RE: Waterside Power 16-50r Response

Dear Ms. Roberts,

Please accept this correspondence as completing the annual reporting requirement.

Section 16-50r Responses:

- 1) The Waterside Power generating facility has a nominal facility rating of 69.6 MWs.
- 2) The table below reports, as also reported to the Energy Information Administration, the output from the facility during the five previous calendar years.

Waterside Power Electrical Output:

Year	2007	2008	2009	2010	2011
MWs	2829	3871	2030	5185	2335

- 3) The Waterside Power generating facility is in service.
- 4) Waterside Power is not scheduling a generating facility construction project.
- 5) Not Applicable.
- 6) Not Applicable, no planned transmission lines projects.
- 7) There are no upgrade projects scheduled for the facility.
- 8) Not Applicable.

If you should have any questions please do not hesitate to contact me at (912) 826-3277 or by email at mlydon@camsops.com.

Sincerely,

Matt Lydon
Regulatory Compliance Manager
