Dear Recruit Student:

Welcome to the Connecticut Fire Academy. As one of the nation's premier fire educational institutions, the Connecticut Fire Academy strives to prepare individual students to be fully functional members of a team. The interdependence of team members results in effective emergency scene actions that are greater than the sum of the individual's results.

The fire service demands such synergy to produce a workforce that anticipates what will be required and moves to assemble the required tools and resources to accomplish the task at hand. Whether it is a rolled over hazardous materials tanker threatening the structural integrity of a limited access highway bridge, or simply a citizen requiring assistance out of a stalled elevator, firefighters are expected to provide the same level of engagement and passion to help.

We're proud of our campus and facilities here. It is a privilege that the tax paying citizens of Connecticut decided to construct such a fine statewide fire training facility. As such, it is our duty to be responsible for the care and control of the premises. This document provides you with the limitations of personal behavior and boundaries for deportment while you attend classes and reside here.

These rules and regulations will contribute to your personal safety and ensure that your conduct will fit within this profession's expectations. We are committed to providing you with the knowledge, skills and abilities necessary to put forth an equal effort at any emergency scene. Now you need to commit to being the most dependable member of your fire department, assigned company and community.

Good luck,

William M. Higgins Jr

II. DESPP - Equal Employment Opportunity and Affirmative Action Policies (adapted and condensed for the Connecticut Fire Academy, Recruit Firefighter Program)

Although through a much longer and storied history than is contained here, with the creation of the Connecticut State Police back in 1903, the six division Department of Emergency Services and Public Protection (DESPP) came about as a result of legislation that created DESPP on July 1, 2011.

In 2011, in an effort by the state to decrease the number of agencies and reduce costs, another transformation occurred. The then Department of Public Safety became the Department of Emergency Services and Public Protection (DESPP). DESPP is comprised of the following six divisions: Connecticut State Police (CSP); Scientific Services; Emergency Management & Homeland Security (DEMHS); Police Officers Standards and Training Council (POSTC); Division of Statewide Emergency Telecommunications (DSET); and the **Commission on Fire Prevention and Control / CT Fire Academy**.

The Connecticut Department of Emergency Services and Public Protection is committed to protecting and improving the quality of life for all by providing a broad range of public safety services, training, regulatory guidance and scientific services utilizing enforcement, prevention, education and state of the art science and technology.

In striving to accomplish our mission, we will embody our core values with great **PRIDE**:

Professionalism through an elite and diverse team of trained men and women.

Respect for ourselves and others through our words and actions.

Integrity through adherence to standards and values that merit public trust.

Dedication to our colleagues, our values, and to the service of others.

Equality through fair and unprejudiced application of the law.

In addition to understanding some of the history and the mission of the DESPP, all Fire Academy Recruits are also responsible for knowing and abiding by the relevant Department of Emergency Services and Public Protection Statements of Policies. These policies, *Equal Employment/Affirmative Action, Anti-Retaliation, Anti-Discrimination, Sexual Harassment, and Americans with Disabilities Act* are listed in the “Recruit Firefighter Program” section of the Commission on Fire Prevention and Control website, **and** posted in the Recruit Lounge on the second floor of the Fire Academy’s Administration Building. This comprehensive and detailed information in those locations is intended to ensure that we are collectively meeting the highest standards of training and performance while you are under our care, custody, and control.

Toward that end, please direct any questions, concerns, or comments regarding these policies to the Fire Academy Program Manager, or to any Recruit Firefighter Program Coordinator.

If you believe you are being sexually harassed by anyone with a recognized connection to CFA or is a witness of sexual harassment by any person in connection with his/her employment or participation with the CFA, you should bring the matter to the immediate attention of either CFA staff or to:
