**RE: CGS Section 16-50r Input to Forecast of Loads and Resources:
Kimberly-Clark Corporation, New Milford Mill**

Dear Ms. Roberts:

Pursuant to, and to the extent required by, Connecticut General Statute §16-50r, as amended, Kimberly-Clark Corporation hereby submits the enclosed Annual Report of Forecast of Loads and Resources (Annual Report).

The original and 20 copies of Annual Report are enclosed.

If you have any questions please contact me at (860) 355-6635 or by e-mail at kjkoski@kcc.com.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Kevin Koski".

Kevin Koski
Utilities Manager
Kimberly-Clark Corporation

- (1) A tabulation of estimated peak loads, resources and margins;

Not Applicable.

- (2) Data on use and peak loads for the preceding five calendar years;

Net MWH generated:

2010:	226,610
2011:	231,076
2012:	227,099
2013:	225,510
2014:	226,652

- (3) A list of generating facilities in service;

Kimberly-Clark Corporation, located at 58 Pickett District Road, New Milford, is a 34.1 MW combined heat and power generating plant that utilizes pipeline natural gas.

- (4) A list of generating facilities for which property has been acquired, for which certifications have been issued, and for which certificated applications have been filed;

None.

- (5) A list of planned generating units at plant locations for which property has been acquired;

None.

- (6) A list of planned transmission lines on which proposed route reviews are being undertaken or for which certificate applications have been filed;

None.

- (7) A description of steps taken to upgrade existing facilities;

None.

- (8) For each private power producer having a facility generating more than one megawatt and from whom the person furnishing the report has purchased electricity during the preceding calendar year, a statement including the name, location, size and type of generating facility, the fuel consumed by the facility and the by-product of the consumption.

Not applicable.
