SOURCE: This map depicts the location of zoning district boundaries in the Town of Greenwich Building Zone Regulations and is a reproduction of the Official Zoning Map maintained by the staff of the Town of Greenwich Planning and Zoning Commission. Dimensions of zoning district boundaries, some of which are noted on the Official Zoning Map, are not shown on this reproduction because of space limitations. This map was produced from the Town of Greenwich Geographic Information System (GIS). Property lines are based on the latest property line information available to the Information Technology and the GIS Coordinator. For the most up-to-date information on property lines users of the map should consult the records in the Planning and Zoning Commission office.
