Under the Statewide Emergency Response Plan, the work most often performed under this Plan is Emergency Work: Work performed immediately to save lives and protect improved property and public health and safety, or to avert or lessen the threat of a major disaster. Emergency Work contains two categories: Debris Clearance and/or Protective Measures.

### **Disaster-Related Expenditures**

FEMA will provide reimbursement of expenditures to perform emergency protective measures in disaster-related work. Reimbursements must be in accordance with Federal Financial Management Annex and 44 CFR, Part 206. Examples of eligible reimbursement activities include, but are not limited to:

1. Payroll expense for personnel operating at the incident
2. Hourly cost to operate capital equipment (fire engines, rescues, etc)
3. Expendable materials used at the incident
4. Equipment leased/purchased specifically for the incident
5. Contracted services made necessary by the disaster

### **Expenses for Personnel**

According to the federal regulations only actual hours worked, either overtime hours or regular time hours, can be claimed for FEMA category A & B (emergency work). If time and one-half or double time is paid to regular hourly employees for overtime or holiday work, these payments must be in accordance with rates established prior to the disaster (i.e. Collective Bargaining Agreement).

On occasion, FEMA approves reimbursement for an option known as “backfilling”. If approved, this option would allow the department to be reimbursed when personnel are called back to work to replace an existing employee already approved to perform disaster related activities elsewhere. Accurate payroll records must be maintained to clearly identify the employee’s overtime hours versus regular time hours. In addition, records must identify each employee by location and purpose of the work in order to designate the proper FEMA category and organize the claim. The records must also include the CFS Mission Tracking Number. It is imperative that each member of a deployed CFS resource is accounted for daily on an ICS 214, “Unit Log”. In cooperation with the Commission on Fire Prevention & Control, resources deployed under the CFS Disaster plan will be reimbursed only for actual hours worked while assisting the requesting agency, plus travel time to and from home base. The practice known as “portal-to-portal” pay is not endorsed by the Fire Chiefs' Association and will not be reimbursed as a routine part of CFS deployments.

### **Expenses for Equipment**

Each department may be eligible for reimbursement of equipment owned by the department used in disaster work. To assist in the reimbursement process, FEMA has developed an equipment rate schedule. The Finance Section Chief should obtain the most recent version of the FEMA equipment rate schedule prior to submitting for reimbursement. The current approved FEMA rate schedule, for use in cooperation with this plan is included within this section.

Each request for reimbursement of department owned equipment must contain the following information:

1. Mission Tracking Number as issued by CFS
2. Type and description of equipment
3. Location equipment was used
4. Number of hours used each day (show dates)
5. Total hours actually used (no standby time allowed)
6. Category of work performed

### **Approved FEMA Equipment Rates for CFS**

Listed below are the base rates most often used for resources deployed under the CFS plan. A more complete listing of customary CFS equipment rates can be found in Appendix E.

Equipment	Rate/hour	FEMA Cost Code
Fire Apparatus to 200 hp	\$24.50/hr	8690
Fire Apparatus to 300 hp	\$35.00/hr	8691
Fire Apparatus to 400 hp	\$45.00/hr	8692
Ambulance to 150 hp	\$13.75/hr	8040
Ambulance to 210 hp& up	\$21.00/hr	8041
Command Vehicle	\$8.50/hr	8072

\*\*Rates for other specialty vehicles may be found at [www.fema.gov](http://www.fema.gov).

### **Damage/Loss of Equipment**

Equipment that is damaged and/or lost during disaster incidents may be eligible for reimbursement. The damage and/or lost must be documented along with sufficient supportive documentation such as video and/or photographs. If the documentation is not comprehensive, detailed, and accurate, portions of the claim and possibly the entire claim

may be disallowed, and the department will be required to absorb these costs.

### **Reimbursement Processing**

Each department is responsible for preparing the necessary documentation and submitting a reimbursement claim for resources deployed under this Plan. The County Coordinator is responsible for collecting all documentation relative to the disaster incident from each department deployed. The County Coordinator will compile the documentation and identify eligible reimbursement in accordance with current FEMA guidelines.

The County Coordinator must coordinate the collection and documentation of all disaster-related forms and supportive documents for final review and possible submission to the Regional Coordinator. The FEMA reimbursement process is unique to each disaster and has led to processing reimbursement funds in a different manner, creating some degree of confusion and problems in reconciliation. Therefore coordination between the County and Regional Coordinator is paramount to ensure full and timely reimbursement.

