Hartford, CT 06103-3702

RE: **PETITION NO. 1313** – DWW Solar II, LLC declaratory ruling that no Certificate of Environmental Compatibility and Public Need is required for the proposed construction, maintenance and operation of a 26.4 megawatt AC solar photovoltaic electric generating facility on approximately 289 acres comprised of 5 separate and abutting privately-owned parcels located generally west of Hopmeadow Street (US 202/CT 10), north and south of Hoskins Road, and north and east of County Road and associated electrical interconnection to Eversource Energy's North Simsbury Substation west of Hopmeadow Street in Simsbury, Connecticut. **D&M Plan Revision**

Dear Attorney Hoffman:

The Connecticut Siting Council (Council) is in receipt of your correspondence dated September 20, 2019 regarding the revision to the Development and Management (D&M) Plan for the above-referenced site that was approved by the Council on March 29, 2019.

Pursuant to Regulations of Connecticut State Agencies §16-50j-62(b), your request for the installation of an additional bore pit, approximately 10 feet long by 5 feet wide by 4 feet deep, located between the two originally-proposed bore pits along the existing farm road is hereby approved. The additional bore pit would reduce the length of the bore and minimize the release of associated boring fluids.

This approval applies only to the D&M Plan revision dated September 20, 2019. Any significant changes to the D&M Plan require advance Council notification and approval.

Thank you for your attention and cooperation.

Sincerely,

Melanie A. Bachman
Executive Director

MB/RM
