Melanie A. Bachman  
Executive Director/Staff Attorney  
Connecticut Siting Council  
10 Franklin Square  
New Britain, CT 06051

**RE: Petition No. 1347A – GRE GACRUX LLC petition for a declaratory ruling, pursuant to Connecticut General Statutes §4-176 and §16-50k, for the proposed construction, maintenance and operation of a 16.78-megawatt AC solar photovoltaic electric generating facility located at 117 Oil Mill Road and associated electrical interconnection to Eversource Energy’s existing substation at 325 Waterford Parkway North in Waterford, Connecticut. Reopening of this petition based on changed conditions pursuant to Connecticut General Statutes §4-181a(b).**

Dear Ms. Bachman:

I am writing on behalf of my client, GRE GACRUX LLC (hereinafter, “Greenskies”) in connection with the above-referenced Petition. Pursuant to the Council’s Decision and Order, dated November 5, 2020, in the above-referenced Petition, Greenskies respectfully submits the following Development and Management Plan (“D&M”) documents to the Council for its review and approval. This submission is a partial D&M Plan submission for the Project.

The documents included with this cover letter only pertain to the “Pre-Construction Sequence Work” that is outlined on Page C 5.0 of the Construction Drawing Set. The goal with this submission is to allow Greenskies to do necessary civil work and construction of stormwater controls on the site, but not to begin driving posts or installing racking, panels or other equipment. Before that phase of construction will be undertaken, Greenskies will submit a further D&M Plan that will address that stage of construction, in accordance with the Council’s Decision and Order.

The items listed below are included in this Partial D&M Plan Submission:

1. A Partial D&M Plan for the Pre-Construction Sequence Work, which includes:

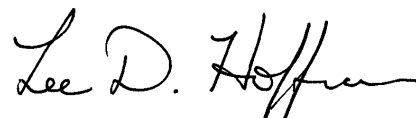

Page 2

- a. Final Site Plans;
  - b. Stormwater Pollution Control Plan, revised January 12, 2021;
  - c. Eastern Ribbon Snake Protection Plan;
  - d. CTDEEP Dam Safety Program Determination Letter, dated January 20, 2021;
  - e. Spill Prevention, Control, and Countermeasure Plan;
  - f. Traffic Management Plan, drafted January 15, 2021 and revised on January 29, 2021 to reflect the Town of Waterford's comments.
2. A Copy of the Project's General Permit Authorization, issued by the Connecticut Department of Energy and Environmental Protection ("CTDEEP") on November 3, 2020;
  3. VHB Letter Regarding Seasonal Tree-Clearing Activities, dated January 20, 2021; and
  4. Pre-Construction Sequence Schedule Narrative

Please note that the project's hours are listed on Sheet C 5.0 in the Final Site Plans as 6:30 a.m. to 5:00 p.m., however, days are not listed for those hours. Greenskies anticipates that the project work hours for this phase of the project will be at the times listed above for Monday through Friday, however, given the short schedule for work, the project anticipates that work will occur on some, but not all Saturdays.

We look forward to working with the Council as it evaluates this D&M Plan submission. Should you have any questions concerning this submittal, please feel free to contact me at your convenience.

Sincerely,

Lee D. Hoffman