## **CONNECTICUT FIRE SERVICE TRAVEL REIMBURSEMENT**

This section is intended to be a guide for the processing and submission of reimbursement requests for travel associated with the operation, support, or training for the Association's Statewide Disaster Response Plan. It is not intended to serve as a reimbursement procedure for expenses associated with the deployment of Fire-Rescue resources under this plan.

### **Travel Purpose**

The reimbursement process varies according to the purpose of the travel. Each purpose is subject to limitations, financial restrictions, and method of processing. The two purposes of allowable reimbursement are:

Section I Travel in support of the State EOC.

Section II Non-emergency travel associated with the CFS Disaster Response Plan.

### **Processing**

The need for proper and accurate documentation cannot be overemphasized. The processing of travel requests will vary dependent upon the purpose of the travel. Any questions that may arise in the processing of these forms should be directed to the CFCA Executive Director.

Section I and Section II travel is processed through the State Fire Administrator to the Office of Emergency Management in accordance with the CFS's Memorandum of Understanding with the State of Connecticut.

### **Section I: Reimbursement Process for State EOC**

Travel expenses, including per diem are eligible for reimbursement when an individual is operating as part of the CFS disaster response team assigned to the State EOC or filling an assignment in a support role, such as liaison officer, to ESF 4 and 9. Individuals will only be eligible for reimbursement if their activities are authorized, in response to a request for assistance through the State Disaster Response Network, and the necessary tasking number has been received. Individuals will only be reimbursed for actual travel expenses and will receive a per diem rate for meals as established by the State of Connecticut. Individuals operating under these<sub>22</sub> guidelines will be considered as part

of the state mutual aid program and will not be eligible for wages or overtime. Individuals traveling will be considered in the employment of their own respective agency. Any medical coverage or workers compensation claims will be processed through the individual's place of employment.

**A. Travel Reimbursement Form**

All requests for reimbursement must be submitted on the four-part, "State Voucher for Reimbursement of Travel Expenses Form". This form is available through the Division of State Fire Marshal. All completed forms will be processed through the State Fire Administrator's Support Staff to the Office of Emergency Management for reimbursement. Completed travel request vouchers should be submitted as soon as possible after the completion of your travel.

**B. Per Diem**

Individuals will be paid in accordance with the standard State of Connecticut per diem rate. Receipts are not required for this reimbursement. The following is the authorized reimbursement amounts for meal costs:

**C. Lodging**

Lodging costs are reimbursed on the basis of the actual costs for accommodations. Individuals are expected to stay in standard rooms and to request a government rate if available. An original receipt indicating payment in full and a zero balance must be submitted with your travel voucher to insure reimbursement.

**D. Transportation Costs Transportation Costs**

Individuals are expected to travel in personal or an agency-owned vehicle when operating in the disaster response plan. Airline transportation or automobile rental requires approval from the State fire Administrator or the Commission on Fire Prevention & Control Emergency Coordinating Officer. Personal vehicle reimbursement is on a per mile basis. Individuals using a personal vehicle will be reimbursed at the rate of \$0.32 per mile. Individuals using an agency owned vehicle will be reimbursed for the actual cost of the fuel. Original receipts for fuel purchases must be submitted with your travel voucher.

**E. Other Expenses**

Other expenses including tolls, parking fees, laundry charges, etc. are reimbursable if they are a direct result of your travel. Personal telephone calls, movie rentals or entertainment costs are not eligible for reimbursement. Original receipts must be submitted with your voucher for reimbursement.

**Section II: Non-emergency travel associated with the CFS Disaster Response Plan**

Travel expenses, including per diem, are eligible for reimbursement when an individual is required travel in conjunction with the CFS Disaster Response Plan. The Chair of the Disaster Committee will coordinate travel requests through the State Fire Administrator. Members of the Disaster Response Committee will coordinate their travel through the Chair of the Disaster Committee. Individuals will only be eligible for reimbursement if their activities are authorized and involve activities associated with the Disaster Response Plan. Individuals will only be reimbursed for actual travel expenses and will receive a per diem rate for meals as established by the CFS. The CFS will NOT be responsible for any wages or the replacement of personal leave time from the employing agency of the individual. Individuals traveling will be considered in the employment of their own respective agency. Any medical or worker compensation claims will be

processed through the individual's employing agency.

