Re: **EM-VER-164-190508 – Cellco Partnership d/b/a Verizon Wireless (“Cellco”)  
482 Pigeon Hill Road, Windsor, Connecticut**

Dear Ms. Bachman:

On June 3, 2019, the Siting Council acknowledged receipt of Cellco’s notice of intent to modify its existing telecommunications facility at 482 Pigeon Hill Road in Windsor, Connecticut. Cellco’s modifications involved the replacement of certain antennas and remote radio heads on the existing tower.

As a condition of its approval, Cellco was required to provide the Council with a letter stating that it had complied with the recommendations made in the April 11, 2019 Structural Modification Report, which was attached to the EM-VER-164-190508 filing.

Attached is a Compliance Letter from On Air Engineering, LLC verifying that all of Cellco’s facility modifications were completed in accordance with the April 11, 2019 Structural Modification Report.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Kenneth C. Baldwin

Re: Verizon Site Name: Windsor CT – Antenna Modification - Engineering Letter of Compliance  
Verizon Switch 160 Ft. Self-Support Lattice Tower, 482 Pigeon Hill Rd., Windsor, CT

Design Engineers: On Air Engineering, LLC; Paul J. Ford & Company

CSC Reference #: EM-VER-164-190508

Dear Andrew:

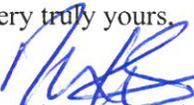

We are providing this letter of compliance with regard to the above referenced project. The following are the basis for substantiating compliance with this modification:

- Construction Drawings by On Air Engineering dated 4-25-19 V2
- Structural Modification Report by Paul J. Ford & Company dated 4-11-19
- Mount Analysis “Opinion Letter” by Paul J. Ford & Company dated 10-30-18
- Third Party Climbing Inspection by Berkshire Wireless on 9-29-20

Verizon’s facility modification is described in detail within the above referenced Construction Drawings as it pertains to Verizon antenna, RRH, OVP and cabling upgrades, including replacement of the antenna frames with new Site Pro VFA12 frames. The structural modification report also detailed tower reinforcements required between 120-126 ft.

The work under this contract has been reviewed and found, to the Engineer’s best knowledge, information and belief, to be completed in general compliance with the referenced documents and in conformance with the building permit issued for this work. Please feel free to contact our office if you have any questions.

Very truly yours,
