RE: **Docket No. 486** - Tarpon Towers II LLC Certificate of Environmental Compatibility and Public Need for the Construction, Maintenance and Operation of a telecommunications facility located at 796 Woodin Street, Hamden, Connecticut. **Development and Management Plan Revision.**

Dear Mr. Coppins:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated May 11, 2020 regarding a revision to the Development and Management (D&M) Plan for the above-referenced site that was approved by the Council on February 27, 2020.

Pursuant to Regulations of Connecticut State Agencies §16-50j-77(b), your request to modify the access road to improve site drainage is hereby approved. The improvements include the installation of a gravel trench and perforated pipe installed along the northern edge of the access road, adjacent to an embankment along the Wilbur Cross Parkway, to collect and disperse groundwater away from the access road.

This approval applies only to the D&M Plan revision dated May 11, 2020 and additional information dated May 18, 2020. Any significant changes to the D&M Plan require advance Council notification and approval.

Please be advised that deviations from this plan are enforceable under the provisions of the Connecticut General Statutes § 16-50u. Furthermore, the Certificate Holder is responsible for reporting requirements pursuant to Regulations of Connecticut State Agencies Section 16-50j-77.

Thank you for your attention and cooperation.

Sincerely,

*s/Melanie A. Bachman*