**A. Travel Reimbursement Form:**

All requests for reimbursement must be submitted on the "CFS Expense Report Form" (CFS Form 5). All completed forms are to be sent to the State Fire Administrator. Completed travel forms should be submitted as soon as possible after the completion of your travel.

**B. Per Diem:**

Individuals will be paid in accordance with the standard State of Connecticut per-diem rate. Receipts are not required for this reimbursement.

**C. Lodging**

Lodging costs are reimbursed on the basis of the actual costs for accommodations. Individuals are expected to stay in standard rooms and to request a government rate if available. An original receipt indicating payment in full and a zero balance must be submitted with your travel voucher to insure reimbursement.

**D. Transportation Costs**

Individuals are expected to travel in personal or agency owned vehicles when traveling in conjunction with the disaster response plan. Airline transportation or automobile rental requires prior approval from the State Fire Administrator. Personal vehicle reimbursement is done on a per mile basis. Individuals using a personal vehicle will be reimbursed at the standard State of Connecticut rate per mile. Individuals using an agency owned vehicle will be reimbursed for the actual cost of fuel. Original receipts for fuel purchases must be submitted with your travel voucher.

Other expenses, including, tolls, parking fees, laundry charges, etc. are reimbursable if they are a direct result of your travel. Personal telephone calls, movie rentals, or entertainment costs are not eligible for reimbursement. Original receipts must be submitted with your travel expense form for reimbursement.

## **ACKNOWLEDGEMENTS**

This document is the culmination of a desire to succeed and to improve in our mission to serve and protect the citizens of the state of Connecticut. Through the efforts and leadership of the Connecticut Fire Service and the Fire Rescue Disaster Response Committee, this document was possible. A special thanks goes to the members of the Disaster Response Task Force who brought the original concept forward from an idea to a reality.

### **ORIGINAL TASK FORCE MEMBERS**

Chief Edward Richards, Enfield FD, Past President  
Chief John Brady, North Madison FD, CFCA President  
Chief Thomas G. Weber, Manchester FRE, CFCA 1<sup>st</sup> Vice-President  
Chief Michael Varney, Ellington FD, CFCA 2<sup>nd</sup> Vice-President  
Chief William Dunn, Meriden FD  
Chief William Austin, West Hartford FD  
Chief Tim Wall, North Farms FD  
Chief Robert Ross, Middletown FD  
Fire Marshal Philip Visintainer, East Hampton  
Lieutenant Richard Warriner, Meriden FD  
Jeffery Morrisette, State Fire Administrator  
Chief Kerry Flaherty, Naugatuck FD

## PLAN IMPLEMENTATION

**Responsibility:** The implementation of this plan shall remain with the person or persons with incident management authority in the event of a disaster within that jurisdictional area.

**Actions:**

- \_\_\_\_\_ Adopt Statewide Fire-Rescue Disaster Response Plan and blend into current Incident Management System.
  
- \_\_\_\_\_ In the event of an emergency/disaster when mutual aid assistance has been exhausted, the local jurisdiction shall conduct a needs assessment for determining the type and amount of additional resources required.
  
- \_\_\_\_\_ The locally affected jurisdiction establishes contact with County Coordinator through the office of the Regional Emergency Manager.
  
- \_\_\_\_\_ Transmit to the County Coordinator what logistical support, equipment, and personnel are needed for the affected local jurisdiction.
  
- \_\_\_\_\_ The County Coordinator contacts the State Coordinator through the Regional Coordinator and Emergency Manager with the needs assessment for the affected jurisdictions within the County.
  
- \_\_\_\_\_ The State Coordinator contacts the Regional Coordinator to verify the resources available within the Region to respond to the affected County.
  
- \_\_\_\_\_ Regional Coordinator gathers resources within the Region, verifies their response through the County Coordinator into the affected jurisdictions and advises State Coordinator which resources (committed or sent) from within the region.
  
- \_\_\_\_\_ Regional Coordinator contacts the State Coordinator when resource requests can not be filled from within the Region.
  
- \_\_\_\_\_ The State Coordinator gathers resources from the unaffected Regions and outside State assistance for response to the affected Counties/jurisdictions through the Regional Coordinator.
  
