

CONNECTICUT SITING COUNCIL

Docket/Petition No. 427

Town/City: East Haven

Date: August 28th, 2012

From:
Richard Moreland
8 Hilton Ave,
East Haven, CT

Question for: North Atlantic Towers, LLS / New Cingular Wireless PCS, LLC

1. Please provide details on the coverage expectations for the potential additional carriers that could locate on the proposed East Haven tower along with ATT and Verizon. How much of a reduction in coverage compared to ATT's coverage estimates can be expected due to topography as well as the increased interference from obstructions such as trees due to the lower location on the tower where the additional carriers would be located?

Thank you.
