Dear Ms. Bachman:

On May 3, 2015, the Siting Council acknowledged receipt of Cellco’s notice of intent to modify its existing telecommunications facility at 539 Plains Road in Haddam, Connecticut. Cellco’s modifications involved the replacement of antennas and remote radio heads. As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the August 27, 2015 Structural Analysis Report and Modification Drawings, which were attached to the EM-VER-061-151021 filing.

Attached is an Engineering Notice of Compliance verifying that Cellco’s facility modifications were completed in accordance with these recommendations. If you have any questions please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin
