RE: Waterside Power 16-50r Response

Dear Ms. Roberts,

Please accept this correspondence as completing the annual reporting requirement Section 16-50r Responses:

- 1) The Waterside Power generating facility has a nominal facility rating of 69.6 MWs.
- 2) The table below reports, as also reported to the Energy Information Administration, the output from the facility during the five previous calendar years.

**Waterside Power Electrical Output:**

Year	2008	2009	2010	2011	2012
MWs	3871	2030	5185	2335	1462

- 3) The Waterside Power generating facility is in service.
- 4) Waterside Power is not scheduling a generating facility construction project.
- 5) Not Applicable.
- 6) Not Applicable, no planned transmission lines projects.
- 7) There are no upgrade projects scheduled for the facility.
- 8) Not Applicable.

If you should have any questions please do not hesitate to contact me at (912) 826-3232 or by email at [jseward@camsops.com](mailto:jseward@camsops.com).

Sincerely,

Ms. Jobie Seward  
EHS Specialist
