Re: Docket No. F-2012/2013 – Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources.

Dear Linda Roberts:

The following is intended to fulfill such obligations as Connecticut Resources Recovery Authority (CRRA) may have regarding the filing of a report as described in Connecticut General Statute 16-50r. While it is our desire to be comprehensive, we can only make statements in reference to subjects for which we have first hand knowledge.

1. Tabulation of Estimated Peak Loads, Resources and Margins

CRRA owns four peaking units (11, 12, 13, 14) located at the South Meadows Facility in Hartford, Connecticut. The Claimed Capability of each unit is as follows:

	Summer Claimed Capability	Winter Claimed Capability
South Meadows 11	35.781 MW	46.921 MW
South Meadows 12	37.701 MW	47.867 MW
South Meadows 13	38.317 MW	47.917 MW
South Meadows 14	36.746 MW	46.346 MW

2. Data on Energy Use and Peak Loads for the Five Preceding Calendar Years

CRRA's net production of electricity is as follows:

	South Meadows Peaking Facility Production (2007-2011)			
	Unit 11- MWhrs	Unit 12- MWhrs	Unit 13- MWhrs	Unit 14- MWhrs
2007	1035.139	1934.401	2391.466	1342.906
2008	452.735	469.23	718.36	391.704
2009	497.171	517.47	531.016	451.058
2010	568.363	694.117	625.003	567.945
2011	569.18	647.248	642.98	635.668

3. A List of Generating Facilities in Service

Mid-Connecticut Project South Meadows Facility

4. A list of scheduled generating facilities for which property has been acquired, for which certificates have been issued, and for which certificate applications have been filed.

None

5. A list of planned generating units at plant locations for which property has been acquired, or at plant locations not yet acquired, that will be needed to provide estimated additional electrical requirements, and the location of such facilities.

None

6. A list of planned transmission lines on which proposed route reviews are being undertaken or for which certificate applications have already been filed.

None

7. A description of the steps taken to upgrade existing facilities and to eliminate overhead transmission and distribution lines in accordance with the regulations and standards described in section 16-50t.

None

8. Private power producers.

Not applicable.

Please call me at (860) 757-7707 with any questions.

Very truly yours,

Rich Quelle
Chief Engineer
