Re: **EM-VER-045-191112 – Cellco Partnership d/b/a Verizon Wireless (“Cellco”)
6 & 8 Grand Street, East Lyme, Connecticut**

Dear Ms. Bachman:

On November 25, 2019, the Siting Council acknowledged receipt of Cellco’s notice of intent to modify its existing telecommunications facility at 6 & 8 Grand Street in East Lyme, Connecticut. Cellco’s modifications involved the replacement of antennas and installation of remote radio heads on the existing tower.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the Structural Analysis Report, which was attached to the EM-VER-045-191112 filing.

Attached is a Notice of Completion from Nexius verifying that Cellco’s facility modifications were completed in accordance with the October 31, 2019 Structural Analysis Report.

If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

RE: Notice of Completion
Site Name: NIAN TIC_CT
Location Code: 1371367
Site Address: 6&8 GRAND ST, NIAN TIC, CT 06357

CSC Exempt Mod Reference No.: EM-VER-045-191112

Dear Mr. Parks:

Nexius Solutions Inc. is providing this "Notice of Completion" regard to the wireless telecommunications facility installation project at the above referenced site.

The following are the basis for substantiating compliance with the Construction Drawings prepared by Nexius Solutions Inc.:

- Installation complies with the Construction Drawings w/ tower modification drawings prepared by Nexius Solutions Inc. dated October 31, 2019.
- Field observations by Nexius Solutions Inc. personnel on December 17, 2019 of the completed installation which was installed in general compliance with the aforementioned Construction Drawings.

The tower structural analysis prepared by Nexius Solutions Inc., demonstrates the existing tower with proposed modifications will not exceed 100 percent of the structural capacity due to the proposed loading changes. The work under this Contract has been reviewed solely based upon provided site visit photos and was found, to the Engineer's best knowledge, information and belief, to be completed in general compliance with the documents referenced above. This certification is not a review of the adequacy or effectiveness of the modification / reinforcement solution. Should you have any questions, comments or require additional information, please do not hesitate to contact us.

Sincerely Yours,
Jiazhu Hu, P.E.
