RE: Waterside Power 16-50r Response

ORIGINAL

Dear Ms. Bachman,

Please accept this correspondence as completing the annual reporting requirement Section 16-50r Responses:

- 1) The Waterside Power generating facility has a nominal facility rating of 69.6 MWs.
- 2) The table below reports, as also reported to the Energy Information Administration, the output from the facility during the five previous calendar years.

Waterside Power Electrical Output:

Year	2015	2016	2017	2018	2019
MWs	1026	1625	1242	1378	1267

- 3) The Waterside Power generating facility is in service.
- 4) Waterside Power is not scheduling a generating facility construction project.
- 5) Not Applicable.
- 6) Not Applicable, no planned transmission lines projects.
- 7) There are currently no upgrade projects scheduled for the facility.
- 8) Not Applicable.

If you should have any questions please do not hesitate to contact me at (203) 978-1502 or by email at wjolly@camsops.com.

Sincerely,

William Jolly
