RE: **EM-SPRINT-084-150402** – Sprint PCS notice of intent to modify an existing telecommunications facility located at 528 Wheelers Farm Road, Milford, Connecticut.

Dear Mr. Barbadora:

The Connecticut Siting Council (Council) is in receipt of your letter dated April 24, 2017 submitted on behalf of Sprint PCS requesting an extension of time to submit a notice of completion of construction and associated post modification inspection report, if applicable, for the above-referenced exempt modification.

The Council hereby grants a second, one-year extension of time until April 21, 2018, to submit a notice of completion of construction and associated post modification inspection report, if applicable, for the above-referenced exempt modification.

This extension is granted with the understanding that the Council will be notified should Sprint PCS need additional time to submit a notice of completion and associated post modification inspection report, if applicable, or decides not to proceed with construction.

Thank you for your attention to this matter.

Sincerely,

Melanie A. Bachman
Executive Director

MAB/bm

Maine, Brennan

Good evening Council,

The original decision was issued on April 21, 2015 and then extended on April 21, 2016 for one year. I have attached both documents. Sprint has not commenced any work as of yet but has brought to our attention that they would like to commence work on the tower within the year. All work remains the same with no changes to our original application of 2015. Sprint is looking to modify their equipment in many areas of CT over the next year and it would be of great help to them if they could avoid a resubmittal for the same equipment modification.

Is the Council able to extend this decision for another year?

Please let me know if you have any question.

Thanks for your time on this matter,

Jeffrey Barbadora
