Docket No. F – 2019/2020

Robert Stein, Chairman
Connecticut Siting Council
10 Franklin Square
New Britain, CT 06051

FEB 25 2019

Re: Docket No. F – 2019/2020 – Connecticut Siting Council Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources – Dominion Energy Nuclear Connecticut, Inc.

Dear Chairman Stein:

Pursuant to the provisions of Section 16-50r of the Connecticut General Statutes, Dominion Energy Nuclear Connecticut, Inc. (DENC) submits the attached report of its ten-year forecast of loads and resources. DENC is the majority owner and licensed operator of Millstone Power Station located in Waterford, Connecticut. In accordance with the Council's instructions, an original and 15 copies are enclosed.

Please contact Mr. Kevin R. Hennessy, State Policy Director – New England at (860) 444-5656 with questions or if additional information is needed.

Sincerely,

John R. Daugherty
Site Vice President – Millstone

Attachment 1: Docket No. F – 2019/2020, Review of the Ten-Year Forecast of Connecticut Electric Loads and Resources

cc: Kevin R. Hennessy
William S. Blair, Esq.

ATTACHMENT 1

Docket No. F – 2019/2020
Review of the Ten-Year Forecast of
Connecticut Electric Loads and Resources

MILLSTONE POWER STATION
DOMINION ENERGY NUCLEAR CONNECTICUT, INC. (DENC)

**STATE OF CONNECTICUT
CONNECTICUT SITING COUNCIL**

IN RE : **Docket No. F – 2019/2020**
REVIEW OF THE TEN-YEAR FORECAST :
OF CONNECTICUT ELECTRIC LOADS :
AND RESOURCES :

February 25, 2019

REPORT OF FORECAST OF LOADS AND RESOURCES
DOMINION ENERGY NUCLEAR CONNECTICUT, INC.

Pursuant to the provisions of Section 16-50r of the General Statutes, Dominion Energy Nuclear Connecticut, Inc. (DENC), the operator of Millstone Power Station (Millstone), hereby submits this report of its ten-year forecast of loads and resources. Millstone consists of three power generating units. Millstone Unit 1, which is owned in its entirety by DENC, permanently ceased operations in 1998. Millstone Unit 2 is owned, in its entirety, by DENC. DENC owns 93.47% of Millstone Unit 3. The remaining interest in Millstone Unit 3 is owned by the Massachusetts Municipal Wholesale Electric Company (4.8%) and Green Mountain Power Corporation (1.73%).

(1) A Tabulation of Estimated Peak Load, Resources and Margins for Each Year

Millstone Units 2 and 3 are DENC's sole power generating assets in the State of Connecticut. DENC acquired Millstone on March 31, 2001, acquiring rights to all generation beginning April 1, 2001. Millstone Unit 2 has the capacity to generate 883.5 net megawatts (MW) of electricity and Millstone Unit 3 has the capacity to generate 1,227.0 net MW of electricity.

DENC, as a wholesale power producer, does not have a franchise territory within which it would estimate peak load requirements or margins for the period 2018 through 2027, and therefore, no such estimates are offered.

(2) Data on Energy Use and Peak Loads for the Five Preceding Calendar Years

In the time period January 1, 2014 to December 31, 2014 (calendar year 2014), Millstone generated 15,840,791 megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2015 to December 31, 2015 (calendar year 2015), Millstone generated 17,410,916 megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2016 to December 31, 2016 (calendar year 2016), Millstone generated 16,569,494 megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2017 to December 31, 2017 (calendar year 2017), Millstone generated 16,499,621, megawatt-hours of electricity for sale into the New England power grid.

In the time period January 1, 2018 to December 31, 2018 (calendar year 2018), Millstone generated 16,881,481, megawatt-hours of electricity for sale into the New England power grid.

(3) A List of Existing Generating Facilities in Service

Millstone Unit 2 883.5 MW Net Generating Capacity

Millstone Unit 3 1,227.0 MW Net Generating Capacity

(4) A List of Scheduled Generating Facilities For Which Property Has Been Acquired, For Which Certificates Have Been Issued, and For Which Certificate Applications Have Been Filed.

None.

(5) A List of Planned Generating Units at Plant Locations For Which Property Has Been Acquired, or at Plant Locations not Yet Acquired, That Will Be Needed to Provide Estimated Additional Electrical Requirements, and the Location of Such Facilities.

None.

(6) A List of Planned Transmission Lines on Which Proposed Route Reviews Are Being Undertaken or For Which Certificate Applications Have Already Been Filed.

None.

- (7) **A Description of the Steps Taken to Upgrade Existing Facilities and to Eliminate Overhead Transmission and Distribution Lines in Accordance with the Regulations and Standards Described in Section 16-50t.**

None.

- (8) **Private Power Producers**

Not applicable.

Respectfully submitted,

DOMINION ENERGY NUCLEAR CONNECTICUT, INC.
