RE: EM-SPRINT-079-180813-Sprint notice of intent to modify an existing telecommunications facility located at 73 North Main Street, Marlborough, Connecticut.

Dear Mr. Barbadora:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on August 13, 2018.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the structural analysis report provided with the above referenced request for exempt modification. The request includes a structural analysis report dated June 6, 2018. Previous to that date, the Council acknowledged an AT&T exempt modification on February 21, 2017 with a structural report dated January 13, 2017.

The June 6, 2018 structural analysis report provided with the request for exempt modification does not account for the approved AT&T equipment. Please refer to AT&T's January 30, 2017 notice of exempt modification for this facility (EM-AT&T-079-170131) available on the Council's website at the following link:

https://www.ct.gov/csc/lib/csc/ems/marlborough/nomainst/att_cing/em-at&t-079-170131_filing_northmainst.pdf

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Crown Castle provide an updated structural analysis report accounting for AT&T's approved equipment, as well as any required mount modifications on or before September 17, 2018. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to September 17, 2018.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman (handwritten signature)

Melanie Bachman
