Re: **EM-VER-012-140114 – Cellco Partnership d/b/a Verizon Wireless**
12 Carpenter Road, Bolton, Connecticut

Dear Ms. Bachman:

On February 7, 2014, the Siting Council acknowledged receipt of the above-referenced notice of intent to modify the existing telecommunications facility at 12 Carpenter Road in Bolton, Connecticut. The modifications involved the replacement of certain antennas, the installation of remote radio heads and the installation of a new fiber optic antenna cable.

As a condition of the acknowledgement, Cellco was required to provide the Council with a letter stating that its installation complied with the recommendations of the structural analysis. Attached is a Professional Engineer's Tower Modification Certification letter verifying that the modifications were completed as required. All construction activity associated with Cellco's facility modifications has now been completed.

If you have any questions please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Kenneth C. Baldwin".

Kenneth C. Baldwin

Re: Tower Modification Certification

Project: Verizon Manchester 2
12 Carpenter Rd, Bolton, CT

Tower Owner: SBA Communications Corporation
8051 Congress Ave, Boca Raton, FL

Engineer: FDH Engineering
2730 Rowland Ave, Raleigh, NC

Centek Project No.: 15003.043

CSC Exempt Mod Reference No.: EM-VER-012-140114

Dear Mr. Parks,

We are providing this "Tower Modification Certification" with regard to the structural components at the above referenced project.

The following are the basis for substantiating compliance with the Structural Analysis prepared FDH Engineering, Inc. (FDH Project Number: 13SFSI1400):

- Review of FDH Engineering, Inc. Structural Analysis Report dated 10/01/2013.
- Field observations by Centek Engineering personnel on 06/25/2015 of the completed modifications which determined all modifications were installed in general compliance with the recommendations of the structural analysis report prepared FDH Engineering, Inc. dated 10/01/13.

The modification design prepared by FDH Engineering, Inc. demonstrates the tower will not exceed 100 percent of the post construction structural rating. The work under this Contract has been reviewed and found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification/reinforcement solution.

Sincerely,

Carlo F. Centore, PE
Principal - Structural