- \_\_\_\_\_ Regional Coordinators contact their County Coordinators to notify them of State activation and that resources may be requested.
  
- \_\_\_\_\_ The State Coordinator will establish an appropriate Fire Command/IMS structure in close proximity to the State EOC.

**STATE FIRE ADMINISTRATOR**

**Position Responsibilities:** Overall coordination and implementation of the Disaster Response Plan through the Disaster Coordinator.

**Actions:**

- \_\_\_\_\_ Annually appoints the Chair of the Association’s Disaster Committee who also serves as the Statewide Disaster Coordinator.
  
- \_\_\_\_\_ Notifies the State EOC Coordinator through the Commission on Fire Prevention & Control annually with the identity of the Statewide Disaster Coordinator.
  
- \_\_\_\_\_ Appoints other members to assist the Disaster Committee as deemed necessary.
  
- \_\_\_\_\_ Communicates with Statewide Disaster Coordinator on all matters affecting Statewide Disaster Planning.
  
- \_\_\_\_\_ Assists Statewide Disaster Coordinator with Plan implementation and management as necessary.
  
- \_\_\_\_\_ Contacts adjacent State Chiefs’ Associations, as necessary, to coordinate planning activities.
  
- \_\_\_\_\_ Liaison with IAFC for situation updates and assistance needs.
  
- \_\_\_\_\_ Attends critiques of the Plan.

**STATEWIDE DISASTER COORDINATOR**

**Position Responsibility:** Overall direction, coordination, implementation and management of the Statewide Disaster Response Plan.

**Actions:**

- \_\_\_\_\_ Appointed annually by the State Fire Administrator upon recommendation from the Statewide Disaster Response Committee of the Connecticut Fire Chiefs Association.
- \_\_\_\_\_ Serves as Chairman of the Disaster committee for the CFS.
- \_\_\_\_\_ Appoints a Vice Chair of the Disaster Committee.
- \_\_\_\_\_ Appoints Regional Coordinators for each of the three (3) disaster response regions
- \_\_\_\_\_ Maintains contact with all Regional Coordinators upon appointment.
- \_\_\_\_\_ Holds regular Disaster committee meetings. These meetings shall be conducted at least quarterly.
- \_\_\_\_\_ Represents the Disaster Committee to the Boards of Directors of CFS.
- \_\_\_\_\_ Makes reports to the full CFS on the Disaster Plan and the activities of the Disaster Committee, as needed.
- \_\_\_\_\_ Assists Regional Coordinators with assigning key staff members for the Plan, as well as County Coordinators. Personnel may be drawn from law enforcement, EMS, or other fields as deemed appropriate for the success of the Response Plan.
- \_\_\_\_\_ Insures Plan updating, training, funding and other administrative functions are on-going.
- \_\_\_\_\_ Coordinates Plan activation.
- \_\_\_\_\_ Serves as the Incident Commander for the Statewide Disaster Response Plan during Plan activation.
- \_\_\_\_\_ Serves as Fire Service representative/liaison in the State Emergency Operations Center to ESF 4 and 9.

**STATEWIDE DISASTER COORDINATOR (Continued)**

- \_\_\_\_\_ Assigns qualified personnel to work as Logistics Officers at ESF 4 and 9 in the State EOC in the event of activation.
  
- \_\_\_\_\_ Develops appropriate IMS support structure to implement the Plan. Such a support structure may be activated in cooperation with the Commission on Fire Prevention & Control's Office.
  
- \_\_\_\_\_ Serves as the liaison, during the disaster, to the affected Regional Coordinator in providing needed resources from other regions in the state.
  
- \_\_\_\_\_ Notifies Regional Coordinators of Plan activation and that resources may be required.
  
- \_\_\_\_\_ Coordinates and manages the Response Plan while implemented.
  
- \_\_\_\_\_ Assigns or is assigned a liaison in the disaster area.
  
- \_\_\_\_\_ Coordinates response requests from outside the disaster area or.
  
- \_\_\_\_\_ Coordinates demobilization of resources and deactivation of the Plan.
  
- \_\_\_\_\_ Critiques response with Disaster Committee and makes appropriate recommendations to the CFS for changes in the Plan.

