RE: Connecticut Siting Council Petition No. 1133-20200305
1289 West Main Street
Waterbury, Connecticut

Dear Ms. Bachman:

The City of Waterbury is in receipt of the above referenced petition requesting modification to an existing rooftop telecommunication facility located at the above referenced address.

Please be advised that the City of Waterbury Department of Planning has no objection to this request; further recognizing that the regulatory authority falls under the jurisdiction of the Connecticut Siting Council. With that said, we would like to remind the carrier of their obligation to check with the City's Building Department regarding any requisite building and/or electrical permits prior to the commencement of work.

The City appreciates the petitioner's efforts to conceal equipment through the use of stealth materials and views the proposal as a vast improvement over existing conditions. Moving forward, we urge other carriers to employ similar creativity when addressing our community's telecommunication needs.

Respectfully,

Robert J. Nerney, AICP
City Planner
