RE: **EM-CING-040-180807** - New Cingular Wireless, PCS, LLC notice of intent to modify an existing telecommunications facility located at 60 South Main Street, East Granby, Connecticut.

Dear Mr. Ford:

The Connecticut Siting Council (Council) is in receipt of your correspondence of August 20, 2018 submitted in response to the Council's August 14, 2018 notification of an incomplete request for exempt modification with regard to the above-referenced matter.

The Council has been advised by Crown Castle (the tower owner) that Sprint did not complete construction of EM-Sprint-040-170511 that was acknowledged by the Council on May 31, 2017. Additionally, Council records indicate that Sprint did not provide a letter to the Council to indicate completion of construction per Condition No. 3 of the May 31, 2017 acknowledgement (which ultimately expired on May 31, 2018).

The submission renders New Cingular Wireless PCS, LLC's request for exempt modifications complete and the Council will process the request in accordance with the Federal Communications Commission 60-day timeframe.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

MAB/MP/emr

Good Morning Evan,

In regards to your correspondence from 8/16/18, please see the attached email from the tower owner, Crown Castle.

“The proposed Sprint application was canceled and the equipment noted on the January 10, 2017 SA was never installed.”

Based on this information, can the current AT&T application move forward with CSC review?

Thanks

Paul,

See below, we just got a rejection from zoning.

Why would the 7/10/18 AT&T SA not include the Sprint loading shown in the 1/10/17 SA?

Staff has reviewed this exempt modification request for completeness and has identified a del analysis report provided with the above filing. The above-referenced request for exempt modi structural analysis report dated July 10, 2018. Previous to that date, the Council acknowl modification on May 31, 2017 with a structural report dated January 10, 2017.

The July 10, 2018 structural analysis report provided with the request for exempt modification c approved Sprint equipment. Please refer to Sprint's May 8, 2017 request for exempt modificati Sprint-040-170511) available on the Council's website at the following link:

Thanks

David Ford

Hi Paul,

Would you be able to forward over a link to the DocuSign for this amendment? I am taking over this project from a colleague but do not have access to the email/link.

Thank you!