**VICE-CHAIR DISASTER RESPONSE COMMITTEE**

**Position Responsibilities:** Assists the Disaster Coordinator in the overall direction, coordination, implementation and management of the Statewide Disaster response plan.

\_\_\_\_\_ Appointed annually by the Chairman of the Disaster Committee.

\_\_\_\_\_ Serves as chairman and disaster coordinator in the absence of the Statewide Disaster Coordinator.

\_\_\_\_\_ Responsible for coordinating all grants and training programs offered by the Disaster Committee.

\_\_\_\_\_ Serves as the Logistics Officer at the SEOC as necessary.

\_\_\_\_\_ Provides recommendations on revisions necessary to update the Disaster Plan.

\_\_\_\_\_ Liaisons with external associations and agencies on training opportunities.

**REGIONAL FIRE-RESCUE DISASTER COORDINATOR**

**Position Responsibility:** Command disaster assistance operations at the regional level.

**Actions:**

- \_\_\_\_\_ Appointed annually by the Chair of the Disaster Committee.
- \_\_\_\_\_ Identifies at least one (1) alternate for the Region.
- \_\_\_\_\_ Appoints Fire-Rescue personnel and other essential personnel within the region to serve as Operations, Plans, Logistics, Administration, EMS Liaison, Liaison, Public Information and their alternates as well as other positions deemed necessary to fill the Incident Management positions prior to or immediately after the disaster.
- \_\_\_\_\_ Serves as Incident Commander for the Fire-Rescue Response Plan in the affected Region. Uses the Statewide Coordinator as liaison for assistance outside of the Region.
- \_\_\_\_\_ Serves as member of the State Disaster Planning Committee.
- \_\_\_\_\_ Identifies County Disaster Coordinators.
- \_\_\_\_\_ Interacts with various Area Emergency Operations Centers in the Region.
- \_\_\_\_\_ Identifies mobilization staging areas for disaster assistance. Updates this information as needed.
- \_\_\_\_\_ Coordinates mutual aid assistance into the disaster area.
- \_\_\_\_\_ Pre-determines equipment, personnel, etc. that are available for response from within the region.
- \_\_\_\_\_ Communicates with the State Fire-Rescue Disaster Coordinator.
- \_\_\_\_\_ Responsible for training of staff, functional leaders, and alternates.
- \_\_\_\_\_ Maintains access to inventories of equipment, personnel, etc. in region.
- \_\_\_\_\_ Utilizes IMS as the management structure and establishes the components of it, as needed in support of the Region's activities.

**REGIONAL FIRE-RESCUE DISASTER COORDINATOR (Cont)**

- \_\_\_\_\_ Maintains an overhead team for assignment to the State EOC at ESF 4 and 9, Fire Marshals office or advance teams into affected areas.
  
- \_\_\_\_\_ Prepares (2) task forces available for rapid mobilization within 2 hours of a request.
  
- \_\_\_\_\_ May serve as a liaison between Unified Command agencies within their region during an activation.

**COUNTY FIRE-RESCUE COORDINATOR**

**Position Responsibility:** Serves as the liaison for the Regional Fire-Rescue Disaster Coordinator to the local emergency management authority.

**Actions:**

- \_\_\_\_\_ Appointed annually by the Regional Disaster Coordinator.
- \_\_\_\_\_ Serves as a liaison for the Statewide Disaster Response Plan within the local EOC.
- \_\_\_\_\_ Identifies a contact for each department in the County.
- \_\_\_\_\_ Identifies each department’s ability to provide assistance and what form that assistance will take; personnel, apparatus, etc.
- \_\_\_\_\_ Identifies resources for response; reports and updates this information to the Regional Logistics Officer.
- \_\_\_\_\_ Keeps records for rapid activation of personnel, equipment, etc. in the County.
- \_\_\_\_\_ Updates the Regional Logistics Officer and reports changes of equipment, personnel, etc.
- \_\_\_\_\_ Shall receive and/or assist the affected jurisdiction with their response needs assessment and transmits this through the Local Emergency Manager to the State Coordinator through the Regional Coordinator.
- \_\_\_\_\_ If the County Fire-Rescue Coordinator is in the affected area, the Coordinator becomes the requestor for assistance through the Regional Coordinator.
- \_\_\_\_\_ If the County Fire-Rescue Coordinator is in an unaffected area, resources are gathered as requested by the Regional coordinator.
- \_\_\_\_\_ Utilize IMS as the recognized management system and activate the components of it as needed.

