RE: **EM-SPRINT-030-181009** – Sprint notice of intent to modify an existing telecommunications facility located at 14 Thompson Hill Road, Columbia, Connecticut.

Dear Mr. Barbadora:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on October 9, 2018. On October 10, 2018, the Council issued a letter (enclosed) stating that the above referenced request for exempt modification was incomplete because the mount analysis referenced in the Construction Drawings was not provided with the request. The Council requested that Crown Castle provide a mount analysis for the proposed equipment that is stamped and signed by a professional engineer duly licensed in the State of Connecticut and, if applicable, an updated Structural Analysis Report accounting for any required antenna mount modifications.

On October 19, 2018, the Council received a Mount Structural Analysis dated July 17, 2018 prepared by Hudson Design Group and stamped and signed by Daniel Hamm. Staff observed that Section 4.10 on page 4 of the Mount Structural Analysis refers to the installation of a new 12-foot low profile platform mount (RMQ-472). However the Structural Analysis Report dated May 31, 2018 prepared by AW Solutions, Inc. provided with the request indicates a platform reinforcement kit (PRK1245). This is inconsistent with the Mount Structural Analysis provided with the request for exempt modification.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Crown Castle provide an updated Structural Analysis Report accounting for any required antenna mount modifications on or before November 26, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to November 26, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director

RE: **EM-SPRINT-030-181009** – Sprint notice of intent to modify an existing telecommunications facility located at 14 Thompson Hill Road, Columbia, Connecticut.

Dear Mr. Barbadora:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on October 9, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the request. The Construction Drawing Sheets A-1 and A-2 prepared by Hudson Design Group, last revised on September 7, 2018, includes a structural note which references a mount analysis prepared by Hudson Design Group and dated July 16, 2018. No mount analysis is included with the request for exempt modification; therefore, it is unclear whether additional reinforcements would be required for the antenna mount, which would alter the proposed loading on the structure and require an updated structural analysis report.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Crown Castle provide a mount analysis for the proposed equipment that is stamped and signed by a professional engineer duly licensed in the State of Connecticut and, if applicable, an updated Structural Analysis Report accounting for any required antenna mount modifications on or before November 16, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to November 16, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director
