RE: **DOCKET NO. 468** - The Connecticut Light & Power Company d/b/a Eversource Energy Certificate of Environmental Compatibility and Public Need for the Southwest Connecticut Reliability Project that traverses the municipalities of Bethel, Danbury, and Brookfield, which consists of (a) construction, maintenance and operation of a new 115-kV overhead electric transmission line entirely within existing Eversource right-of-way and associated facilities extending approximately 3.4 miles between Eversource's existing Plumtree Substation in the Town of Bethel to its existing Brookfield Junction in the Town of Brookfield; (b) reconfiguration of two existing 115-kV double-circuit electric transmission lines at Eversource's existing Stony Hill Substation in the Town of Brookfield; and (c) related substation modifications.

Dear Ms. Bellion:

Pursuant to Regulations of Connecticut State Agencies §16-50j-62 (b) and in response to your email of March 21, 2018, the Connecticut Siting Council (Council) staff hereby approves a change to the Development and Management (D&M) Plan for the above-referenced project to allow work at the Stony Hill Substation in Brookfield on Sunday, March 25, 2018 in order to install and test a new 115-kV cable servicing the new capacitor banks. All work will be performed from 8 AM to 5 PM. These additional work hours are necessary to keep the project on schedule as work crew time was lost due to recovery efforts associated with recent storm events. Notification to property abutters will occur prior to the commencement of Sunday work.

This approval applies only to additional work hours requested in your email of March 21, 2018. Any additional changes to the D&M Plan require advance notification and approval in accordance with the Council's approval of the D&M Plan on July 21, 2017. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to Regulations of Connecticut State Agencies § 16-50j-62.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes §16-50u.

Thank you for your attention and cooperation.

Very truly yours,

Melanie A. Bachman
Executive Director

Subject: Docket 468 REQUEST FOR SUNDAY WORK HOURS

Hi Melanie:

Eversource is requesting approval of Sunday work hours (8AM. to 5PM.) on March 25 from Council staff to install and test the new 115kV cable necessary for the relocation of the capacitor bank inside the Stony Hill Substation in the Town of Brookfield. The reason for the request is the need to recover lost time due to the crews being reassigned to storm restoration efforts the past few weeks and to meet our scheduled completion date.

The Town of Brookfield has already been contacted about this work and due to today's storm the abutters will be contacted tomorrow.

Please review and let me know if you have any questions or concerns.