## INFORMATION OFFICER

**Position Responsibility:** This is a specialty position deployed through the Plan using an established system developed by the Connecticut Fire Service. Their responsibility is to deploy as requested and work for the requesting agency as tasked to formulate and release information about the incident to news media, the Public, and other appropriate agencies in a timely and accurate manner as approved by the State EOC, Public Information. Represent the CFS in a professional manner.

**Actions:**

- \_\_\_\_\_ Appropriate Regional Coordinator shall contact the PIO Section Deployment Team Committee Chairperson to identify requested resources.
  
- \_\_\_\_\_ A roster of members for the PIO Deployment Team will be kept by the Deployment Team Chairperson.
  
- \_\_\_\_\_ The PIO Deployment Chairperson shall check in and establish communications with the State EOC, ESF 14, Public Information.
  
- \_\_\_\_\_ All Fire Service PIO resources will be coordinated through ESF 4 & 9 at the State EOC. Tasking numbers will be received from the Regional Coordinator and be confirmed to the local agency through the County Coordinator.
  
- \_\_\_\_\_ When deployed to an incident the PIO will serve at the direction of the local agency and assigned local incident commander.

**REGIONAL EMS LIAISON**

**Position Responsibility:** Contact, communicate, and coordinate with the EMS private providers and those not directly under the immediate authority of the local fire department within the Region in accordance with the Disaster Response Plan. The emergency medical services function is the responsibility of ESF 8 “Health and Medical.” The Connecticut Fire Service’s Disaster Response Plan is used as the method to mobilize and deploy pre-hospital EMS resources. The Regional EMS Liaison provides a link between the Regional Coordinators and the field for EMS resources, especially those that may not be associated with local fire departments.

**Actions:**

- \_\_\_\_\_ Appointed by the Regional Coordinator annually.
- \_\_\_\_\_ Check in and establish communications with the Regional Fire-Rescue Coordinator, and receive briefing and assignment.
- \_\_\_\_\_ Identify assisting EMS agencies/jurisdictional representatives and establish communications and link them into the resource availability process.
- \_\_\_\_\_ Provide a point of contact for assisting EMS agencies/jurisdictional representatives, in coordination with the Regional Coordinator and appropriate County Coordinator.
- \_\_\_\_\_ Identify available ALS and BLS units, the number and types of transport units, and personnel that are State certified paramedics or EMT’s, and report these numbers to the Regional Logistics Officer.
- \_\_\_\_\_ Respond to requests for EMS organizational contacts.
- \_\_\_\_\_ Monitor emergency situation and involvement of each EMS agency/jurisdiction.
- \_\_\_\_\_ Monitor incident operations to identify and resolve EMS related inter-organizational coordination problems.
- \_\_\_\_\_ Demobilize at the request of the Regional Coordinator and forward pertinent incident documentation.

**REGIONAL OPERATIONS SECTION OFFICER**

**Position Responsibilities:** Management and coordination of all resource deployment from the Region consistent with the Disaster Response Plan. This position is staffed at the determination of the Regional Coordinator.

**Actions:**

- \_\_\_\_\_ Activate and brief Operations Section branches, groups, and/or divisions, as necessary, to support the mission request.
- \_\_\_\_\_ Participate in the preparation of an incident action plan for resource deployment, after consultation with Operations staff.
- \_\_\_\_\_ Execute the incident action plan.
- \_\_\_\_\_ Contact, assemble and brief all branch, group, and division supervisors.
- \_\_\_\_\_ Implement pre-staging areas as necessary.
- \_\_\_\_\_ Determine on going needs, request additional resources as necessary, and resolve problems reported by subordinates.
- \_\_\_\_\_ Update Regional Fire-Rescue Coordinator, as needed.
- \_\_\_\_\_ Maintain log, including operational times, significant events, names of section personnel, etc.
- \_\_\_\_\_ Brief personnel as to current status of emergency operations and incident action plan objectives prior to deployment and relief.
- \_\_\_\_\_ Implement demobilization of Regional Operations Section, forward all logs and pertinent data for incident documentation.

