RE: **EM-T-MOBILE-084-190118** – T-Mobile notice of intent to modify an existing telecommunications facility located at 528 Wheelers Farm Road, Milford, Connecticut.

Dear Mr. Stone:

The Connecticut Siting Council (Council) received a notice of intent to modify the above-referenced facility on January 18, 2019.

According to Section 16-50j-71 of the Regulations of Connecticut State Agencies, "...any modification, as defined in Section 16-50j-2a of the Regulations of Connecticut State Agencies, to an existing tower site, except as specified in Sections 16-50j-72 and 16-50j-88 of the Regulations of Connecticut State Agencies, may have a substantial adverse environmental effect."

Staff has reviewed this exempt modification request for completeness and has identified a deficiency in the Construction Drawings Provided with the request. A structural note on sheets A-1, A-2 and A-3 of the Construction drawings prepared by Hudson Design Group and last revised October 25, 2018, references a Tower Structural Analysis Report prepared by Tower Engineering Professionals and dated October 4, 2018. The Structural Analysis Report provided with the request is dated November 15, 2018.

Therefore, the exempt modification request is incomplete at this time. The Council recommends that Crown Castle provide an updated Construction Drawing for the proposed modifications that is consistent with and references the Structural Analysis Report provided on or before March 1, 2019. If additional time is needed to gather the requested information, please submit a written request for an extension of time prior to March 1, 2019.

This notice of incompleteness shall have the effect of tolling the Federal Communications Commission (FCC) 60-day timeframe in accordance with Paragraph 217 of the FCC Wireless Infrastructure Report and Order issued on October 21, 2014 (FCC 14-153).

Thank you for your attention to this matter. Should you have any questions, please feel free to contact me at 860-827-2951.

Sincerely,

Melanie Bachman
Executive Director
