RE: **EM-SPRINT-039-180907** – Sprint notice of intent to modify an existing telecommunications facility located at 71 Ashford Road, Eastford, Connecticut.

Dear Mr. Barbadora:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on September 7, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Construction Drawing (CD) submitted with the above request for exempt modification. The structural note on sheet A-2 of the CD indicates that the Structural Analysis Report was prepared by Paul J Ford. However, the Structural Analysis Report submitted was prepared by Crown Castle.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Crown Castle provide an updated CD referencing the most current Structural Analysis Report on or before October 11, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to October 11, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director

MAB/FOC/IN