**REGIONAL PLANNING SECTION OFFICER**

**Position Responsibility:** Collect, evaluate and disseminate information about the incident situation and status of resources, prepare strategies for the regional incident action plan, and manage the planning section unit(s). This position is activated at the determination of the Regional Fire-Rescue Coordinator.

**Emergency Actions:**

- \_\_\_\_\_ Check in and obtain briefing from the Regional Fire-Rescue Coordinator.
- \_\_\_\_\_ Organize, activate, brief, and manage planning section units (Situation, Resource, Documentation, Demobilization) as necessary.
- \_\_\_\_\_ Screen incoming damage and casualty information and see that pertinent data is posted to status boards, maps or similar records.
- \_\_\_\_\_ Utilize ICS forms 202-206, 221 as necessary.
- \_\_\_\_\_ Gather complete intelligence regarding the incident situation and status of resources.
- \_\_\_\_\_ Evaluate preliminary disaster information. Determine the extent of damage and estimate the extent of records required to support the emergency operations.
- \_\_\_\_\_ Schedule and facilitate planning meetings with Regional Fire-Rescue Coordinator and staff.
- \_\_\_\_\_ Maintain status of all emergency response resources.
- \_\_\_\_\_ Compile and display incident and resource status summary information.
- \_\_\_\_\_ Assist in preparation of the regional incident action plan for operational periods.
- \_\_\_\_\_ Assemble information on alternative strategies and make recommendations for the plan to the Regional Fire-Rescue Coordinator.
- \_\_\_\_\_ Prepare and distribute regional incident action plan.
- \_\_\_\_\_ Prepare demobilization plan and distribute as necessary.
- \_\_\_\_\_ Brief relief personnel as to plan section/incident status.
- \_\_\_\_\_ Maintain a unit log, including operational times, significant events, names of personnel, etc.
- \_\_\_\_\_ Insure documentation is complete for this section and entire incident.

**REGIONAL LOGISTICS SECTION OFFICER**

**Position Responsibility:** Manage resources, which provide for personnel, equipment, facilities, Services, transportation and material in support of the disaster activities. This position is activated at the determination of the Regional Fire-Rescue Coordinator.

**Emergency Actions:**

- \_\_\_\_\_ Organize, activate, brief and manage Logistic Section branches/personnel (County Coordinator, Support Branch, Services Branch, Other), as necessary.
  
- \_\_\_\_\_ Participate in the preparation of the regional incident action plan.
  - Advise on current service and support capabilities.
  - Prepare service and support elements of the incident action plan.
  
- \_\_\_\_\_ Identify current and future services and support requirements for planned and expected operations.
  
- \_\_\_\_\_ Coordinate and process all requests for additional resources from the Section Chiefs (in conformity with priorities established within the incident action plan).
  
- \_\_\_\_\_ Utilize resources as established within the Statewide Fire-Rescue Disaster Response Plan through the Regional Coordinator or liaison.
  
- \_\_\_\_\_ Maintain a section log including operational times, significant events, contracts, names of personnel, etc.
  
- \_\_\_\_\_ Notify relief personnel of current emergency/logistics status.
  
- \_\_\_\_\_ Demobilize section in conformity with demobilization plan.
  
- \_\_\_\_\_ Forward all pertinent data, logs, reports, paperwork to Plans for incident documentation.

**REGIONAL FINANCE/ADMINISTRATIVE SECTION OFFICER**

**Position Responsibility:** Manages and coordinates the financial and administrative aspects of the incident. Supplies documentation for reimbursements. This position is activated at the determination of the Regional Coordinator.

**Emergency Actions:**

- \_\_\_\_\_ Organize, activate and brief administrative units (Time Recording, Legal, Cost Analysis, Compensation and Claims), as necessary.
  
- \_\_\_\_\_ Attend planning meetings to gather information and provide financial, cost, and administrative analysis.
  
- \_\_\_\_\_ Provide information to the County Coordinators on reimbursement issues associated with the event.
  
- \_\_\_\_\_ Obtain and record all financial data and prepare incident cost summaries, as necessary.
  
- \_\_\_\_\_ Maintain a unit log to include times, significant events, names of personnel, etc. that are assigned to administrative section.
  
- \_\_\_\_\_ Demobilize Administrative Section in accordance with plan approved by the Regional Fire-Rescue Coordinator.

**LIAISON OFFICER**

**Position Responsibilities:** Serves as a Liaison for the Statewide Disaster Coordinator to the Incident Command structure within an affected area.

- \_\_\_\_\_ Appointed by the Statewide Disaster Coordinator or Logistics Section Chief at the State EOC to respond to an impacted area.
- \_\_\_\_\_ Assesses the situation at the local emergency operations center and from input gathered from the Incident Commander, Emergency Manager, and Fire Chief.
- \_\_\_\_\_ Act as an intelligence source for ESF 4 & 9 and the Office of Emergency Management, reporting back to them on the status from ground zero.
- \_\_\_\_\_ Serve as a resource for the local jurisdiction, guiding them on the process to obtain resources through the Disaster Plan.
- \_\_\_\_\_ Function as a liaison in the re-deployment of units by advising the local jurisdiction of requests coming from other jurisdictions for resources and by advising the State EOC of the status/need for resources within the jurisdiction where they are currently deployed.
- \_\_\_\_\_ Verify that requested resources have, in fact, made it to the requesting jurisdiction and report to ESF 4 & 9 on their status as well as keeping the local jurisdiction advised as to the status of requested but not yet received resources.
- \_\_\_\_\_ Evaluate local support of mutual aid resources and determine if needs are being met. Work with requesting agency(s) to address resource support needs.
- \_\_\_\_\_ Assist in the demobilization process.
- \_\_\_\_\_ Log Plan weaknesses so revisions can be made and identify future training needs.
- \_\_\_\_\_ Assist with any questions that come up about the Plan or the reimbursement process.
- \_\_\_\_\_ Liaison between the local jurisdiction, Division of Forestry, and other agencies for Plan implementation.

**COMMUNICATIONS UNIT LEADER**

**Position Responsibilities:** Personnel serving in this capacity shall be responsible for developing plans for the effective and efficient use of deployed communication equipment, distribution of communications equipment, inventory of equipment and maintenance of the same.

- \_\_\_\_\_ When deployed, this position shall report to the Incident Management structure in place within the requesting agency/jurisdiction.
- \_\_\_\_\_ Prepare a regional communications plan to serve the communications needs of the requesting agency/jurisdiction.
  - Assess and advise on current communication service and support capabilities.
  - Prepare service and support elements of the communications plan.
- \_\_\_\_\_ Ensure the communication equipment is deployed, set-up, tested and functioning properly.
- \_\_\_\_\_ Coordinate and assure the distribution of portable/mobile radio equipment in conformity with priorities established within the Incident Communications Plan.
- \_\_\_\_\_ Assure an appropriate communications equipment accountability system is established and that all equipment is tested and inventoried upon return.
- \_\_\_\_\_ Assure repair, testing and programming communications equipment, as required.
- \_\_\_\_\_ Maintain a section log including operational times, significant events, contracts, unit actions and personnel names.
- \_\_\_\_\_ Demobilize in conformity with the Incident Demobilization Plan.
- \_\_\_\_\_ Forward all pertinent data, logs, reports and paperwork to Plans Section for proper incident documentation.

## COMMUNICATIONS TECHNICIAN

**Position Responsibilities:** Personnel serving in this capacity shall be responsible for the effective operations, troubleshooting and programming of radio equipment. In addition, this position may provide technical advice to the requesting agency and/or the Communications Unit Leader.

- \_\_\_\_\_ Assure communications equipment is deployed, set-up, tested and functioning properly.
- \_\_\_\_\_ Assure communications equipment is utilized to fulfill the critical elements of the established Incident Communications Plan.
- \_\_\_\_\_ Coordinate and assure the distribution of portable/mobile radio equipment in conformity with priorities established within the Incident Communications Plan.
- \_\_\_\_\_ Assure an appropriate communications equipment accountability system is established and that all equipment is tested and inventoried upon return.
- \_\_\_\_\_ Assure repair, testing and programming of communications equipment, as required.
- \_\_\_\_\_ Maintain a log of all repairs/service performed on equipment while deployed.
- \_\_\_\_\_ Provide for the transportation and security of equipment while deployed to, and returning from an affected agency/jurisdiction.
- \_\_\_\_\_ Demobilize in conformity with the Incident Demobilization Plan.
- \_\_\_\_\_ Forward all pertinent data, logs, reports and paperwork to Plans Section for proper incident documentation.
